William Jewell College

1991-93 Evening Division Catalog

1991-93 Evening Division Catalog

The G. Wayne Mast Center for Continuing Education

William Jewell College/Liberty, MO 64068 500 College Hill/781-7700 Ext. 5399

Dear Potential Student:

You are invited to join our six to seven hundred adults who study with us each semester. About half our students are studying for a degree while the others are taking courses because of a personal or career interest.

You will find your classes challenging. Most adults take one or two classes a semester to allow them to study and work. You can plan your program of study over a long period of time because the schedule of classes in the middle of this catalog stays essentially the same from year to year.

Our degree and certificate programs at William Jewell include:

CERTIFICATE PROGRAM IN PARALEGALISM

BACHELOR DEGREES ACCOUNTING BUSINESS ADMINISTRATION ECONOMICS NURSING COMPLETION PSYCHOLOGY SOCIOLOGY SYSTEMS AND DATE PROCESSING

You will find our bookstore, library, and computer center open at night when you need them. For your convenience we offer enrollment by phone. Please call our counselor - Kay Minor - or me if you would like more information or would like to make an appointment.

Sincerely yours, STEVE SCHWEGLER Associate Dean/Continuing Education 781-7700, Extension 5399

General Information

PURPOSE OF THE PROGRAM	The Evening Division of William Jewell College provides courses and degree programs for adults who wish to study at night. William Jewell, founded by the Baptists of Missouri in 1849, is open to all qualified men and women. Racial, experiential, and philosophical dif- ferences enrich the college community by creating an interplay of ideas and different points of view.
	The Evening Division degree programs, like the day programs, are grounded in the liberal arts. Those de- gree programs, therefore, require a number of courses which are, in total, designed to expose students to a variety of disciplines, a breadth of knowledge, skills of critical thinking, and a comprehensive understanding of our culture and times. Education in the liberal arts at a college like William Jewell is different than the specializ- ed and more narrow training which is offered in some other programs. At William Jewell we seek to develop the capacity of the mind to learn over a lifetime rather than seeking to impart skills which are often only im- mediately applicable to an always changing technologi- cal society. Toward the beginning of the nineteenth century a now well-known report was published by Yale College. That report stated the purpose of that college's liberal arts education at that time. It is still a definitive statement about the purposes of liberal arts education at this time. It reads that the object of a student is not to finish his education; but to lay the foundationIf he acquires here a
	thorough knowledge of the principles of

the foundation...If he acquires here a thorough knowledge of the principles of science, he may then, in a great measure, educate himself. He has, at least been taught how to learn. Men of mere practical detail are wanted, in considerable numbers, to fill the subordinate places in mechanical establishments; but the higher stations require enlightened and comprehensive views.

ADMISSION REQUIREMENTS	Any student registering for the Evening Division must have a high school diploma, or have the recommenda- tion of his/her high school counselor. Students seeking a degree must submit transcripts from all institutions of higher learning attended previously and request the transcripts be evaluated. Students who have been dismissed for academic or other reasons from an institu- tion of higher education must notify the Evening Divi- sion Director. Students who have less than a 2.0 cumulative grade point average must begin their studies on a fifteen credit hour probationary basis.
REGISTRATION	Admission into the Evening Division and registration for class occur at the same time. Registration may be completed during the time periods indicated in the Evening Division calendar. Students may register in person or by phone. 781-7700, ext. 5399.
	A counselor is available to speak with students by ap- pointment from 8:30 a.m. to 7 p.m., Monday through Thursday, to discuss transfer credits, degree and cer- tificate requirements, scheduling and career planning. We urge you to speak with an Evening Division counselor prior to undertaking degree studies. The nor- mal load for working persons is 4-8 semester hours, one or two nights per week.
	The Evening Division maintains office hours from 8:30 a.m. to 4:30 p.m. Monday through Friday. In addition, when classes are meeting, the office is open Monday through Thursday evenings from 4:30 p.m. to 8:30 p.m.

STUDENT SERVICES AND ACTIVITIES

LIBRARY: All students in the Evening Division may use the facilities of the Charles F. Curry Library. Books may be checked out with the student identification card, obtained in the Evening Division office.

CAREER DEVELOPMENT AND PLACEMENT:

The Office of Career Development and Placement is located on the third floor of Yates College Union. This Office handles position referrals for alumni and seniors in all fields. In addition, emphasis is placed on vocational guidance and counseling and on working with individual students (freshmen through senior) in exploring possibilities of career endeavors. Throughout the year, the office augments students' employment searches with interviews, resource materials and career programs.

COLLEGE UNION: Textbooks and supplies may be purchased at the bookstore located downstairs in the Yates College Union. The bookstore is open in the evenings at the beginning of each semester and on Wednesday evening throughout the semester.

Evening Students may also use the food service provided in the ''Cage'' in the union. The Cage is open evenings.

COUNSELING AND TESTING: For many courses, students may get the names of tutors from this office at extension 5246. Students pay the tutor a small hourly fee.

FINANCIAL AID: Financial aid is available to evening students. Enquiries for more information should be directed to the financial aid office at extension 5143.

VETERANS	All courses in the William Jewell Evening approved for veterans' benefits provided meets eligibility requirements under the adheres to college policy of regular atten per withdrawal.	the applicant law and
TUITION- FEES	Tuition for the semester is payable at the time of registration. A student is not officially registered until the financial obligations have been arranged through the business office. The college is equipped to honor Discover, Visa and MasterCard. Payment plans may be arranged by the Business Office, in which case a finance charge is assessed. Tardy payment arrangements will result in registration cancellation.	
	Tuition per semester hour, 1991-1992 Finance Charge Senior Citizen Tuition Late payment charge Graduation fee Application fee for graduates Transcript of credit Returned check Course lab fees (non-refundable)	\$110.00 1% Month 88.00 15.00 45.00 25.00 2.00 15.00 TBA
FALL AND SPRING REFUND POLICY	Tuition for the 15 week semester is refun than disciplinary reasons as follow: 80% within the first two weeks 60% in the third week 40% in the fourth week 20% in the fourth week NOTE: No refunds are made unless the withdrawn through the Evening Division Notification of the teacher does not cons an official withdrawal. Cash refunds will request to the Business Office. The refun courses offered for fewer than 15 weeks is over the one above.	student has office. stitute a drop or be made upon d schedule for

COURSE, CREDIT, GRADE INFORMATION

CREDIT: The amount of credit for each course is indicated on current brochures. Students are responsible for checking their own records to see that all the general requirements for a degree program have been met and to be sure that they do not repeat a course. Juniors and seniors should check degree requirements with the Evening Division director or counselor before each registration.

Application for graduation should be made at the time of registration for the fall semester by those students who expect to complete requirements for their degree by the end of the first semester, second semester, or summer session.

NON-CREDIT: Some courses are offered on a noncredit basis. Sometimes these may be short courses or seminars, but they may be of any length. No degree credit is available to any student in a non-credit course.

TRANSFER CREDIT: Students may transfer credit from other institutions of higher learning. The last 30 hours of any degree offered by William Jewell must be taken at William Jewell. Twelve of those thirty hours must be in the student's major. When a student is of junior year standing (having completed 64 credits), that student must take work at a four year school for it to be transferable to William Jewell. Students should, at the earliest possible time, consult with an Evening Division counselor regarding credit transferability and degree requirements. In order to assure transfer of credit for courses taken at another college after enrollment at William Jewell, an ''Approval for Study'' form must be completed. The College registar makes final decisions on transfer of credit.

ADVANCED PLACEMENT AND CREDIT: Credit and advanced placement are granted to evening students through the College Level Examination Program (CLEP) and departmental examination. A freshman entering William Jewell College directly from high school may not take the CLEP general examination for credit, however, he may take as many subject exams for credit as he wishes. Entering freshmen who have delayed college entrance by as much as three years since high school graduation may take both CLEP general and subject exams for credit.

The college imposes no limit on the amount of credit a student may earn by examination, although the last thirty credit hours must be completed at William Jewell College. Credit earned by examination is recorded on the student's transcript without a letter grade and with the notation ''credit by examination.'' A recording fee is assessed.

COURSES: Courses numbered 100-499 carry credit toward degrees if the student has satisfied admission requirements. Up to four credit hours of courses numbered below 100 and taken at William Jewell may be applied to a degree at the College.

DROP/ADDS: Students may add to their registration within the first two weeks of classes by means of drop/add cards, which can be obtained in the Evening Division office. Unless otherwise stipulated by the professor, students may withdraw from a class up until and including the last day of regularly scheduled classes, prior to final exams, for the semester or summer term. Students remaining in classes after that day must be assigned a passing or failing grade based on their performance in the course.

GRADING: Grades are indicated by the letters A, B, C, D, F, W, WP, WF. F-Failure; W-withdrew; WPwithdrew passing; WF-withdrew failing; NR-not reported. For graduation, students must have an average of C. Students sign up for a pass/fail option within the first two weeks of the semester. Before repeating a course contact the Registrar's office for information. Students receive grade notification by mail after completion of each term. The College may not release grades over the phone. **INCOMPLETE WORK:** The mark "I" (for incomplete) may be given in any course in which, owing to extenuating circumstances such as serious injury or lengthy illness, a student has been unable to complete the requirements of the course. The student must complete the requirements of the course within the succeeding semester. Failure to do so, without a written contract between instructor and student and approval of the dean, will result in a grade of F.

AUDITORS:Individuals interested in taking regular courses without receiving college credit may enroll as auditors. Such individuals are required to pay the regular tuition fees but may choose not to do the prescribed assignments or participate in the testing procedures. After the second week of semester classes, an audit enrollment may not be changed to a credit enrollment or vice versa.

CLASS ATTENDANCE: A careful record of attendance is maintained by the instructor and the Evening Division office. The student is responsible for maintaining regular attendance and for making up all work missed during absence.

CREDIT FOR INDEPENDENT STUDY: In some cases advanced students may be permitted to take a course on an independent study basis. Application for independent study must be made in the Evening Division prior to initiation of the study.

CANCELLATION OF A CLASS: Any class may be cancelled due to insufficient enrollment. A student may change to another course without additional cost, or have his/her full tuition refunded.

COURSE ON REQUEST: Any regular college course not scheduled for a particular semester may be given if requested by ten or more persons who subsequently enroll, provided that the director of the Evening Division is able to arrange for a qualified instructor. **HONORS:** To make the honor roll for a given semester, the student must make a grade point average for that semester of 3.5 in the Evening Division with a course load of eight or more semester hours with no incompletes and no grades lower than C. Graduating seniors with as many as 3.9 grade points for each hour attempted will be graduated Summa Cum Laude, and this is cited with the degree. A student who completes the work for a degree with 3.75 grade points is graduated Magna Cum Laude, and this is cited with the degree. Additonal information regarding the honors program challenges may be obtained by checking with the director of the Evening Division.

DAY SCHOOL ENROLLMENT: Evening students may enroll for one day class without completing the admission process. That class is charged at the day rate.

OTHER: For complete course listings requirements, and other information, refer to the day college catalog which is available from the admission office.

CALENDAR

William Jewell employs a 4-1-4 calendar. In this arrangement evening students normally attend classes two evenings per week, taking 6-8 hours, during the two semesters extending from September to December and from January to May. The January period between the semesters is known as the "Inter-Term," when two "short" courses may be taken. Evening degree students are not required to take inter-term courses.

SUMMERIn addition to the 4-1-4 academic year, the collegeSCHOOLoperates a summer school of eight weeks. Regular
courses and special workshops are offered during the
summer.

OVERSEAS
STUDYThe college encourages capable evening students to pur-
sue programs of study abroad. Of particular interest
may be the study program in Oxford. This program re-
quires an above average academic ability and will entail
at least eight weeks (October to December or January to
March) of study overseas. The College offers other op-
portunities for semester or year-long study in Japan,
Spain, Germany, and at Cambridge University. For
more information contact Dr. Ann Marie Shannon,
Associate Dean and Coordinator of Overseas Studies.

DEGREE PROGRAMS

Students attending the Evening Division may work for the Bachelor of Science degree (124 semester hours) or the Bachelor of Arts degree (124 semester hours). Degree students fulfill those degree requirements designated under the catalog in use at the time they first enrolled if they enroll each subsequent fall and spring semester. All degree students must pass English 100 by their third semester at William Jewell. Those students who transfer a college-level English composition course in place of ENG 100 must pass the William Jewell Proficiency Test of Writing Skill by their third semester or re-take English composition at Jewell which will not apply toward graduation requirements.

All college graduates must complete two writing component courses. This can be acocmplished by either taking English 255 and the designated writing course in the major, or by taking the Religion course (presently REL 116) with a writing component and one writing course in the major. Writing courses in the major include BUS 406, ACC 431, CST 325, ECO 451, PSY 422 and SOC 412. Writing component courses are designated with a 'w' after the course number.

THE AMERICAN INSTITUTE OF BANKING	William Jewell College and the Kansas City Chapter of the American Institute of Banking (A.I.B.) are academically affiliated. Under terms of the affiliation, students may enroll in and complete certain A.I.B. courses and receive William Jewell credit for those courses. Further information is available from the Even- ing Division or from headquarters of the Kansas City chapter of A.I.B.
ACCREDITATION	William Jewell College is fully accredited by the North Central Association of Colleges and Secondary Schools. The Nursing Department is accredited by the Missouri State Board of Nursing and the National League for Nursing.

Course Descriptions The following courses are regularly offered in the Evening Division. In addition, other courses listed in the William Jewell College Catalog are offered.

201 Principles of Accounting (3) The measurement of financial information, the accounting cycle and preparation of statements, notes and interest, analysis of financial statements. (M or T, Sat., each semester)
202 Principles of Accounting II (3) Organization for planning and control, systems of cost accumulation, comprehensive budgeting, measuring and reporting performance, reporting the effect of price changes. Continuation of ACC 201. (M or T, Sat., each semester)
215 Managerial Cost Accounting (3) Analysis and control of production and distribution costs, selection and use of cost control systems, budgeting and analytical processes. Prerequisite: ACC 202. (Wednesday, each semester)
311 Intermediate Accounting I (4) Theory, financial statements, temporary investments, receivables, inventories, non-current assets. Prerequisite: ACC 202. (M & W, 1st semester annually)
312 Intermediate Accounting II (4) Current and long-term liabilities, paid-in capital, retain- ed earnings, financial statement analysis, funds flow. Continuation of ACC 311. (M & W, 2nd semester)
335 Income Tax - Individual (3) Laws and regulations, determination of taxable income, deductions, exclusions, making and filing returns. Completion of ACC 201 highly recommended. (Satur- day, 1st semester)
336 Income Tax - Corporate (3) Federal taxation of partnerships, corporations, estates, trusts, gifts and inheritance. Prerequisite: ACC 335. (Tuesday, 1st semester)

360 Independent Studies in Accounting (1-3)(arranged)

409 CPA Review Course (4)

An extended review for the November or July state board examination. Offered in four separate sections: A - Auditing; B - Accounting Theory; C - Business Law; D - Accounting Practice and Problems. (TBA)

411 Advanced Accounting (4)

Accounting for partnerships, joint ventures, installment sales, consignments, home and branch offices, consolidated statements.

Prerequisite: ACC 312. (T & TH, 1st semester)

421 Governmental Accounting (3)

Concepts peculiar to the planning and administration of public and quasi-public organizations, such as governmental units and institutions such as hospitals and colleges. Prerequisite: ACC 312. (Monday, 1st semester)

431w Auditing (4)

Examination of financial condition and accounting procedures by public accountants and internal auditors; professional ethics; auditing standards; working papers and reports. Students are required to take the AICPA test. Prerequisite: ACC 411, and Statistics. CST 120/130 highly recommended. (T & Th, 2nd semester)

460 Independent Studies in Accounting (1-3)(arranged)

125/225/325 Drawing/Painting (3)

Basic and advanced drawing and painting techniques. Lab Fee Extra. (Saturday, each semester)

149b Basic Photography (3)

Covers proper development, exposure, and printing of black and white negatives and the basic development of skills and understanding to enhance design, composition, and visual communication in the medium. Lab Fee Extra. Other extensive costs plus manual camera. (T & Th, each semester)

ART

149e Calligraphy (2)

To encourage the student to attempt to acquire an "italic" hand as well as learn two or three basic letter styles, resulting in an appreciation of letters and their form and a creative and inventive approach to joining letters into words. (Monday, each semester)

240 Artforms: Understanding and Enjoying the Visual Arts (3)

An introductory course designed to promote understanding and enjoyment of the visual arts. Humanities credit. (Monday, 1st semester)

249b/349b Intermediate Photography (3)

This course will cover the basics of color theory as applied to photographic processes in use today. The course will be practical in application and will cover film selection, exposure, color balance in printing and composition to final presentation. Prerequisite: ART 149b. (TBA)

249m Multi-Image Presentations (3)

This course will provide an overview of the planning, production, and presentation phases of productions. Classes will concentrate on script writing, slide editing, audio track preparation, and slide programming. A finished presentation will be required. Lab Fee Extra. (TBA)

253, 353, 453, Special Topics in Art History (1-4) Selected topics covering specific style(s), historical and or geographical arena, purpose, iconography will be studied via the visual arts. These topics may include but are not limited to: (a). Ancient and Primitive art, (b). Eastern and Oriental art, (c). Medieval and Christian art, (d). Renaissance and Baroque art, (e). Modern Art (19th - 20th century) and (f). Comtemporary art (art after WW II), (g). Other topics. (TBA)

BIOLOGY	107 General Biology (4) To provide comprehensive introduction to the field of biology for the non-major. To provide guidelines for the student to follow when information is needed in the field. Lab Fee Extra. (T & Th, 2nd semester)		
	105 Environmental Science (4) An examination of ecological principles and major en- vironmental issues. The student will study topics such as over population, resource depletion and pollution. Intended for non-science major students. This course includes one lab period per week. (M & W, 2nd semester)		
	350 Horticulture (4) Methods and practices in cultivation of house plants. Lab Fee Extra. (T & Th 1st semester, alternate years)		
BUSINESS ADMINISTRATION	201 Organization and Management (3) Concepts and structures of organizations, personality, and intra-personal relations, functions and activities requiring management and managerial activities. (Thursday, each semester and Saturday, 1st semester)		
	221 Principles of Insurance (3) This course deals with insurance principles and the economic interrelationships that are basic to sound risk management for an individual or a company. Coverage will include types of insurance risk, loss prevention. In- surance contracts, annuities, retirement insurance, and insurance regulation and operation. (TBA)		
	231 Business Law I (3) Contracts, agency, employment, negotiable in- struments. (T or Th, each semester)		
	232 Business Law II (3) Corporations, Partnerships, sales, bailments, real and personal property. (T or Th, each semester)		

240 Principles of Real Estate (4)

A study of the basic concepts in real estate: history, listing, selling, financing, truth-in-lending, contracts, valuation, taxes, ownership, title insurance, land description and measurement, real estate mathematics. This is a course to prepare persons to pass the Missouri Real Estate Sales Agent Examination. (Saturday, each semester)

242 Real Estate Law (3)

Primary topics are laws relating to real property and the common types of real estate transactions and conveyances. Emphasis on drafting various instruments such as deeds contracts, leases, deeds of trust, etc. Study activities include projects relating to the subject matter and practice in retrieving and recording information. (TBA)

244 Real Estate Marketing (3)

Course provides home builders and sales personnel with a fundamental knowledge of housing marketing concepts; consumer behavior patterns; selecting a market segment; developing market strategy, including advertising strategy; implementing an efficient marketing management technique; structuring a marketing budget; analyzing effect of consumerism and developing a successful customer service package. (TBA)

246 Real Estate Basic Appraisal Principles (3)

A comprehensive study of the principles and concepts underlying the income approach to value. Market comparative method and techniques of income capitalization are identified and explored. In addition, the course covers the mathematics of yield capitalization wherein the discounting processes are applied to various pattens of income and to future values. (Thursday, each semester)

260 Consumer Behavior (3)

Behavior science concepts including: motivation, perception, learning, personality, attitudes, culture, social class, reference groups, and communication. Application of behavioral concepts to marketing management and research problems including diffusion of innovation, brand loyalty, attitude change, and consumer decision models. (Tuesday, 1st semester)

261 Sales Management (3)

The planning, direction and control of selling activities, including the recruiting, selection, training, supervision, and compensation fo the sales force, establishment of goals and measuring performance, coordinating sales activities with advertising and special forms of promotion and other departments of business, and providing aids for distributors. (Thursday, each semester)

262 Orgnaization and Management of a Small Business (3)

This course will emphasize fundamental factors concerned with the establishment and competent operation of a small business; financing and sources of funds, organizing the business and establishment of policies, selection of location, factors in business success, and the future outlook for small business. (Tuesday, each semester)

263 Investments (3)

A study of the principles, practices, and analysis of investments. The characteristic features of various forms of investment are examined including common and preferred stocks, corporate bonds, government bonds, and mutual funds as well as the operation of securities markets and procedures involved in the buying and selling of securities. (Tuesday, each semester)

270 Program Planning and Budgeting (3)

This course is intended to introduce students to the theories and practical applications of planning theory. Major emphasis is placed on modern PPB techniques such as program justification, monitoring, efficiency audits, and general program review. Although most PPB occurs in government programs and this forms a major portion of the course, attention is also given to the application of these analysis techniques for hospitals and universities.

Prerequisites: ACC 212 and ECO 202. (TBA)

301 Personnel Management (3)

An examination of the personnel process beginning with recruitment, examining man in the work environment in its sociological, psychological and behavioral implications. (Tuesday, each semester and Saturday 1st semester)

305 Marketing (3)

A study of the basic principles of marketing activity, including the institutions involved in the distribution of goods, situation analysis, market research, product strategy, pricing and promotion strategy. (Thursday, each semester)

308 Marketing Channel Analysis (3)

A study covering the principles and problems in retailing and merchandise management, retailing structure, store locations, design and layout, retail personnel management, buying, sources of supply and negotiations for merchandise. Also covered are pricing policies, determining mark-up, controlling mark-down, retail coordination and control of expenses. (TBA)

315 Financial Management (3)

Forms of organization, financial institutions and instruments, legal aspects of finance, financial administration and decisions. Prerequisites: ACC 201, 202, 215, ECO 201, 202. (Monday each semester)

318 Business Statistics (4)

An introduction to descriptive and inferential statistics, including measures of central tendency, dispersion, normal and ''t'' distribution tests of significance, correlation analysis, index numbers and time series analysis. Credit may not be earned in this course and MAT 216. Prerequisite: ECO 202, Mat 145. (T & Th, 1st semester)

322 Labor Relations (3)

The growth and development of organized labor in the U.S. with an emphasis on labor law, colletive bargaining and labor-management relations. (Thursday, 1st semester)

33

326 Quantitative Methods in Business Analysis (4)

An introduction to techniques and applications analysis, with emphasis on management decision-making. Prerequisite: BUS 318. (T & Th, 2nd semester)

331 Wage and Salary Administration (3)

A study of the development and significance of concepts, models and theories relating to systems of employee compensation in modern business organizations. Will trace the historical development of unionism and collective bargaining in relation to employee compensation systems. (Wednesday, 1st semester)

360 Independent Studies in Business Administration (1-3) (arranged)

401 Readings in Management (1-3) (Saturday, each semester)

405 Current Marketing Issues (3)

Recent developments in marketing management, wholesaling, retailing, product planning, and consumerism. Opportunity will be provided for examining areas of special interest to individual students. (Thursday, each semester)

406w Business Problems and Policy (3)

A course using the case approach designed to enable students to apply knowledge acquired in the major program in solving complex problems. Prerequisite: Senior standing. (Wednesday, each semester)

430 Market Research (3)

Methods of planning and carrying out market research surveys, including determining market potentials, selection of territories, establishment of quotas, new product studies, methods of testing sales campaigns, dealer reactions and consumer preferences, determination of effective channels of distribution, and evaluation of competitive strength. Students actually conduct market research projects as part of each semester's work. Prerequisite: BUS 305. (Saturday, 2nd semester)

460 Independent Studies in Business Administration (1-3)(arranged)

CHEMISTRY	100 Chemistry for the Consumer (4) This is an introductory course in applied chemistry for the non-scientist. It focuses on chemical compounds and their reactions as they are experienced by people in their everyday lives. Typical topics include food chemistry, air and water pollution, chemistry of household products, energy generation, and the chemistry of sight and smell. Lab Fee Extra. (M & W, 1st semester)
COMMUNICATION	100 Communication Theory and Practice (4) A study of the theory of communication, including small group discussion and problems of audience adap- tation. Preparation and presentation of various forms of speech activity, with uses of recording and video equip- ment. (T & Th, 1st semester)
	241 Recording Studio Techniques (3) See course description for MUS 241. (Monday, each semester)
	360 Introduction to Public Relations (2) Covers the history of public relations and its function in the organization. Students develop skills in press rela- tions, advertising, writing, copyfitting, layout and design through lecture and participation. (TBA)
COMPUTER STUDIES	120 BASIC Programming (2) Elements of BASIC to enable the computer user to write and solve beginning to intermediate computer pro- grams. Lab Fee Extra. (T & Th, each semester)
	130 Microcomputers/Applications (2) Presents an overview of computer information systems. Introduces computer hardware, software, prodecures, systems and resources needed to function in a computer-oriented society. Students may not gain credit for this course and CST 155. (T & Th, each semester)

140 Advanced BASIC (2)

A continuation of the study of BASIC language with emphasis on file usage in business programs. The course will include constructing and using sequential, random access and indexed Files. Prerequisites: CST 120 or a high school course in BASIC. Lab Fee Extra. (Tuesday, 2nd semester)

155w Business Information Systems (4)

An introduction to computer hardware, software, procedures and system concepts with the integration and application of these concepts to business and other segments of society. Microcomputer productivity tools commonly used in business will be discussed and applied. Students may not gain credit for this course and CST 130. (M & W, each semester)

160 Computer Science I (4)

Structured approach to program methodology, algorithms, and elementary data structures using Pascal. Lab Fee Extra. (T & Th, 1st semester)

170 Computer Science II (4)

A continuation of Computer Science I, CST 160, with emphasis on the development of more complex algorithms and additional data structures including stacks, queues, linked lists, and trees. Prerequisites: CST 160. (M & W, 2nd semester)

215 COBOL - Programming and Applications (4)

Introduction to the application of computing in business using COBOL and a structured approach to programming. (T & Th, 2nd semester, alternate years)

235 Systems Analysis (4)

An introduction to the role of the systems analyst in analyzing and designing a data processing system. Knowledge of COBOL is assumed. (T & Th, 1st semester)

325w Data Base Systems (4)

Survey of the design and capabilities of data base and data management systems. Experience techniques of data organization in a data base environment employing the query language of a typical data base management system.

Prerequisite: CST 215. (M & W, 2nd semester)

ECONOMICS **199 Consumer Economics (2)**

This course aims to furnish the tools which will help to develop wiser consumers and managers of personal and household finances in our complex society. (Saturday, 1st semester)

201 Principles of Microeconomics (3)

The theory of the consumer, the costs of production, the theory of the firm, monopoly and competition are discussed. (M or W, each semester)

202 Principles of Macroeconomics (3)

National income accounts, commercial banking, the Federal Reserve System, and government policies for achieveing stable prices and full employment are discussed. (M or W each semester)

307 Macroeconomics (National Income Activity and Employment) (3)

National income and product accounting, the level of economic activity, fiscal and monetary theory and policy. Prerequisite: ECO 202. (TBA, alternate years)

308 Managerial Economics (3)

A study of theoretical and analytical tools of economics that are useful in managerial decision-making. Prerequisite: ECO 201. (Tuesday, each semester)

320 Industrial Organization (3)

An analysis of the organization and operation of several industries based upon economic theory and antitrust laws. Includes evaluation of theory and laws. Prerequisite: ECO 201, 202. (TBA, alternate years)

324 Labor Economics (3)

The theory of wages, segmented labor markets, human capital, and the causes of unemployment. Prerequisite: ECO 201, 202. Replaces ECO 322 in previous catalogs. (Thursday, each semester)

360 Independent Studies in Economics (1-3)(arranged)

402 Money and Banking (3)

History and structure of the banking system, objectives and instruments of monetary policy, current monetary issues and problems. Prerequisites: ECO 202 or consent of the instructor. (TBA, alternate years)

404 International Economics (3)

An introduction to the theory, policy and problems of international economics, emphasizing trade and finance. Prerequisite: ECO 202. (Monday, 1st semester, alternate years)

451w Seminar in Economics (3) (TBA)

460 Independent Studies in Economics (1-3)(arranged)

EDUCATION 234 & 235 Exceptional Child (2 + 2) A study of the abilities and disabilities of children commonly classified as exceptional. Topics emphasized include: inter- and intra-individual differences, appropriate instructional procedures, and a consideration of educational and psychological handicaps. Lab Fee Extra. (Thursday, each semester)

ENGLISH

100 Freshman Composition (4)

Required of all degree-seeking students. The student will develop a clear, logical, and organized style of writing. Those students who transfer a college-level English composition course must pass the Proficiency Test of Writing Skill at William Jewell by their third semester at the college. Students not transferring an equivalent English composition course must pass this course by their third semester at Jewell. (M & W or T & Th, each semester)

255w Studies in Literature (4)

A literary study especially for non-English majors and for fulfilling the literature requirement for graduation. Prerequisite: ENG 100 or passing grade on college English Proficiency Exam if transfering a collegelevel English composition course. (M & W or T & Th each semester)

HISTORY	221 History of the U.S.: Colonial and Early National Periods (4) A balanced emphasis on the political, social and economic forces which shaped national life up to 1865. (T & Th, 1st semester)
	222 History of the U.S.: 1865 to Present (4) A survey of America History. Emphasis is on the period since 1900. (T & Th, 2nd semester)
LANGUAGE:	111 Elementary Spanish I (4)
MODERN	This first course starts with pronunciation and moves into the essentials of grammar. There is practice in con- versation, composition and reading. (M & W, 1st semester)
	112 Elementary Spanish II (4) A continuation of the study of essentials of grammar with further practice in conversation, composition and reading. (M & W, 1st semester)
	211 Intermediate Spanish I (4) Review of grammar, further practice in conversation and composition, reading from representative Spanish and Latin-American authors. (TBA)

MATHEMATICS	 99 Basic Algebra (2) An introduction to algebra, including the language of algebra, linear and quadratic equations, factoring and polynomials. MAT 99 may not be applied toward satisfaction of the general education requirements in mathematics and natural sciences. A student may not apply toward degree credit more than four hours in courses numbered below 100. (Monday, each semester) 145 Introduction to College Mathematics (Algebra) (4) Topics will be selected from algebra, analytical geometry, probability, matrices, and limits to give an insight into the nature, role and scope of mathematics with emphasis on albegra. Prerequisite: MAT 99 or three years of high school math. (M & W, each semester) 		
	216 Elementary Statistics for Social Sciences (4) A first course in statistics for students in education and the social sciences. Includes collection, interpretation and presentation of statistical data. No algebra background assumed. This course will not fulfill the statistics requirement for management, accounting, and system majors. Credit may not be earned in this course and BUS 318. (M & W, 1st semester, alternate years)		
METEOROLOGY	100 Introduction to Meteorology (4) An introduction to meteorology that will provide the student with an understanding of weather element measuring instruments, procedures, data collection, in- terpretation and use in weather forecasting. Emphasis will be on the relationships between atmospheric physical processes and the resultant weather. Extra laboratory work is required. (M & W, each semester)		

MUSIC 150 The Audience and the Performing Arts (2) A survey of the performing arts based on the William Jewel Fine Arts Program. The classes will introduce and critique music, dance, and dramatic performances. (Students must subscribe to the Fine Arts Program.) (TBA) 241 Recording Studio Techniques (3) A study and practical application of recording techniques and development of recording skills. Designed to develop competency in electronic audio recording, especially through "hands-on" use of equipment and software. Also listed as COM 241. (Monday, each semester) NURSING The Evening Division offers an R.N. completion program for those licensed registered nurses who are seeking a bachelors degree. By earning some credit by ex-

gram for those licensed registered nurses who are seeking a bachelors degree. By earning some credit by examination, many nurses can complete all of their degree requirements by attending only evening calsses. Prerequisite courses are completed either at William Jewell, as transferable college credit, and/or credit by examination. A grade of "C" or better in science classes is required. (Minimum Cumulative GPA 2.50).

Current Missouri R.N. license or interim permit is required. Professional liability insurance and Missouri R.N. licensure are required for clinical courses. For specific requirements and prerequisites students must contact the Nursing Department at extension 5453.

251w RN Bridge Course (2)

This course is designed as a bridge for the registered nurse student (RN) beginning his/her baccalaureate course work in nursing. (TBA)

420w Nursing Research (2)

Introduction to basic research methodology and its application to nursing. (TBA)

422w Special Topics in Nursing (2)

This course is designed to provide an in-depth learning experience for the senior nursing student. Focus is on student presentations and discussions of selected topics. (TBA)

425w Trends and Issues (2)

Discussion of current and future issues in nursing. Emphasis is on student presentations and discussions. (TBA)

434w Advanced Adult Health Nursing (4)

This course offers in-depth knowledge and experience in advanced adult health nursing. Two hours is lecture perweek and clinical experience in specialty areas will be arranged. (TBA)

452w Community Health (5)

This course focuses on community and large group systems as well as environmental stressors and issues in nursing practice. Four hours of lecture per week and clinical experience in a distributive setting will be arranged. (TBA)

454w Managment/Leadership (5)

This course focuses on stressors and issues in nursing practice related to nursing leadership skills and managment of groups. Two hours of lecture per week and clinical experience will be arrangee. (TBA)

PHILOSOPHY

202 Ethics (4)

An examination of the major theories of value and moral obligation with a view to seeing how they apply to such contemporary issues as abortion, euthanasia, sexual morality, discrimination against minorities, privacy, individual liberty, and violence and war. (M & W, 1st semester)

231 Logic (4)

A first course in logic designed to aid in the development of critical attitudes, to learn the general methods of inquiry, and to enable the student to formulate independent judgments. (M & W, 2nd semester)

PHYSICAL EDUCATION	No more than 4 hours in activity courses, including PED 101, may be applied toward the 124 hours required for the degree.		
	101 Wellness (1) This course is designed to provide the student with the knowledge and understanding to make positive, health lifestyle choices. The student will learn about issues within the community and environment which have a direct effect on their daily health. In addition, the stu- dent will learn the basics of standard first aid and CPR (Wednesday, each semester)		
	127 Scuba Diving (1) Provides the student with a dimension of the under- water world. Person learns to handle equipment and to survive in this environment. Offered pass/fail only. (Monday, each semester)		
	128 Beginning Tennis (1/2) Teaches the basic skills of tennis. Includes scoring and fundamentals necessary to play singles or doubles. Of- fered pass/fail only. (Saturday, each semester)		
	140E Special Activities: Evening Division (1) A course designed specifically for adult students which introduces them to a variety of aerobic, aquatic, and leisure activities. Offered pass/fail only. (Wednesday, each semester)		
Political Science	102 American National Government (4) Considers the U.S. Constitution, governmental struc- ture, and how the American government functions to- day. (TBA)		

PSYCHOLOGY 97 Psychology of Study Skills (1)

A learning skills program designed for the improvement of reading and classroom learning. (Elective credit only, a student may not apply for degree credit more than four hours of below 100 courses.) (TBA)

98 Effective Reading Skills (1)

A reading program designed for improving college-level reading rate, comprehension and vocabulary. Improvement in vocabulary is based on a thorough study of etymology. (Elective credit only, a student may not apply for degree credit more than four hours of below 100 courses.) (TBA)

211 Basic Psychology (3)

An introduction to the major areas of the field, psychology is viewed as a bio-social science of behavior, and emphasis is placed on the scientific basis of our current understanding of behavior. Prerequisite to all other courses in the department. (Tuesday, each semester)

214 Personal Adjustment (2)

The intent of the course is to gain a greater understanding of how life challenges and threatens our effective functioning and the options we have to manage and respond to them. Problem solving methods presented draw from time-management, assertiveness training, communication and interpersonal skills and rationalcognitive ideas. (Thursday, each semester)

303 Abnormal Psychology (3)

A descriptive and explanatory study of the major personality and behavior disorders of both childhood and adulthood, including psychogenic, psychosomatic, and organic problems. Attention to preventive measures, diagnostic methods and therapeutic procedures. (Saturday, 1st semester)

304 Social Psychology (3)

A study of the influence of other people and of society collectively on selected aspects of an individual's behavior and personality, with special attention to the dynamics of group behavior. (Wednesday, 1st semester, alternate years)

308-309 Independent Studies (1-4)(arranged)(Junior and below)

317 Personality (3)

A theoretical study of personality and its formation. Different viewpoints about the nature and functioning of personality are compared and evaluated. The study of personality is applied to disorders, with an introduction of research problems in personality to help develop one's rational. (Wednesday, 2nd semester, alternate years)

319 Introduction to the Principles of Behavior Modification (2)

An introduction to theory, research and practice in behavior modification. It is intended that this course will function not only to familiarize the student with the field, but also that is will assist in further reading and research. While the emphasis is ''acaJemic,'' the clinical and applied considerations will be an integral part of the course. (TBA)

320 Experimental Psychology I (3)

An introduction to the basic experimental methods and procedures used in psychological research, including a review of basic methods of data analysis and experimental design. The basic research literature in learning is studied. Students participate in the design, collection of data, analysis of data, and write-up of the results of experiments conducted with human subjects, goldfish, and rats. Lecture and laboratory. Required of all Psychology major students. Prerequisite: statistics. (Tuesday, 2nd semester, alternate years)

322 History and Systems (3)

The rise and growth of modern psychology in its contemporary expressions. Attention is given to origins, major developments, and present trends in psychological thought. Special notice is paid to international directions. Required of majors. Prerequisites: statistics, PSY 320. (Monday, 1st semester, alternate years)

408-409 Independent Projects for Seniors (1-4) (arranged)

421 Seminar (1-4)

Topics to be announced, prior to registration, in special interest areas not justifying a regularly scheduled course. Enrollment by permission of department only. (TBA)

422w Senior Seminar (3)

This class is designed to be an integrative experience for the entire curriculum. Topics are examined which enable the student to see connecting links among the various areas of psychological study. The course also utilizes an interdisciplinary approach to reveal the relationship of psychology to other academic disciplines. Required of all majors; intended as a preparation for comprehensive departmental examinations. Taken senior year. Prerequisites: statistics, PSY 320, PSY 322. (TBA)

RELIGION

116 Origins of Christianity (4)

An introductory survey of the rise of Christianity which explores such issues as: the origin of the New Testament, the Jewish and Greco-Roman background to early Christianity, the teachings of Jesus, primitive Christian history, the life and teachings of Paul, the church's relationship with the larger world and the birth of the church as an ''institution.'' (T & Th, each semester)

SOCIOLOGY	211 Introduction to Sociology (3) The concepts and methods of sociology are examined. Culture, group analysis, social mobility, social power, human ecology, and social institutions are major topics considered. (Saturday, 1st semester)
	322 Criminology (3) A study of the nature, causes, and consequences of crime and delinquency, including a consideration of various methods of treatment and prevention. (Satur- day, 2nd semester, alternate years)
	326 Marriage and Family (3) A cross-cultural study of family structure and function, with special attention given to the organization, disorganization and reorganization of the American Family. (Saturday, 2nd semester, alternate years)
	332 Cultural Anthropology (3) A systematic introduction of cultural anthropology. Special attention is given to contemporary urban ethnic communities. (TBA)
	338 Minority Groups (3) A study of racial and ethnic minorities in the United States. Work with Kansas City area racial groups is an integral part of the course. (Thursday, 1st semester, alternate years)
	351 Methods of Social Research (3) A study of the history of social research, research design, techniques of collecting and processing data, analyzing data, and research reporting. Prerequisite: 12 hours social science or consent of instructor. MAT 216 strongly recommended. (TBA, alternate years)
	412w Social Theory (3) A study of the history and development of social thought, emphasizing concepts and theories of leading sociologists. Prerequisite: SOC 211. (TBA)
	427-428 Reading in Sociology (1-2) (TBA)

431-432 Research Seminar (1-4)

An intensive study of special areas of sociological research. Prerequisite: SOC 351. Co-requisite: MAT 216, or equivalent or consent of instructor. (TBA)

PARALEGAL PROGRAM

The paralegal certificate program prepares students to work in this growing area of legal service. The certificate will be awarded upon successful completion of 18 hours of paralegal course work, upon successful completion of CSR 120 (BASIC programming: 2 cr. hrs.) and CST 130 (Micorcomputers/Applications: 2 cr. hrs.) or CST 155 (Business Information Systems: 4 cr. hrs.), and upon meeting the English proficiency requirement either by passing ENG 100 (Freshman Composition: 4 cr. hrs.) or by transferring to Jewell the credit for a successfully completed composition course at another institution of higher education and by passing the WJC Proficiency Test of Writing Skill. Of the 18 hours in paralegal, 12 are required and include BUS 110, BUS 112, BUS 114, and BUS 116. Six hours are of the student's own choosing. A minimum of nine hours of paralegal courses must be earned at Jewell to receive the certificate from Jewell.

Only Evening Division students may apply paralegal course credit toward a degree. No more than 18 hours of paralegal course credit may be applied toward a college degree. It is required that paralegal students take BUS 110 before attempting other paralegal courses. Certificate students must receive a grade of C or better in courses applied to certificate requirements. It is strongly recommended that paralegal students satisfy the English proficiency requirement early in their program of study and necessary that the requirement be met within the third semester.

BUS 110 Introduction to Law and Paralegalism (3)

An introduction to our legal system, including the nature and significance of the adversary system, the courts, the Constitution, legal ethics, and the sources of law. The course will analyze how the paralegal operates in the system. (Monday, each semester and Saturday 1st semester)

BUS 112 Business Organization (3)

The study of business organizations with an emphasis on their legal systems. A survey of the principles of law related to different types of business organizations. Students will survey sole proprietorships, partnerships, and joint ventures. (Wednesday, 2nd semester)

BUS 114 Legal Research (3)

The study of the primary sources of case law and statutes. The method of finding these sources and use of digests, legal encyclopedias, legal treatises, perodicals, casebooks, and loose-leaf services will be covered. The Shepard's Citation system will be introduced. Early enrollment for this class is suggested due to limited class size. (Th or Sat., each semester)

BUS 116 Litigation and Trial Practice (3)

This course will present civil litigation as the process for resolving disputes through the use of the court systems. This course will cover the stages of preparation and presentation involved in the trial of a lawsuit. (Thursday, 2nd semester)

BUS 118 Real Estate Law (3)

This course covers the ownership, sale, leasing, financing and regulation of land. It includes the study of various instruments used in real estate transactions and ownership and deals with how these are drafted. (Saturday, 2nd semester)

BUS 120 Estate Planning and Probate Administration (3)

This course deals with how and when people transfer their property and who received that property. It deals with the problems associated with the efficient use and saving of resources. (Wednesday, 1st semester)

BUS 122 Income Taxation (ACC 335) (3)

Laws and regulation, determination of taxable income, deductions, exclusions, making and filing tax returns. Completion of ACC 201 highly recommended. (Saturday, 1st semester)

BUS 124 Criminal Law (3)

The course will introduce students to the technical and legal aspects of criminal investigation and trial. It will also include study of the role of criminal law in our society and the role of the various professionals in the justice system. (Tuesday, 2nd semester)

BUS 126 Domestic Relations (3)

This course analyzes the laws and the role of the paralegal in regard to various domestic and family disputes or complications. This course will review domestic law and develop interviewing techniques. (Tuesday, 1st semester)

BUS 128 Legal Writing (3)

This course will emphasize the development of clear, concise legal prose and memo writing. Through the study of various types of legal documents and publications, students will learn to identify and write clear and persuasive prose. Prerequisite: BUS 114. (Summer)

BUS 130 Advanced Litigation and Trial Practice (3) This course offers advanced study in civil litigation and trial practice. Appellate procedures will also be included. Course will focus on civil litigation and the essential elements of negligence, products liability, and contracts. Specific areas to be covered include client interviewing, the drafting of pleadings, fact investigation, and trial assistance. Prerequisites: BUS 110 and 116. (Monday, 1st semester, alternate years)
