In incidental expenses, if the student is supplied with money, he is exposed to extravagant and immoral habits. # REMARKS.

All the Books within the Course may be obtained in the Book Stores in Liberty.

There is already in existence one Literary Society of high character, and another will be instituted as soon as deemed necessary.

Instruction will be given in the Hebrew and German languages, if desired, for which an extra charge of \$10 each, perterm, will be made. It is confidently believed that Society in Liberty, in point of intelligence, sobriety and general morality, is unsurpassed. The city authorities---sustained by a very large majority of citizene---refuse license to those fountains tending to the corruption of public morals.

The Board of Trustees design filling the chair of Chemistry and Natural Science at the next regular meeting. The friends and patrons of the institution may therefore be assured that this important department will be fully organized and in operation for the ensuing session.

In the Preparatory Department a competent Tutor will be provided for the next session.
