WILLIAM JEWELL COLLEGE.

GENERAL STATEMENT.

The William Jewell College is under the control of the Baptists in Missouri, acting through a Board of Trustees, who conduct the finances, appoint the officers, and prescribe the general control of the institution. It originated with the earliest efforts of this denomination to organize measures to promote the preaching of the gospel in the State, when it was felt expedient to have a Theological and Literary Seminary, in which candidates for the ministry, and young men in general might receive a liberal education under religious influences. Yet it is not intended to be a sectarian school, but a religious one, in the sense that, in connection with science, the Christian religion, a pure morality and an earnest philanthropy shall be exhibited and enforced on principles common to all Christian churches. There are, therefore, no instructions given on the distinctive tenets of the Baptists, save in the regular order in the theological course. The religious persuasions of all are respected, while religion is so represented as to maintain the veneration of all.

The Trustees fully realize that, as the development of Christian truth and its defense against corruptors and opposers are best promoted by higher education and advanced science, it is necessary that an institution intended for the preparation of young men for the functions of the sacred ministry should furnish a culture of the very highest order. They have, therefore, adopted an organization which contemplates the most comprehensive curriculum, the best methods of instruction, and progress with the march and demands of science. Under one college charter they have eight schools, in each of which

the instruction is complete in proportion to the extent to which its endowment admits of its being opened. They intend that everything taught shall be taught accurately and thoroughly, and that nothing shall be proposed for which there is not a qualified instructor and necessary apparatus.

I .-- SCHOOL OF LATIN.

PROF. SEMPLE.

The subjects taught in this school are the Latin Language and Literature, and History of Rome. The school is divided into three classes:

I.—Junior.—Text Books: Virgil, Sallust, Cicero's Orations, Cornelius Nepos, Arnold's Prose Composition, Gildersleeve's Latin Grammar, Liddell's History of Rome.

II.—Intermediate.—Text Books: Horace, Livy, Cicero pro A. Milone, Zumpt's Latin Grammar (for reference,) Arnold's Prose Composition.

III.—Senior.—Text Books: Livy, Tacitus, Juvenal, Browne's Roman Classical Literature, Original Exercises, Zumpt's or Madvig's Latin Grammar (for reference.)

The mode of instruction in this school is both analytical and synthetical. As far as possible the student will be taught not only the facts of the structure of the language, but also the principles which underlie them. Other faculties than that of the memory must be trained before the student can acquire an accurate and comprehensive knowledge of the principles and a clear perception of the constituent elements of a language. Whilst, therefore, in the preparatory department the beginner is thoroughly drilled in the paradigms of the variable parts of speech, he is yet taught by daily oral and written exercises to systemize and classify the principles of their accidents and construction. It is hoped that thereby the nature and construction of sentences will be progressively developed, independent of barren rules, and a foundation laid for ripe and accurate schol-

arship. Especial attention will be paid to the rendering of English into Latin and Latin into English, in writing. Such translations are criticised and returned to the student, with accompanying lectures on the principles involved.

II.—SCHOOL OF GREEK.

(To be Supplied.)

The subjects taught are the Greek Language and Literature, and the History of Greece.

In this school there are three classes—Junior, Intermediate and Senior.

I.—In the Junior Class a thorough review is made of the inflections, and the principles of the language are explained and illustrated by daily translations from English into Greek and from Greek into English, with written exercises in both.

Text Books.—Kuner's Elementary, and Hadley's Grammars, Xenophon's Anabasis, and Cyropedia.

II.—In the Intermediate Class the Greek Syntax is explained, partly by lectures and partly by written translations from English into Greek. The subject of accent is taken up; its laws are presented, and the student is taught, in his exercises, its practical use.

The authors read are Demosthenes and Homer. In addition to what is studied in the class, a course of parallel reading is prescribed.

GRAMMARS.—Kuhner's, Hadley's.

III.—The Senior Class is instructed mainly by lectures. First: On the Grammar of the Greek Language. Second: On Greek History and Literature.

Translations are made from the best Greek authors, and are required to be rendered into the original by the student. These exercises are criticised and returned, and explanations are made of the principles involved. Thus the Syntax will be illustrated by all the different constructions which occur in the language. The

authors read are: Thucydides, Sophocles, Euripides, and Plato. A close and critical examination is made of the text assigned for reading, the peculiarities of the author's style are brought out, and the Comparative Philology of the language is constantly illustrated.

Text Books.—Teubner's Leipsic Edition of the Classics, Smith's History of Greece, Long's Classical Atlas, Hadley's, and Kuhner's Grammars, Liddell and Scott's Greek-English, and Yonge's English-Greek Lexicons.

III.—SCHOOL OF MATHEMATICS.

This School, embracing both Pure and Applied Mathematics, will provide means not only of general mental discipline, but also of special professional preparation. The requirements for entrance are—a knowlede of elementary English and familiarity with Arithmetic, and with Algebra through *Quadratic Equations*.

PURE MATHEMATICS.

In this Department the chief aim of the instruction given is to train the student to readiness and soundness of reasoning, and to develop in him *habits* of thought and inquiry.

Pure mathematics may be regarded as a veritable language, having laws and idioms common to no other language; and its several branches may justly be viewed as so many dialects, differing widely in forms and capacities, and yet, as inter-translated, perfectly accordant. Hence its value in *liberal* education.

Every facility is here afforded for prosecuting a full course in this department. The lecture-room is amply furnished with models and improved blackboards, and is provided with elevated deskseats, accommodating over one hundred students.

COURSE OF STUDY.

PREREQUISITE: FAMILIARITY WITH EQUATIONS.

JUNIOR.—First Year: Algebra. Text: Schuyler. Geometry; Geometrical Analysis; Exercises. Texts: Loomis; Leslie; Professor's Notes.

INTERMEDIATE.—Second Year: Trigonometry; Analytical Geometry; Exercises. Texts: Professor's Notes; Olney.

Senior.— Third Year: Calculus; Philosophy of Mathematics. Texts: Olney, Comte.

APPLIED MATHEMATICS.

No scheme of either liberal or professional education embraces a full course in this Department, for the obvious reason that applications of abstract mathematics are as varied and endless as are the arts and the industrial vocations of practical life. Still, it is designed to make the course of Applied Mathematics more and more complete as the necessary means—such as adjunct instructors, apparatus, models, plates, and suitable class-rooms—are provided.

COURSE OF STUDY.

First Year: Drafting Instruments; Geometrical Drawing. Texts: Warren, Mahan.

Second Year: Descriptive Geometry; Ind. Drawing; Surveying; Instrumental Practice. Texts: Davies, Mahan, Gillespie.

Third Year: Shades and Shadows; Astronomy; Engineering; Railroad Practice. Texts: Davies, Olmstead, Mahan.

IV.—ST. LOUIS SCHOOL OF NATURAL SCIENCE.

PROFESSOR EATON.

In this school the best facilities will be afforded for a thorough and practical knowledge of the natural sciences with respect to the interests of every-day life, and to their harmony with the Divine revelation. Each subject is illustrated by lectures and experiments. In the Department of Chemistry there is a well furnished Laboratory, stocked with a full supply of necessary chemicals and apparatus, and the Department of Natural Philosophy is well supplied with superior and improved forms of apparatus. Constant additions are being made to both departments.

A

The senior students of Chemistry are, in turn, put into the Laboratory, and required to experiment and lecture before the class on the various subjects involved, thus acquiring a facility in manipulation, and a practical knowledge of the subject not to be attained by the mere study of text-books and attendance upon the lectures of the Professor.

COURSE OF STUDY.

[Before entering this school the student is supposed to have a knowledge of Plane Geometry and Plane Trigonometry, and for graduation the Junior Course of Latin and Greek is required.]

JUNIOR CLASS.

Natural Philosophy—Lectures and Recitations.

INTERMEDIATE CLASS.

Theoretical Chemistry-Lectures and Recitations.

SENIOR CLASS.

Geology, Dana's Manual, Analytical and Applied Chemistry. Laboratory Practice. Lectures and Experiments by members of the class.

V.—SCHOOL OF MODERN LANGUAGES.

PROFS. SEMPLE AND -

The Languages embraced in this Department are French, German and Italian. In French and German there are two classes for each—Junior and Senior; in Italian, one.

In each language the elements of Grammar are thoroughly studied by means of text-books and explanatory lectures. Frequent exercises in translation from English to the respective languages are required throughout the session, and thus a practical familiarity with the idioms and constructions is acquired.

TEXT BOOKS.

FRENCH.

Junior Class—Fasquelle's new Method; Telemaque, Charles XII.

Senior Class—Laporte's French Grammar; Moliere; Racine; Picciola; Spier's and Surenne's Dictionary.

GERMAN.

Junior Class—Otto's Grammar; Whitney's Reader; Select Plays from Schiller; Adler's Dictionary.

Senior Class—Grammar and Dictionary, as in the Junior class; Selections from Schiller, Goethe, etc., etc.

ITALIAN.

Monti's Grammar; I Promessi Sposi; Le Mie Prignione; Monti's Reader; Grassi's Dictionary.

VI.-SCHOOL OF ENGLISH AND HISTORY.

PROFESSOR FOX.

The Course of Instruction in this Department will be made broad and thorough, to meet the increased attention now given to English Philology. The Course will include:

- 1. The history of the Language. The Anglo-Saxon is made a prominent topic of study, and the changes in the language from the earliest times to the present day are carefully noted.
- 2. The present structure of the language. The student is required to study the lexicography of the language, or the etymology and more accurate signification of the separate words, with the philosophy of English orthography and the principles of pronunciation; the grammatical combination of English words into sentences; and the rhetoric of the language or its most effective use in connected discourse.
- 3. The literature of the language. A review is made of the principal authors from the early period to the present day.

Instruction is also given in the laws of oratory or the most effective use of the spoken language in public discourse. Orations are delivered each week by members of the Department in the presence of the whole College.

The course of History includes a general review of Medieval and Modern History, with a special study of the histories of England and the United States. The members of the class are also instructed in the true methods of historical research.

There will be each year one or more courses of lectures by gentlemen not directly connected with the institution, The course in the spring term of 1872 was by members of the Clay County Bar, on the subject of American History.

VII.—THE SHERWOOD SCHOOL OF MORAL PHI-LOSOPHY.

PROF. RAMBAUT.

The name of this school is intended to perpetuate that of Rev. Adiel Sherwood, D. D., than whom no living man has done more to promote the interests of education in the Baptist denomination. He was the first to propose to aid in endowing this chair by the gift of \$1,000. The proposition was laid before the Baptist General Association, at its annual meeting held at Columbia, Boone County, Mo., 1869, and, in forty minutes, thirty others associated themselves with him, and gave his name to the school as an evidence of their veneration.

The object of this science is to acquaint the mind with the knowledge, command and employment of its own faculties. The topics embraced in it are Mental Science, Ethics, Political Economy, Natural Theology, Jurisprudence, and the Evidences of Christianity; or, the mind; our relations to good, to temporal affairs, to God and eternity, to the State, and to the Christian religion.

The course pursued in this school is to accustom the student to making severe analysis of his own mental actions in the examination of every topic brought under his notice, and at the same time to put him in possession of the observations and opinions of thinkers who are affecting society and human destiny.

VIII.—JEREMIAH VARDEMAN SCHOOL OF THEOLOGY.

THOMAS RAMBAUT, LL. D.,
President and Professor of Systematic Theology.

NORMAN FOX, A. M.,

Professor of Ecclesiastical History and Instructor in Hebrew.

JAMES R. EATON, A. M., Professor of Natural Theology.

R. B. SEMPLE, A. M., Professor of Ecclesiastical Greek.

W. R. ROTHWELL, A. M.,
Professor of Biblical Literature and Interpretation.

G. W. HYDE, A. M., Professor of Homiletics.

The Regular course of this School is intended for two years, in the case of those who are fully prepared to proceed with the study of the Scriptures in the Greek and Hebrew, or who have taken the first degree in college. But to afford instructions, as far as they may be able to take advantage of them, to those who have not a classical education, as well to those who desire to study Theology at the same time that they pursue their Literary studies, the course is so arranged that it can be pursued in connection with a literary course, and parts of it, which are adapted to the development of mental power, are taken in lieu of proportionate parts of the literary course in the examination for degrees.

THEOLOGICAL COURSE.

Sub-junior Class.—Preparatory Course—Barrow's Companion to the Bible, Analysis of the contents of the English Scriptures.

JUNIOR CLASS.—Graduates complete the studies of both terms in one year—twelve recitations weekly. Undergraduates extend them over four years—three recitations weekly.

First Term.—1. Archæology-Biblical Geography and Antiquities; Lectures introductory to Theology. 2. Hermeneutics; Theology. 3. Greek New Testament; Elements of Hebrew. 4. Outlines of Church History; New Testament Greek continued, and Hebrew.

Second Term.—1. Archæology, Chronology and History. 2. Hermeneutics; Interpretation of the English Scriptures; Outlines of

Theology. 3. Greek New Testament, critically, with selections from Septuagint, Josephus and Greek Fathers. 4. Evidences of Christianity; Connection of Theology with Ethics, Mental Philosophy and Natual Science; Hebrew.

Senior Class.—The Student is now prepared to investigate all Theological subjects, and the fullest opportunities are given him to consult authorities and express the result of his investigations. The Professors direct in Bibliography and the phases of Theological Sciences at the present time in all the Departments of Scientific Theology, Natural Theology, Ecclesiastical History, Church Polity, Interpretation, Pastoral duties, and Homiletics.

These Lectures, Discussions and Exercises are open to all students in Theology, but the class alone are responsible for the answering.

ADMISSION AND WITHDRAWAL.

An applicant for admission will enroll his name with the President, or, in his absence, with the Chairman of the Faculty, who shall give directions for his admission to the selected schools. No student is permitted to attend more than one recitation in any school until he has paid his tuition, and entered his name on the books of the Professor from the Treasurer's receipt. No exchange of schools is allowed after one week, except by consent of both Professors.

Each student, before he withdraws, shall have a written dismission from the President, or, in his abscence, from the Chairman of the Faculty. Dismissions properly obtained will state the standing of the student on his withdrawal, and will provide for his restoration to his classes should he ever return.

The discipline is upon the fair and simple rule that every student shall maintain the character of a gentleman, and observe the rules of the schools he attends. The President and Faculty will use every appropriate means to develop and encourage in the student a sense of honor, a love of truth, and a life of usefulness.

COLLEGIATE COURSE.

I. YEAR.

MATHEMATICS-Algebra, Geometry.

English—History of U. S., Rhetoric, Hand-book of English Tongue.

LATIN—Grammar, Virgil, Sallust, Cicero's Orations, Prose Composition, History of Rome.

NAT. SCIENCE—Physical Geography.

II. YEAR.

MATHEMATICS-Trigonometry, Analytical Geometry.

English—History of England and France, and Gibbon's Decline and Fall.

LATIN—Horace, Livy, Cicero, Arnold's Prose Composition.

GREEK—Grammar, Xenophon's Anabasis and Cyropedia.

NAT. SCIENCE—Natural Philosophy.

III. YEAR.

MATHEMATICS—Calculus, Philosophy of Mathematics.

English—Anglo-Saxon, English Literature, Lectures.

LATIN—Livy, Tacitus, Juvenal, Classical Literature, Original Composition.

GREEK—Demosthenes, Homer, Composition.

NAT. SCIENCE—Theoretical Chemistry.

IV. YEAR.

GREEK-Lectures on Grammar, History and Literature.

NAT. SCIENCE—Geology, Practical Chemistry.

FRENCH-Fasquelle, Telemague, Charles XII.

GERMAN-Otto's Grammar, Whitney's Reader, Schiller.

MORAL PHILOSOPHY—Mental Science, Ethics.

V. YEAR.

FRENCH-Laporte's Grammar, Moliere, Racine, Picciola.

GERMAN-Grammar, Schiller, Goethe, Etc.

MORAL PHILOSOPHY—Political Economy, Jurisprudence, Natural Theology, Evidences of Christianity.

PREPARATORY DEPARTMENT.

This Department is under the general direction of the Faculty but subject more especially to the individual management and con-

trol of the Principal, who will give it his exclusive attention, and except, as otherwise provided, the students therein will during the day remain under his personal watchcare. He will be aided by the other members of the Faculty who will give instuction in their several departments as it may be needed. Any student in the Preparatory Department shall have the privilege of entering any class in the Collegiate Department for which he is properly qualified, and any student in the Collegiate Department may recite or review in any of the classes of the Preparatory Department.

The commencement and close of this school are the same as of the College. The recitation and study hours are from 8:45 A. M., to 12 M., and from 1:30 P. M., to 4 P. M. During these hours no student is permitted to be on the streets except in going to or from his home or boarding house, unless it be with the express consent of the Principal. At night, study hours from 7 to 9 o'clock, during which all are required to be in their respective rooms.

Two examinations are held during the year—one at the close of the first term, and the other at the close of the second, of which reports are to be promptly made to parents or guardians.

COURSE OF STUDY.

First Year—Reading, Spelling, Arithmetic, Geography and Map-Drawing, History, English Grammar, Latin, Penmanship, Declamation and Composition.

Second Year—Reading, Spelling, Arithmetic, Geography and Map-Drawing, History, Elementary Instruction in the Natural Sciences, English Grammar, Latin, Greek, Algebra, Book-Keeping, Elocution, Composition and Penmanship.

The most approved text books will be used. The Preparatory Department, is designed to give a thorough preparation for the college course, and is organized with a special view to that end. But to those who cannot pursue a full college course, it will give such a practical training as will fit them for the ordinary duties of business life.

EXAMINATIONS.

Each Professor examines his class orally at every recitation or lecture, and keeps a merit-roll, the marks in which are modified not only by the verbal accuracy of the answers, but by the clearness of understanding shown. Merit-marks are reported monthly to parents and guardians.

Two general examinations of each class are held during the session, in the presence of a committee of the Faculty—the first, called the Intermediate Examination, occurring about the middle of the session, and the second, called the Final Examination, taking place in the closing weeks—each embracing the subjects treated of in that half year immediately preceding. These examinations are conducted in writing. The questions propounded have numerical values attached, and if the values of the questions fully answered amount to three-fourths of the aggregate valuation, the student is ranked in the "first" division; if less than three-fourths, but more than one-half, in the "second" division; if less than one-half, but more than one-fourth, in the "third" division; and if less than one-fourth, in the "fourth" division.

Certificates of Distinction are awarded to those attaining the rank of "first" division at either of the examinations, and their names are published at the closing exercises of the session. The general examinations are so comprehensive and searching as to render it impossible for the student to secure a place in the "first" division without great diligence. A report of the examinations is communicated to parents and guardians in the final circular of the session.

The examinations for graduation are held in the last month of the session. They are conducted in each school by the Professor in charge, and in the presence of one other Professor, who forms with him, the Committee of Examination for the school. The candidates for graduation are subjected to searching interrogations, not only on the general principles, but also on the details of the subject. They are expected to be accurately versed in all the topics treated of in the lectures and correlative text. In no case will a degree of any kind be conferred where the average "estimates" are below the first rank. The standing of the student at the daily and general examinations is taken into account in ascertaining his qualifications for graduation in any of the schools.

The written papers are submitted to the President, and by him reported on to the Trustees, who, through a committee, examine them at their Commencement Session and file them in the College rolls.

As a familiarity with the principles of the English language is indispensable to the attainment of even the inferior honors of the institution, a student must have passed a satisfactory examination in the Junior Course of English and History before he can be admitted as a candidate for a degree in any other school.

DEGREES.

The following degrees are conferred:

- 1. The degree of GRADUATE in a particular school, which requires a satisfactory examination in the subjects taught in that school.
- 2. The degree of BACHELOR OF LITERATURE, conferred upon one who is a GRADUATE in the schools of English and History, Latin, Greek, French (or German), and Moral Philosophy.
- 3. The degree of BACHELOR OF SCIENCE, conferred upon one who has passed a satisfactory examination in the Junior Course of English and History, Latin, Greek and Moral Philosophy, and has graduated in the schools of Mathematics, Natural Science and French.
- 4. The degree of BACHELOR OF ARTS, conferred upon one who is a graduate in the schools of English and History, Latin, Moral Philosophy, German (or French), and has passed a satisfactory examination in Natural Science, the Intermediate Classes of Greek and Mathematics, and has graduated in Greek or Mathematics.

The degree of MASTER OF ARTS, conferred upon one who is a graduate in each of the seven schools.

PUBLIC WORSHIP.

Prayers are attended in the Chapel every morning, with reading of the Scriptures, and all students are required to be present. There is also a daily evening prayer-meeting held by the students.

SOCIETIES.

There are two Literary Societies connected with the College—the Philomathic and Excelsior—which have spacious halls in the College edifice, where they meet each week for improvement in writing and oratory.

The Evangelical Society meets every other week to investigate religious topics.

LIBRARY.

The Library of the College contains nearly 3,000 volumes, including the principal encyclopedias and many rare and choice works. A large increase of the library is soon to be made.

MAGAZINE CLUB.

By this organization, made up of members of the College, the best periodical literature of Europe and America is made accessible to the students.

BENEFICIARIES.

Tuition is free to the sons of ministers of all denominations of Christians, who are living by the ministry, and to all who are studying for the sacred ministry in any connection. The Missouri Educational Board have a fund of about five thousand dollars, from the interest of which, with contributions from auxillary societies and private gifts, young men of the Baptist denomination who have the ministry in view, and are recommended by their churches, receive such aid as can be given.

THE COLLEGIATE YEAR.

The session of College commences on the first Tuesday. in September, and continues without interruption till the last Thursday in June. It is divided into two terms—the first closing on the last Friday in January; the second on commencement day.

No student is allowed to be absent at any time during the collegiate session, without special leave. Absence, even for a few days, occasions a greater injury to a student than is commonly supposed by parents and guardians.

EXPENSES.

Tuition and incidentals in the Collegiate Department, per year; \$40.00. No deduction is made except in cases of prolonged illness.

In Preparatory Department—first year, \$30.00; second year \$40.00.

Fee for chemicals by class in chemistry, \$10.00 per year.

Board can be obtained at from \$1.50 to \$4.00 per week.

Students preparing for the ministry, and the sons of ministers of all denominations, who are actually engaged in the work, receive tuition free,

CALENDAR FOR 1873,-'74.

Annual sermon before the Board of Ministerial Education—Sunday, June 21; 11, A.M.

Annual sermon before the Evangelical Society—Sunday June 21; 8, P. M.

Public exercises of the Preparatory Department—Monday, June 22d.

Meeting of the Board of Visitors, and examination of the Classes of the Jeremiah Vardeman School of Theology—Tuesday, June 23; 9, A. M.

Annual meeting of the Philomathic Society—Tuesday, 7:30,P.M. Annual meeting of the Board of Trustees—Wednesday, June 24; 10, A. M.

Annual address before the Literary Societies-Wednesday, June 24.

Annual meeting of the Excelsior Society—Wednesday, June 24.; 7:30, P. M.

Final Day-Thursday June 25.

Opening of session of 1873-74-Tuesday, September 2.

ADVERTISEMENT.

The College is situated at Liberty, Clay County, Missouri, a quiet town of about two thousand inhabitants, in one of the richest agricultural sections of the United States. It is on the Kansas City division of the Hannibal and St. Joseph Railroad, within three miles of the St. Louis, Kansas City and Northern Railway and Missouri river at Liberty landing, and within fifteen miles of Kansas City, which is the focus of nine railroads. It is therefore accessible with ease from all parts of Missouri and the adjacent States.

It is a remarkably healthy place, and enjoys delightful scenery. Boarding can be obtained in the best families. No dramshop is licensed in Liberty or Clay county. The citizens manifest lively interest in the welfare of the students, and the social, moral and religious influences are eminently favorably.

Correspondents, on all general business of the College, will address Prof. R. B. Semple, Secretary of the Faculty; respecting money or notes of the College, J. L. Peake, Esq., Kansas City, Treasurer William Jewell College; respecting business of the Missouri Baptist Ministerial Education Society, and matters pertaining to Ministerial Education, Prof. W. R. Rothwell, Liberty.
