# Faculty.

W. R. ROTHWELL, D. D.,

*Professor of Moral Philosophy and Theology.*

R. B. SEMPLE, A. M.,

*Professor of Latin and German.*

J. G. CLARK, A. M.,

*Professor of Mathematics and French.*

J. R. EATON, PH. D.,

*Professor of Natural Science.*

A. J. EMERSON, A. M.,

*Principal of the Preparatory Department.*

F. L. STREETER,

*Tutor in Greek and German.*

T. H. STEPHENS,

*Tutor in English.*

C. F. D. ARNOLD,

*Assistant in Preparatory Department.*

PROF. ROTHWELL,.....Chairman of Faculty.  
PROF. CLARK,.....Secretary of Faculty.  
PROF. EATON,.....Librarian.  
M. L. THOMAS,.....Assistant Librarian.

# List of Graduates

In the Several Schools, at the Annual Commencement, June 12, 1879.

The College contains eight different Schools, viz: The Schools of Latin, Greek, Mathematics and Astronomy, Modern Languages, English and History, Natural Science, Moral Philosophy and Theology. Two examinations in Writing are held in each School in the course of the year. A student attaining to a grade entitling him to a place in the First Division, is marked, "Distinguished." A student whose average grades place him in the First Division in all examinations in the School, becomes a graduate in that School. One who is a graduate in five Schools of the College, and has fair standing in the Junior and Intermediate Classes of two other Schools, receives the Degree of Bachelor of Arts; and one who is a graduate in each of the first-named seven Schools receives the Degree of Master of Arts.

## Master of Arts.

Reuben Y. Thomson.....Liberty, Mo.

## Bachelor of Arts.

Wm. R. Manley, Cottonwood Falls, Ks.

## Graduates in the School of Latin.

Clarence A. Buchanan...Lone Elm, Mo.

Theodore C. Emerson...Liberty, "

John H. Rothwell.....Liberty, "

Franklin L. Streeter...Normanville, Ks.

## Graduates in the School of Greek.

Wm. R. Manley...Cottonwood Falls, Ks.

Reuben Y. Thomson.....Liberty, Mo.

## Graduates in the School of English and History.

Joseph W. Couch.....Barry, Mo.

Robert D. Duncan...Camden Point, "

Fernando P. Neal.....Newton, Ks.

John W. Norton.....Platte City, Mo.

William S. Peace.....Blue Mills, "

Franklin L. Streeter...Normanville, Ks.

Thos. H. Stephens...New Palestine, Mo.

## Graduates in the School of Natural Science.

Wm. R. Manley...Cottonwood Falls, Ks.

John H. Rothwell.....Liberty, Mo.

Reuben Y. Thomson.....Liberty, "

## Graduates in the School of Moral Philosophy.

# William Jewell College.

## GENERAL STATEMENT.

WILLIAM JEWELL COLLEGE is under the control of the Baptists in Missouri, acting through a Board of Trustees, who conduct the finances, appoint the officers, and prescribe the general control of the Institution. It originated with the earliest efforts of this denomination to organize measures to promote the preaching of the gospel in the State, when it was felt expedient to have a Theological and Literary Seminary, in which candidates for the ministry, and young men in general, might receive a liberal education under religious influences.

The Trustees fully realize that, as the development of Christian truth and its defense against corrupters and opposers are best promoted by higher education and advanced science, it is necessary that an institution intended for the preparation of young men for the functions of the sacred ministry should furnish a culture of the very highest order. They have, therefore, adopted an organization which contemplates the most comprehensive curriculum, the best methods of instruction, and progress with the march and demands of science. They intend that everything taught shall be taught accurately and thoroughly, and that nothing shall be proposed for which there is not a qualified instructor and necessary apparatus.

## ORGANIZATION.

The College is organized in eight schools, over each of which presides a Professor, who fixes the mode of instruction, the standard of graduation, and the method of determining it. Each student is required to select so many of these schools as shall occupy three recitations daily. No student is permitted to attend more than one recitation in any school until he has paid his tuition and entered his name on the books of the Professor from the Treasurer's receipt. No exchange of schools is allowed after one week, except by consent of both Professors.

---

## I.—SCHOOL OF LATIN.

*PROF. SEMPLE.*

The subjects taught in this school are the Latin Language and Literature, and History of Rome. The school is divided into three classes :

I.—JUNIOR.—Text Books: Virgil, Sallust, Cicero's Orations, Cornelius Nepos, Arnold's Prose Composition, Gildersleeve's Latin Grammar, Liddell's History of Rome.

II.—INTERMEDIATE.—Text Books: Horace, Livy, Cicero pro A, Milone, Zumpt's Latin Grammar (for reference), Arnold's Prose Composition.

III.—SENIOR.—Text Books: Livy, Tacitus, Juvenal, Brown's Roman Classical Literature, Original exercises, Zumpt's or Madvig's Latin Grammar (for reference).

The mode of instruction in this school is both analytical and synthetical. As far as possible, the student is taught not only the *facts* of the structure of the language, but also the *principles* which underlie them. Other faculties than that of the memory must be trained before the student can acquire

an accurate and comprehensive knowledge of the principles and a clear perception of the constituent elements of a language. Whilst, therefore, in the preparatory department the beginner is thoroughly drilled in the paradigms of the variable parts of speech, he is yet taught by daily oral and written exercises to systemize and classify the principles of their accidents and construction. It is hoped that thereby the nature and construction of sentences will be progressively developed, independent of barren rules, and a foundation laid for ripe and accurate scholarship. Especial attention is paid to the rendering of English into Latin and Latin into English, *in writing*. Such translations are criticised and returned to the student, with accompanying lectures on the principles involved.

---

## II.—SCHOOL OF GREEK.

PROF. SEMPLE—*pro tem.*

The subjects taught are the Greek Language and Literature, and the History of Greece. In this school there are three classes—Junior, Intermediate and Senior.

I.—In the Junior class a thorough review is made of the inflections, and the principles of the language are explained and illustrated by daily translations from English into Greek, and from Greek into English, with written exercises in both.

TEXT BOOKS.—Kuhner's Elementary, and Hadley's Grammars, Xenophon's Anabasis, and Cyropædia.

II.—In the Intermediate class the Greek syntax is explained, partly by lectures and partly by written translations from the English into Greek. The subject of accent is taken up; its laws are presented, and the student is taught, in his exercises, its practical use.

The authors read are Demosthenes and Homer. In addition to what is studied in the class, a course of parallel reading is prescribed.

GRAMMARS.—Kuhner's, Hadley's.

III.—The Senior class is instructed mainly by lectures. First: On the Grammar of the Greek language. Second: On Greek History and Literature.

Translations are made from the best Greek authors, and are required to be rendered into the original by the student. These exercises are criticised and returned, and explanations are made of the principles involved. Thus the Syntax will be illustrated by all the different constructions which occur in the language. The authors read are: Thucydides, Sophocles, Euripides and Plato. A close and critical examination is made of the text assigned for reading, the peculiarities of the author's style are brought out, and the Comparative Philology of the language is constantly illustrated.

TEXT BOOKS.—Teubner's Leipsic edition of the Classics, Smith's History of Greece, Long's Classical Atlas, Hadley's and Kuhner's Grammars, Liddell and Scott's Greek-English, and Yonge's English-Greek Lexicons.

---

### III.—SCHOOL OF MATHEMATICS.

*PROF. CLARK.*

In this school there are four regular classes, viz: The Junior, Intermediate and Senior classes of Pure Mathematics, and the class of Mechanics and Astronomy.

The requisites for admission into the Junior class are: Arithmetic, Algebra to Quadratic Equations, and three books of Geometry. Students who are deficient in these branches will find suitable classes in the Preparatory school.

## COURSE OF STUDY.

JUNIOR CLASS.—Algebra, completed; Geometry, completed; Elements of Plane Trigonometry and Surveying. Text Books: Schuyler's Algebra, Schuyler's Geometry, Ray's Surveying.

INTERMEDIATE CLASS.—Trigonometry, completed; Analytic Geometry. Text Books: Those of the Junior Class and Ray's Analytic Geometry.

SENIOR CLASS.—Differential and Integral Calculus. Text Book: The Professor's Calculus, published in Ray's Series.

CLASS OF MECHANICS AND ASTRONOMY.—Text Books: Smith's Mechanics, Ray's Astronomy, with Mathematical Notes by the Professor.

Satisfactory examination in all the classes of the above course is required for graduation in the school of Mathematics, or the degree of A. M. During the second term of the collegiate year there is an additional class open to all students who have completed Trigonometry. In this class instruction is given in the various branches of Surveying, including the use of the Transit and Solar Compass, Railroad Surveying and Leveling, Topography, etc. Attendance upon this class is optional, but a certificate of proficiency will be awarded for satisfactory attainments therein.

---

#### IV.—SCHOOL OF NATURAL SCIENCE.

PROFESSOR EATON.

In this school the best facilities will be afforded for a thorough and practical knowledge of the Natural Sciences with respect to the interests of every-day life, and to their harmony with the Divine revelation. Each subject is illustrated by lectures and experiments. In the Department of Chemistry there is a well-furnished Laboratory, stocked with a full supply

of necessary chemicals and apparatus, and the Department of Natural Philosophy is well supplied with superior and improved forms of apparatus. Constant additions are being made to both departments.

The senior students of Chemistry are, in turn, put into the Laboratory, and required to experiment and lecture before the class upon the various questions involved; thus acquiring a facility in manipulation, and a practical knowledge of the subject not to be attained by the mere study of text-books and attendance upon the lectures of the Professor.

Before entering upon this school the student is supposed to have a knowledge of Plane Geometry and Plane Trigonometry, and for *graduation* the Junior course of Latin and Greek is required.

#### COURSE OF STUDY.

##### JUNIOR CLASS.

Natural Philosophy—Lectures and Recitations.

##### INTERMEDIATE CLASS.

Theoretical Chemistry—Lectures and Recitations.

##### SENIOR CLASS.

Geology, Dana's Manual, Analytical and Applied Chemistry, Laboratory Practice. Lectures and experiments by members of the class.

---

#### V.—SCHOOL OF MODERN LANGUAGES.

##### PROFS, SEMPLE AND CLARK.

The languages embraced in this department are French, German and Italian. In French and German there are two classes for each—Junior and Senior—in Italian, one.

In each language the elements of Grammar are thoroughly studied by means of text books and explanatory lectures.

Frequent exercises in translation from English to the respective languages are required throughout the session, and thus a practical familiarity with the idioms and constructions is acquired.

#### TEXT BOOKS.

##### FRENCH.

JUNIOR CLASS.—Otto's Grammar, Fasquelle's Dumas' Napoleon, Surenné's Dictionary.

SENIOR CLASS.—Otto's Grammar, Picciola, Joynes' edition of Classic French Plays, Pylodet's Litterature Francaise Contemporaine.

~~As~~ In addition to the above, candidates for graduation are expected to read, in private, portions of such standard French authors as may from time to time be recommended.

##### GERMAN.

JUNIOR CLASS.—Otto's Grammar, Whitney's Reader, Select Plays from Schiller, Adler's Dictionary.

SENIOR CLASS.—Grammar and Dictionary as in Junior class, Selections from Schiller, Goethe etc., etc.

##### ITALIAN.

Monti's Grammar, I Promessi Sposi, Le Mie Prignione, Monti's Reader, Grassi's Dictionary.

## VI.—SCHOOL OF ENGLISH AND HISTORY.

### PROFS. EATON AND ROTHWELL.

The course of instruction in this Department is made broad and thorough, to meet the increased attention now given to English Philology. The course includes:

I. The History of the Language. The Anglo-Saxon is made

a prominent topic of study, and the changes in the language from the earliest times to the present are carefully noted.

II. The present structure of the language. The student is required to study the lexicography of the language or the etymology or more accurate signification of the separate words, with the Philosophy of English orthography and the principles of pronunciation; the grammatical combination of English words into sentences, and the rhetoric of the language, or its most effective use in connected discourse.

III. The Literature of the Language. A review is made of the principal authors from the early period to the present day.

Instruction is also given in the laws of Oratory or the most effective use of the spoken language in public discourse. Oration is delivered each week by members of the department in the presence of the whole College.

The course of History includes a general review of Medieval and Modern History, with a special study of the histories of England and the United States. The members of the class are also instructed in the true methods of historical research.

---

## VII.—SHERWOOD SCHOOL OF MORAL PHILOSOPHY.

*PROF. ROTHWELL.*

The name of this school is intended to perpetuate that of Rev. Adiel Sherwood, D. D., than whom few living men have done more to promote the interests of education in the Baptist denomination. He was first to propose to aid in endowing this chair by the gift of \$1,000. The proposition was laid before the Baptist General Association, at its annual meeting

held at Columbia, Boone county, Mo., 1869, and in forty minutes, thirty others associated themselves with him, and gave his name to the school as an evidence of their veneration.

The object of this science is to acquaint the mind with the knowledge, command and employment of its own faculties. The topics embraced in it are Mental Science, Logic, Ethics, Political Economy, Natural Theology, Jurisprudence, and the evidences of Christianity; or, the mind, our relations to good, to temporal affairs, to God and eternity, to the State, and to the Christian religion.

The course pursued in this school is to accustom the student to making severe analysis of his own mental actions in the examination of every topic brought under his notice, and at the same time to put him in possession of the observations and opinions of thinkers who are affecting society and human destiny.

---

## VIII.-JEREMIAH VARDEMAN SCHOOL OF THEOLOGY.

*PROF. ROTHWELL.*

The regular course of this school is intended for two years, in the case of those who are fully prepared to proceed with the study of the Scriptures in the Greek and Hebrew, or who have taken the first degree in College. But to afford profitable instruction to those who have not a classical education, and to those who desire to study Theology at the same time that they pursue their literary studies, the course is so arranged as to be pursued in connection with a literary course, and parts of it which are adapted to the development of mental power, are taken, by agreement of the Faculty, in lieu of proportionate parts of the literary course in the examination for degrees.

## COURSE OF INSTRUCTION.

FIRST YEAR.—Sacred Geography and Biblical Antiquities. Text Book: Barrows'.

SECOND YEAR.—Evidences of Revealed Religion, Introduction to the Books of the Old Testament, Introduction to the New Testament, Principles of Interpretation. Text Book: Angus or Barrows.

THIRD YEAR.—Systematic Theology and Church Order. Text Books: Dagg and Hovey.

FOURTH YEAR.—Hebrew. Text Books Deutsch's Hebrew Grammar, Gessenius' Lexicon, Hebrew Bible.

FIFTH YEAR.—Homiletics and Church History. Text Books: Broadus on Preaching and Kurtz's Church History.

The connections of Theology with Mental Science and Ethics are taught in the School of Moral Philosophy. The relations of Natural Science and the Bible are discussed by the Professor of Natural Science, who also gives a course of Lectures on Natural Theology. Thorough instruction in the original language of the New Testament is given in the School of Greek.

The College Library is peculiarly rich in valuable and rare aids to the ministerial student. The bi-weekly meetings of the Evangelical Society, and the weekly meetings of the Literary Societies, form habits of correctness in the use of tongue and pen. Besides morning worship in the Chapel, the students hold a daily prayer-meeting in the evening, of their own accord, characterized by a lively and gracious spirit of devotion. On Sabbath, students join in public worship with the Church. They enter society and enjoy the social intercourse of Christians, take part in prayer-meetings and instructions of the Sunday-school and Bible classes ;; and keep thus in living connection with the work of the Church and the benevolent enterprises of the day. Those who are able to preach to edification are encouraged to do so, but only to such extent as not to conflict with regular recitations or lectures. *No stu-*

dent will be retained in this department who is not heartily in earnest and devoted to the work of preparation for his ministry.

Students will be subject to the same regulations as to written examinations and graduation in the School of Theology as in the other schools of the College.

---

### COLLEGE COURSE.

(The following tabular statement of studies in the several schools is given to enable the student to arrange his studies from session to session with a view to graduation in Arts, Science, or Literature. What parts of the course are optional or elective in ordering his studies, with reference to any one of these degrees, the student can see by referring to the Article "DEGREES," and to Remarks of Professors upon their respective schools.)

### PREPARATORY REQUIREMENTS.

*Mathematics.*—Arithmetic, Algebra to Equations of the Second Degree, Geometry to Book IV.

*English and History.*—English Grammar, English Composition, Geography, United States History, correct Spelling, and good Penmanship.

*Latin.*—Grammar, Exercises, Cæsar.

### FIRST YEAR.

*Mathematics.*—Algebra, Geometry, Elements of Plane Trigonometry and Surveying.

*English and History.*—Rhetoric, Rhetorical and Elocutionary Exercises.

*Latin*.—Grammar, Virgil, Sallust, Cicero's Orations, Arnold's Prose Composition, History of Rome.

*Greek*.—Greek Grammar, Xenophon.

*Natural Science*.—Physical Geography.

## SECOND YEAR.

*Mathematics*.—Trigonometry completed, Analytical Geometry.

*English and History*.—Hume's England, English Literature.

*Latin*.—Horace, Livy, Cicero, Arnold's Prose Composition.

*Greek*.—Demosthenes, Thucydides, Homer, Composition.

*Natural Science*.—Natural Philosophy.

## THIRD YEAR.

*Mathematics*.—Differential and Integral Calculus.

*English and History*.—Gibbon's Decline and Fall, Guizot's History of Civilization.

*Latin*.—Livy, Tacitus, Juvenal, Classical Literature, Original Composition.

*Greek*.—Plato, Sophocles, Lectures, History and Civilization.

*Natural Science*.—Theoretical Chemistry.

*Moral Philosophy*.—Psychology, Logic.

*Modern Languages*.—French and German.

## FOURTH YEAR.

*Mathematics*.—Rational Mechanics, Astronomy.

*English*.—Anglo-Saxon, Reading of the English Classics.

*Modern Languages*.—French and German.

*Moral Philosophy*.—Ethics, Political Economy, International Law.

*Natural Science*.—Geology and Practical Chemistry.

## PREPARATORY DEPARTMENT.

This department is under the general direction of the Faculty, but subject more especially to the individual management and control of the Principal, who will give it his exclusive attention, and, except as otherwise provided, the students therein will during the day remain under his personal supervision. He will be aided by the other members of the Faculty, who will give instruction in their several departments as may be needed. Any student in the Preparatory Department shall have the privilege of entering any class in the Collegiate Department for which he is properly qualified, and any student in the Collegiate Department may recite or review in any of the classes of the Preparatory Department.

The commencement and close of this school are the same as those of the College. The recitation and study hours are from 8:45 a. m. to 12 m., and from 1:30 p. m. to 4 p. m. During these hours no student is permitted to be on the streets except in going to or from his home or boarding-house, unless it be with the express consent of the Principal. At night, study hours from 7 to 9 o'clock, during which all are required to be in their respective rooms.

Two examinations are held during the year—one at the close of the first term, and the other at the close of the second; the results of which are announced on the Final Day.

## COURSE OF STUDY.

FIRST DIVISION.—Reading, Spelling, Arithmetic, Geography and Map Drawing, History, English Grammar, Latin, Penmanship, Declamation and Composition.

SECOND DIVISION.—Reading, Spelling, Arithmetic, Geography and Map Drawing, History, Elementary Instruction in the

Natural Sciences, English Grammar, Latin, Greek, Algebra, Geometry, Book-keeping, Elocution, Composition and Penmanship.

The most approved text books will be used. The Preparatory Department is designed to give a thorough preparation for the College Course, and is organized with a special view to that end. But to those who can not pursue a full College Course, it will give such a practical training as will fit them for the ordinary duties of business life.

---

#### ADMISSION AND WITHDRAWAL.

An Applicant for admission will first pay the fees due the Treasurer and will then enroll his name with the President or Chairman of the Faculty, who will give direction for his admission to the selected schools.

Each student, before he withdraws, shall have a written dismission from the President or Chairman of the Faculty. Dismissions, properly obtained, will state the standing of the student on his withdrawal, and will provide for his restoration to his classes, should he ever return.

The discipline is upon the fair and simple rule that every student shall maintain the character of a gentleman, and observe the rules of the school he attends. The President and Faculty will use every appropriate means to develop and encourage in the student a sense of honor, a love of truth, and a life of usefulness.

---

#### EXAMINATIONS.

Each Professor examines his class orally at every recitation or lecture, and keeps a merit-roll, the marks in which are modified, not only by the verbal accuracy of the answers, but

by the clearness of the understanding shown. Merit-marks are reported frequently to parents and guardians.

Two general examinations of each class are held during the session—the first, called the Intermediate Examination, occurring about the middle of the session, and the second, called the Final Examination, taking place in the closing weeks, each embracing the subjects treated in the half year immediately preceding. These examinations are conducted in writing. The questions propounded have numerical values attached, and if the values of the questions fully answered amount to three-fourths of the aggregate valuation, the student is ranked in the “first division;” if less than three-fourths, in the “second division.”

Certificates of Distinction are awarded to those attaining the rank of “first division” at either of the examinations, and their names published at the closing exercises of the session. The general examinations are so comprehensive and searching as to render it impossible for the student to secure a place in the “first division” without great diligence. The results of these examinations are publicly announced on the Final Day.

The examinations for graduation are held in the last month of the session, and they are conducted in each school by the Professor in charge. The candidates for graduation are subjected to searching interrogations, not only on the general principles, but also on the details of the subject, and they are expected to be accurately versed in all the topics treated of in the lectures and correlative text. In no case will a degree of any kind be conferred where the average “estimates” are below the first rank. The standing of the student at the daily and general examinations is taken into account in ascertaining his qualification for graduation in any of the schools.

The written papers are submitted to the President, and by him reported to the Trustees, who, through a committee, examine them at their Commencement Session and file them in the College rolls.

As a familiarity with the principles of the English Language is indispensable to the attainment of even the inferior honors of the institution, a student must have passed a satisfactory examination in the Junior Course of English and History before he can be admitted to a degree in any other school.

## DEGREES.

The following degrees are conferred:

1. The degree of Graduate in a particular school, which requires a satisfactory examination in the subjects taught in that school.

2. The degree of Bachelor of Literature, conferred upon one who is a graduate in the schools of English and History, Latin, Greek, French (or German), and Moral Philosophy.

3. The degree of Bachelor of Science, conferred upon one who has passed a satisfactory examination in the Junior Course of English and History, Latin, Greek, and Moral Philosophy, and has graduated in the schools of Mathematics, Natural Science and French.

4. The degree of Bachelor of Arts, conferred upon one who is a graduate in five schools of the College, and has fair stand- in the Junior and Intermediate classes of two other schools.

5. The degree of Master of Arts, conferred upon one who is a graduate in all of the seven schools except Theology.

No student is allowed to graduate in any school in the College, or to receive any certificate of proficiency, until all his dues to the College are paid.

---

PUBLIC WORSHIP.

At fifteen minutes before nine o'clock each morning the Faculty and students assemble in the Chapel. A portion of the Scriptures is read, and prayer offered—one of the Professors conducting the exercises, each in turn—and all unite in singing a selection of sacred music, led by the College Choir. There is also a daily evening prayer-meeting held in the Hall of the Evangelical Society at 6 to 6:30 p. m.—which has been voluntarily conducted among the students for several years, and which has been attended by very gracious influences.

### SOCIETIES.

There are two Literary Societies, the Philomathic and Excelsior, which have spacious Halls, elegantly furnished, in the College Building, where they meet each Friday evening for debate and other literary exercises.

The Evangelical Society meets every other week to engage for mutual improvement, in Homiletic Exercises, and to investigate Religious topics.

The Literary Union, an association among the students for various purposes, provides for holding literary contests during the year, and awarding prizes in Orthography, in Reading, in Composition, in Declamation and in Oratory.

The Society of Alumni holds an annual session in connection with the College Commencement, and provides for an oration from some one of its members.

---

### LIBRARY.

The Library of the College contains 3,500 volumes, including the principal encyclopedias and many rare and choice works. The number of volumes is increasing each year by gift and purchase. The Assistant Librarian keeps the Hall open at certain hours at which all students have access to it as a reading room, and to take out any books desired.

## MAGAZINE CLUB.

By this organization, made up of members of the College, the best periodical literature of Europe and America is made accessible to the students.

---

## BENEFICIARIES.

Tuition is free to the sons of ministers who are living by the ministry, and to all who are studying for the ministry, and approved by the Ministerial Education Board. The Board of Ministerial Education of the Baptist General Association of Missouri have a fund of about five thousand dollars, from the interest of which, with contributions from auxiliary societies and private gifts, young men of the Baptist denomination who have the ministry in view, and are recommended by their churches, receive such aid as can be given.

---

## THE COLLEGIATE YEAR.

The session of College commences on the first Thursday in September, and continues without interruption till the second Thursday in June. It is divided into two terms—the first closing on Wednesday, the 19th day of January; the second on the Commencement Day.

No student is allowed to be absent during the Collegiate session without special leave. Absence, *even for a few days*, occasions a greater injury to the student than is generally supposed by parents and guardians.

---

## EXPENSES.

Tuition in College Classes, per term, in advance .....	\$20 00
Tuition in Preparatory Department, per term, in advance.....	20 00
Fee for Fuel, Janitor's Services, etc., per term, payable by all.....	1 00
Fee for Chemicals, by Class in Chemistry, per term.....	5 00
Library Fee, per term, payable by all.....	50

## CALENDAR FOR 1880-81.

Opening of Session—THURSDAY, SEPT. 2d, 1880.

Semi-Annual Meeting of the Board of Trustees—WEDNESDAY, JAN. 19th, 1881, 10 A. M.

Annual sermon before the Evangelical Society—SUNDAY, JUNE 5th, 11 A. M.

Public Exercises of the Preparatory Department—MONDAY, JUNE 6th.

Meeting of the Board of Visitors, and Examination of the Classes in the School of Theology—TUESDAY, JUNE 7th, 9 A. M.

Annual Sermon before the Missouri Baptist Ministerial Education Society—TUESDAY, JUNE 7th, 11 A. M.

Meeting of the Missouri Baptist Ministerial Education Society—TUESDAY, JUNE 7th, 2:30 P. M.

Annual Meeting of the Philomathic Society—TUESDAY, JUNE 7th, 8 P. M.

Meeting of the Board of Trustees—WEDNESDAY, JUNE 8th, 8 A. M.

Annual Address before the Literary Societies—WEDNESDAY, JUNE 8th, 10:30 A. M.

Annual Meeting of the Excelsior Society—WEDNESDAY, JUNE 8th, 8 P. M.

Final Day—THURSDAY, JUNE 9th, 1881.

## ADVERTISEMENT.

The College is situated at Liberty, Clay County, Missouri, a quiet town of about 2,000 inhabitants. It is on the Kansas City Division of the Hannibal and St. Joseph Railroad, within three miles of the St. Louis, Kansas City and Northern Railway and Missouri River at Liberty Landing, and within fifteen miles of Kansas City, which is the focus of thirteen railroads. It is therefore accessible with ease from all parts of Missouri and the adjacent States.

---

## CORRESPONDENTS

Wishing information concerning admission, course of study, and all matters pertaining to the internal affairs of the College, address Prof. Rothwell, Chairman, or Prof. Clark, Secretary of the Faculty, Liberty, Mo. Respecting notes, lands, etc., of the College, J. T. Chandler, Liberty, Mo. Respecting the general fiscal affairs of the College, and especially all matters pertaining to the effort to further endow the College, address L. B. Ely, Carrollton, Mo. Concerning business of the Missouri Baptist Ministerial Education Society, and matters pertaining to Ministerial education, address W. R. Rothwell, Liberty.

## ENCOURAGING FACTS AND PROSPECTS.

WILLIAM JEWELL COLLEGE, chartered in 1849 and opened in 1852, has now been in operation—the short suspension by the War excepted—for twenty-eight years<sup>3</sup>. It has buildings, grounds, etc., estimated at \$75,000.00. The present endowment (a part being in lands and yet unproductive) is near \$100,000.00, and the College is entirely free from debt. The Financial Agent, L. B. Ely, Esq., is at this time vigorously prosecuting the Endowment Work, the sale of lands, and the investment of funds.

The present organization of the College contemplates seven endowed Professorships. The Jeremiah Vardeman School of Theology was founded, in connection with the College, in 1868, with an endowment of \$40,000.00, for Ministerial education.

The annual catalogues show an average attendance for the past twelve years of 150 young men. The School of Theology has had in this period about 200 matriculates. The Alumni of the College, now numerous and holding prominent positions in this and other States, have organized to promote its progress and growth.

Thirty years ago many in Missouri regretted the location of the College so near the Western boundary of the State; but the settlement of the country and the course of events have made it grandly central, as if Providence had designed it to become the Baptist University of the Missouri Valley. Kansas City, a railroad center, second already to no city in the West, has sprung up within fourteen miles of the site of the College. So that while the Institution has the advantage of location in an orderly college town, it is easily accessible by its proximity to the City from a very wide region of country by direct railroad communication. A circuit of 200 miles around this center is conceded to be the richest body of land of so great extent lying together in the world. The College

is now receiving a considerable and increasing patronage from States which at the time of its founding were the yet unsettled Plains of the West. Whereunto may this not grow if the College is built up and new departments added as the development of the country may demand and the ability of its friends make possible? The Baptist denomination in Missouri feel that this Institution has claims upon them of the highest order, and its Financial Agent has said, in a recent paper, that "the possibilities and prospects of William Jewell College are brighter than ever before."

As there will be a heavy immigration into Missouri this year, and many will be seeking educational advantages, it will not be inappropriate to say that homes can be obtained in Liberty and farms near by at very reasonable rates, and incoming citizens will meet with hearty welcome.

The next Session will open Thursday, September 2d, 1880.
