FACULTY.

W. R. ROTHWELL, A. M., D. D.,

Prof. of Moral Philosophy and Theology.

R. B. SEMPLE, A. M.,

Professor of Latin and German.

J. G. CLARK, LL. D.,

Professor of Mathematics and French.

J. R. EATON, A. M., PH. D.,

Professor of Natural Science.

A. J. EMERSON, A. M., D. D.,

Principal of the Preparatory Department.

SCHOOL OF GREEK. *pro tem*, PROF. SEMPLE.

C. A. BUCHANAN, A. B.,

Ass't Professor of English Literature and History.

Prof. CLARK.....Chairman of Faculty.

Prof. BUCHANAN.....Secretary of Faculty.

Prof. EATON.....Librarian.

A. B. DUNCAN.....Assistant Librarian.

LIST OF GRADUATES.

In the Several Schools, at the Annual Commencement, June 14, 1883.

The College contains eight different Schools, viz: The Schools of Latin, Greek, Mathematics and Astronomy, Modern Languages, English and History, Natural Science, Moral Philosophy and Theology. Two examinations in writing are held in each School in the course of the year. A student attaining to a grade entitling him to a place in the First Division, is marked "Distinguished." A student whose average grades place him in the First Division in all examinations in the School, becomes a graduate in that School. One who is a graduate in five Schools of the College, and has fair standing in the Junior and Intermediate Classes of two other Schools, receives the degree of Bachelor of Arts; and one who is a graduate in each of the first-named seven Schools receives the degree of Master of Arts.

DECREES:

Master of Arts.

J. T. BRUCE..... Providence, Mo.

Bachelor of Arts.

G. F. ROTHWELL..... Moberly, Mo.

WM. JEWELL COLLEGE.

GENERAL STATEMENT.

WILLIAM JEWELL COLLEGE is under the control of the Baptists of Missouri, acting through a Board of Trustees, who conduct the finances, appoint the officers, and prescribe the general control of the Institution. It originated with the earliest efforts of this denomination to organize measures to promote the preaching of the gospel in the State, when it was felt expedient to have a Theological and Literary Seminary, in which candidates for the ministry, and young men in general, might receive a liberal education under religious influences.

The Trustees fully realize that, as the development of Christian truth and its defense against corrupters and opposers are best promoted by higher education and advanced science, it is necessary that an institution intended for the preparation of young men for the functions of the sacred ministry, should furnish a culture of the very highest order. They have, therefore, adopted an organization which contemplates the most comprehensive curriculum, the best methods of instruction and progress with the march and demands of science. They intend that everything taught shall be taught accurately and thoroughly, and that nothing shall be proposed for which there is not a qualified instructor and necessary apparatus.

ORGANIZATION.

There are three departments of instruction, viz: Preparatory, Collegiate and Theological.

For details concerning the Preparatory Department see page 23 of the Catalogue.

The Theological Department, for details of which see page 18, is designed to meet the wants of students for the Gospel Ministry. Its course of study is so arranged as to admit of being pursued in connection with those of the other departments.

In the College proper there are seven Schools—Latin, Greek, Modern Languages, English and History, Mathematics, Natural Science and Moral Philosophy,—over each of which presides a Professor who fixes the mode of instruction, the standard of graduation and the mode of determining it. Each student is required to select so many of these Schools as shall occupy three recitations per day throughout the session, the privilege of selection being limited, however, by the following

REGULATIONS.

1. Every student shall, before entering any class in the Collegiate Department, be examined upon English Grammar, Composition and Spelling, Geography, United States History and Arithmetic. If found deficient in any of these branches he shall be required to pursue them in the Preparatory Department until the deficiency is removed.

2. He shall also be required to pass a satisfactory examination upon all studies preliminary to those of the classes he wishes to enter.

3. A student desiring to enter an advanced class in any School, and found deficient at the preliminary examination, (2) may be permitted to enter the class conditionally, the deficiency to be made up by a subsequent satisfactory examination. Students from other institutions will not be exempt from the operation of these rules.

4. No student will be permitted to attend more than one recitation in any School or Department until he has paid his bills and entered his name upon the books of the Professor from the Treasurer's receipt.

I.—SCHOOL OF LATIN.

PROF. SEMPLE.

The subjects taught in this school are the Latin Language and Literature, and History of Rome. The school is divided into three classes:

I.—JUNIOR.—Text Books: Virgil, Sallust, Cicero's Orationes, Cornelius Nepos, Arnold's Prose Composition, Gildersleeve's Latin Grammar, Liddell's History of Rome.

II.—INTERMEDIATE.—Text Books: Horace, Livy, Cicero pro A. Milone, Zumpt's Latin Grammar (for reference), Arnold's Prose Composition.

III.—SENIOR.—Text Books: Livy, Tacitus, Juvenal, Brown's Roman Classical Literature, Original Exercises, Zumpt's or Madvig's Latin Grammar (for reference).

The mode of instruction in this school is both analytical and synthetical. As far as possible, the student is taught not only the *facts* of the structure of the language, but also the *principles* which underlie them. Especial attention is paid to the rendering of English into Latin and Latin into English, *in writing*. Such translations are criticised and returned to the student, with accompanying lectures on the principles involved.

II.—SCHOOL OF GREEK.

PROF. SEMPLE—*pro tem.*

The subjects taught are the Greek Language and Literature, and the History of Greece. In this school there are three classes—Junior, Intermediate and Senior.

I.—In the Junior Class a thorough review is made of the inflections, and the principles of the language are explained and illustrated by daily translations from English into Greek, and from Greek into English, with written exercises in both.

TEXT BOOKS: Kuhner's Elementary and Hadley's Grammars, Xenophon's Anabasis and Cyropedia.

II.—In the Intermediate Class the Greek syntax is explained, partly by lectures and partly by written translations from the English into Greek. The subject of accent is taken up; its laws are presented, and the student is taught, in his exercises, its practical use. The authors read are Demosthenes and Homer. In addition to what is studied in the class, a course of parallel reading is prescribed.

GRAMMARS: Kuhner's, Hadley's.

III.—The Senior Class is instructed mainly by lectures, First: On the Grammar of the Greek language. Second: On Greek History and Literature.

Translations are made from the best Greek authors, and are required to be rendered into the original by the student. These exercises are criticised and returned, and explanations are made of the principles involved. The authors read are: Thucydides, Sophocles, Euripides and Plato. A close and critical examination is made of the text assigned for reading, the peculiarities of the author's style are brought out, and the Comparative Philology of the language is constantly illustrated.

TEXT BOOKS: Teubner's Leipsic edition of the Classics, Smith's History of Greece, Long's Classical Atlas, Hadley's and Kuhner's Grammars, Liddell and Scott's Greek-English, and Yonge's English-Greek Lexicons.

III.—SCHOOL OF MATHEMATICS.

PROF. CLARK.

In this school there are four regular classes, viz: The Junior, Intermediate and Senior classes of Pure Mathematics, and the class of Mechanics and Astronomy.

The requisites for admission into the Junior Class are: Arithmetic, Algebra to Quadratic Equations, and two books of Geometry. Students who are deficient in these branches will find suitable classes in the Preparatory school.

Course of Study.

JUNIOR CLASS.—Algebra; Plane Geometry, Plane Trigonometry and Elementary Surveying. Text books: Schuyler's Algebra, Schuyler's Geometry, Ray's Surveying.

INTERMEDIATE CLASS.—Solid Geometry, Spherical Trigonometry, Analytic Geometry. Text Books: Those of the Junior Class, and Ray's Analytic Geometry.

SENIOR CLASS.—Differential and Integral Calculus. Text books: The Professor's Calculus, published in Ray's Series.

CLASS OF MECHANICS AND ASTRONOMY.—Text books: Smith's Mechanics and Loomis's Astronomy.

Satisfactory examination in all the above-mentioned classes is required for graduation in the School of Mathematics. For the degree of A. B., the *required* studies are Algebra, Geometry and Trigonometry.

During the latter half of the year there is an optional class in which instruction is given in the use of various instruments. Such as the Transit Instrument and Solar Compass, in Railroad Surveying and Leveling, Topography, &c. This class is open to all who have completed Geometry and Trigonometry.

IV.—SCHOOL OF NATURAL SCIENCE.

PROF. EATON.

In this school the best facilities will be afforded for a thorough and practical knowledge of the Natural Sciences with respect to the interests of every day life, and to their harmony with the Divine revelation. Each subject is illustrated by lectures and experiments. In the department of Chemistry there is a well-furnished Laboratory, stocked with a full supply of necessary chemicals and apparatus, and the department of Natural Philosophy is well supplied with superior and improved forms of apparatus. Constant additions are being made to both departments.

The senior students of Chemistry are, in turn, put into the Laboratory, and required to experiment and lecture before the class upon the various questions involved; thus acquiring a facility in manipulation, and a practical knowledge of the subject not to be attained by the mere study of text-books and attendance upon the lectures of the Professor.

Before entering upon this school the student is supposed to have a knowledge of Plane Geometry and Plane Trigonometry, and for *graduation* the Junior course of Latin and Greek is required.

Course of Study.

JUNIOR CLASS.—Natural Philosophy—Lectures and Recitations.

INTERMEDIATE CLASS.—Theoretical Chemistry—Lectures and Recitations.

SENIOR CLASS.—Geology, Dana's Manual, Analytical and Applied Chemistry, Laboratory Practice. Lectures and experiments by members of the class.

V.—SCHOOL OF MODERN LANGUAGES.

PROFS. *SEMPLE* and *CLARK*.

The languages embraced in this department are French, German and Italian. In French and German there are two classes for each—Junior and Senior—in Italian, one.

In each language the elements of Grammar are thoroughly studied by means of text-books and explanatory lectures. Frequent exercises in translation from English to the respective languages are required throughout the session, and thus a practical familiarity with the idioms and construction is acquired.

Text Books.

FRENCH.

Otto's Grammar, Fasquelle's Dumas' Napoleon, Surenné's Dictionary, Picciola, Joynes' edition of Classic French Plays, Pylodet's Litterature Française Contemporaine.

 In addition to the above, candidates for graduation are expected to read, in private, portions of such standard French authors as may from time to time be recommended.

GERMAN.

Otto's Grammar, Whitney's Reader, Select Plays from Schiller, Goethe, &c., &c.

ITALIAN.

Monti's Grammar, I Promessi Sposi, Le Mie Prignione, Monti's Reader, Grassi's Dictionary.

VI.—SCHOOL OF ENGLISH AND HISTORY.

ASSISTANT PROFESSOR C. A. BUCHANAN.

In this school instruction is given in the following subjects, viz:

I.—THE ENGLISH LANGUAGE, including its grammatical structure, its history and development from the earliest forms to those of the present century.

II.—ENGLISH LITERATURE, including a general review of the principal authors from the early period to the present time, and the critical study of selections from their works.

III.—RHETORIC, including the Science and Art of Composition, Oratory and Literary Criticism.

IV.—HISTORY, including a general review of Mediæval and Modern History, a special study of the History of England, and an examination into the causes of our present civilization.

The course, outlined as above, is distributed through three classes—Junior, Intermediate and Senior,—for each of which a certain amount of previous preparation is essential. That necessary for admission to the lowest, or Junior, class embraces the subjects mentioned on page 11 of the Catalogue, and all of the *English* studies of the Preparatory Department. In each class the best attainable text-books are used, and it is intended to make the instruction commensurate with the prominence which the study of English has of late years acquired in our best Institutions.

VII.—SHERWOOD SCHOOL MORAL PHILOSOPHY.

PROF. ROTHWELL.

The name of this school is intended to perpetuate that of Rev. Adiel Sherwood, D. D., than whom few living men have done more to promote the interest of education in the Baptist denomination. He was first to propose to aid in endowing this chair by the gift of \$1,000. The proposition was laid before the Baptist General Association, at its annual meeting held at Columbia, Boone County, Missouri, 1869, and in forty minutes, thirty others associated themselves with him, and gave his name to the school as an evidence of their veneration.

The object of this science is to acquaint the mind with the knowledge, command and employment of its own faculties. The topics embraced in it are Mental Science, Logic, Ethics, Political Economy, Natural Theology, Jurisprudence, and the Evidences of Christianity; or, the mind, our relations to good, to temporal affairs, to God and eternity, to the State, and to the Christian religion.

The course pursued in this school is to accustom the student to make severe analysis of his own mental actions in the examination of every topic brought under his notice, and at the same time to put him in possession of the observations and opinions of thinkers who are affecting society and human destiny.

VIII.—JEREMIAH VARDEMAN SCHOOL OF THEOLOGY.

PROF. ROTHWELL.

The regular course of this school is intended for two years, in the case of those who are fully prepared to proceed with

the study of the Scriptures in the Greek or Hebrew, or who have taken the first degree in College. But to afford profitable instruction to those who have not a classical education, and to those who desire to study Theology at the same time that they pursue their literary studies, the course is so arranged as to be pursued in connection with a literary course, and parts of it which are adapted to the development of mental power, are taken, by agreement of the Faculty, in lieu of proportionate parts of the literary course in the examination for the degree of A. B.

Course of Instruction.

FIRST YEAR.—Sacred Geography and Biblical Antiquities. Text book: Barrows.

SECOND YEAR.—Evidences of Revealed Religion, Introduction to the Books of the Old Testament, Introduction to the New Testament, Principles of Interpretation. Text books: Angus or Barrows.

THIRD YEAR.—Systematic Theology and Church Order. Text books: Dagg and Hovey.

FOURTH YEAR.—Hebrew. Text books: Deutsch's Hebrew Grammar, Gesenius's Lexicon, Hebrew Bible.

FIFTH YEAR.—Homiletics and Church History. Text books: Broadus on Preaching and Kurtz's Church History.

The connections of Theology with Mental Science and Ethics are taught in the School of Moral Philosophy. The relations of Natural Science and the Bible are discussed by the Professor of Natural Science, who also gives a course of lectures on Natural Theology. Thorough instruction in the original language of the New Testament is given in the School of Greek.

The College Library is peculiarly rich in valuable and rare aids to the ministerial student. The meetings of the Evangelical Society, and also those of the Literary Societies, form

habits of correctness in the use of tongue and pen. Besides morning worship in the Chapel, the students hold a daily prayer-meeting in the evening, of their own accord, characterized by a lively and gracious spirit of devotion. On Sabbath, students join in public worship with the Church. They enter society and enjoy the social intercourse of Christians, take part in prayer-meetings and instructions of the Sunday school and Bible classes; and keep thus in living connection with the work of the Church and the benevolent enterprises of the day. Those who are able to preach to edification are encouraged to do so, but only to such extent as not to conflict with regular recitations or lectures. *No student will be retained in this department who is not heartily in earnest and devoted to the work of preparation for his ministry.*

Students will be subject to the same regulations as to written examinations and graduation in the school of Theology as in the other schools of the College.

COLLEGE COURSE.

(The following tabular statement of studies in the several schools is given to enable the student to arrange his studies from session to session with a view to graduation in Arts, Science, or Literature. What parts of the course are optional or elective in ordering his studies with reference to any one of these degrees, the student can see by referring to the article "DEGREES," and to remarks of Professors upon their respective schools.)

Preparatory Requirements.

Mathematics.—Arithmetic, Algebra to Equations of the Second Degree, Geometry to Book III.

English and History.—English Grammar, English Composition, Geography, United States History, correct Spelling and good Penmanship.

Latin.—Grammar, Exercises, Cæsar.

Greek.—Grammar, Exercises, Reading.

Natural Science.—Physical Geography.

FIRST YEAR.

Mathematics.—Algebra, Plane Geometry, Plane Trigonometry and Elements of Surveying.

English and History.—Rhetoric, Rhetorical and Elocutionary Exercises.

Latin.—Grammar, Virgil, Sallust, Cicero's Orations, Arnold's Prose Composition, History of Rome.

Greek.—Greek Composition, Xenophon.

SECOND YEAR.

Mathematics.—Solid Geometry, Spherical Trigonometry, Analytical Geometry.

English and History.—Hume's England, English Literature.

Latin.—Horace, Livy, Cicero, Arnold's Prose Composition.

Greek.—Demosthenes, Thucydides, Homer, Composition.

Natural Science.—Natural Philosophy.

THIRD YEAR.

Mathematics.—Differential and Integral Calculus.

English and History.—Gibbon's Decline and Fall, Guizot's History of Civilization.

Latin.—Livy, Tacitus, Juvenal, Classical Literature, Original Composition.

Greek.—Plato, Sophocles, Lectures, History and Civilization.

Natural Science.—Theoretical Chemistry.

Moral Philosophy.—Psychology, Logic.

Modern Languages.—French and German.

FOURTH YEAR.

Mathematics.—Rational Mechanics, Astronomy.

English.—Anglo-Saxon, Reading of the English Classics.

Modern Languages.—French and German.

Moral Philosophy.—Ethics, Political Economy, International Law.

Natural Science.—Geology and Practical Chemistry.

SCHEME OF RECITATIONS AND LECTURES.

| Tuesday and Thurs- day. | 8-9 | 9-10 | 10-11 | 11-12 | 1½-2½ | 2½-3¼ | 3½-4½ |
|---|---|---|--|---|---|---|--|

Latin Grammar U. S. History and Reading. | Junior Mathematics. Senior English. Natural Philosophy. Advanced Arithme- tic. | Senior French. Physical Geography (Tuesday). Sub-Junior Latin (Cæsar). | Geology. Eng. Orthog'y. |

PREPARATORY DEPARTMENT.

This Department is under the general direction of the Faculty, but subject more especially to the individual management and control of the Principal, who will give it his exclusive attention, and, except as otherwise provided, the students therein will, during the day, remain under his personal supervision. He will be aided by the other members of the Faculty, who will give such instruction as may be needed. Any student in the Preparatory Department shall have the privilege of entering any class in the Collegiate Department for which he is properly qualified, and any student in the Collegiate Department may recite or review in any of the classes of the Preparatory Department.

The commencement and close of this school are the same as those of the College. The recitation and study hours are from 8:45 A.M. to 12 M., and from 1:30 P.M. to 4 P.M. During these hours no student is permitted to be on the streets except in going to and from his home or boarding house, unless it be with the express consent of the Principal. At night, during study hours, all are required to be in their respective rooms.

Two examinations are held during the year—one at the close of the first term, and the other at the close of the second—the results of which are announced on the Final Day.

Course of Study.

First Division.—Reading, Spelling, Arithmetic, Geography and Map Drawing, History, English Grammar, Latin, Penmanship, Declamation and Composition.

Second Division.—Reading, Spelling, Arithmetic, Geography and Map Drawing, History and Elementary Instruction in the Natural Sciences, English Grammar, Latin, Greek, Algebra, Geometry, Book-Keeping, Elements of Rhetoric, Composition and Penmanship.

The most approved text-books will be used. The Preparatory Department is designed to give a thorough preparation for the College course, and is organized with a special view to that end. But to those who cannot pursue a full College course, it will give such a practical training as will fit them for the ordinary duties of business life.

ADMISSION AND WITHDRAWAL.

An applicant for admission will first pay the fees due the Treasurer and will then enroll his name with the President or Chairman of the Faculty, who will give direction for his admission to the selected schools.

Each student, before he withdraws, shall have a written dismissal from the President or Chairman of the Faculty. Dismissions, thus obtained, will state the standing of the student on his withdrawal, and will provide for his restoration to his classes should he ever return.

No student is allowed to be absent during the Collegiate session without special leave. Absence, *even for a few days*, occasions a greater injury to the student than is generally supposed by parents and guardians.

Tuition fees will in no case be returned by the Treasurer except for protracted sickness, and then only for so much time as the student was disabled thereby from attending his College duties.

EXAMINATIONS.

Each Professor examines his class orally at every recitation or lecture, and keeps a merit roll, the marks in which are modified, not only by the verbal accuracy of the answers, but by the clearness of the understanding shewn. Merit-marks are reported frequently to parents and guardians.

Two general examinations of each class are held during the session—the first, called the Intermediate Examination, occurring about the middle of the session, and the second, called the Final Examination, taking place in the closing weeks, each embracing the subjects treated in the half year immediately preceding. These examinations are conducted in writing. The questions propounded have numerical values attached, and if the values of the questions fully answered amount to three-fourths of the aggregate valuation, the student is ranked in the “first division;” if less than three-fourths, in the “second division.”

Certificates of Distinction are awarded to those attaining the rank of "first division" at either of the examinations, and their names are published at the closing exercises of the session. The general examinations are so comprehensive and searching as to render it impossible for the student to secure a place in the "first division" without great diligence. The results of these examinations are publicly announced on the Final Day.

The examinations for graduation are held in the last month of the session, and they are conducted in each school by the Professor in charge. The candidates for graduation are subjected to searching interrogations, not only on the general principles, but also on the details of the subject, and they are expected to be accurately versed in all the topics treated of in the lectures and correlative text. In no case will a degree of any kind be conferred where the average estimates are below the first rank. The standing of the student at the daily and general examinations is taken into account in ascertaining his qualification for graduation in any of the schools.

The written papers are submitted to the President, and by him reported to the Trustees, who, through a committee, examine them at their Commencement Session and file them in the College rolls.

As a familiarity with the principles of the English language is indispensable to the attainment of even the inferior honors of the Institution, a student must pass a satisfactory examination in the Junior Course of English and History before he can be admitted to a degree in any other school.

DEGREES.

The following degrees are conferred:

1. The degree of Graduate in a particular school, which requires a satisfactory examination in the subjects taught in that school.
2. The degree of Bachelor of Literature, conferred upon

one who is a graduate in the schools of English and History, Latin, Greek, French (or German), and Moral Philosophy.

3. The degree of Bachelor of Science, conferred upon one who has passed a satisfactory examination in the Junior Course of English and History, Latin Greek and Moral Philosophy, and has graduated in the schools of Mathematics, Natural Science and French.

4. The degree of Bachelor of Arts, conferred upon one who is a graduate in five schools of the College, and has fair standing in the Junior and Intermediate classes of two other schools.

5. The degree of Master of Arts, conferred upon one who is a graduate in all of the schools except Theology.

No student is allowed to graduate in any school in the College, or to receive any certificate of proficiency, until all his dues to the College are paid.

PUBLIC WORSHIP.

At fifteen minutes before 9 o'clock each morning the Faculty and students assemble in the Chapel. A portion of the Scriptures are read and prayer offered—one of the Professors conducting the exercises, each in turn—and all unite in singing a selection of sacred music, led by the College Choir. There is also a daily evening prayer-meeting held in the Hall of the Evangelical Society at 6 to 6:30 P. M.—which has been voluntarily conducted among the students for several years, and which has been attended by very gracious influences. All the students are expected to attend public worship on the Sabbath.

LITERARY SOCIETIES.

There are two Literary Societies, the Philomathic and Excelsior, which have spacious Halls, elegantly furnished, in the College building, where they meet each Friday evening for debate and other literary exercises.

The Evangelical Society meets every other week to engage,

for mutual improvement, in Homiletic exercises, and to investigate Religious topics.

The Society of Alumni holds an annual session in connection with the College Commencement, and provides for an oration from some one of its members.

The Literary Union, an association among the students for various purposes, provides for holding literary contests during the year, and awarding prizes in Orthography, in Reading, in Composition, in Declamation and in Oratory.

This Society also conducts the publication of the *William Jewell Student*—a monthly—devoted to Literature, Science, Morals, and general College News.

LIBRARY AND READING ROOM.

The Library of the College contains 4,000 volumes, including the principal encyclopædias and many rare and choice works. The number of volumes is increasing each year by gift and purchase. The Assistant Librarian keeps the Hall open at certain hours at which all students have access to it as a Reading Room, and to take out any books desired. A number of the best secular and religious newspapers and magazines are kept on file, and also the numerous exchanges of the *Wm. Jewell Student*.

AID TO MINISTERIAL STUDENTS.

The Board of Ministerial Education of the Baptist General Association of Missouri have a fund of about \$5,000, from the interest of which, with contributions from Auxiliary Societies, from churches and individuals, young men of the Baptist denomination who have devoted themselves to the Gospel Ministry receive such aid, when needed, as can be given. All such, bringing testimonials from their churches and being approved by the local Board of Ministerial Education, at Liberty, receive tuition free. Tuition is also free to the sons of our Ministers living by the ministry.

With larger means at their disposal the Board would be en-

abled to render assistance to many young men, in our churches, who feel themselves called to the work of preaching the Gospel, but who, for want of money, are compelled to forego the opportunities of education offered in William Jewell College. With the hope of adding largely to their endowment and other funds, and thereby of extending the usefulness of the Institution as a "school of the prophets," the Board of Ministerial Education has appointed the Rev. G. L. Black, of Liberty, as their Financial Agent, and he has entered upon an active canvass of the churches in behalf of the interests he represents. He and his work are most heartily commended to the consideration of all who believe in an Educated Ministry.

THE COLLEGIATE YEAR.

The session of College commences on the first Thursday in September, and continues without interruption till the second Thursday in June. It is divided into two terms—the first closing on Wednesday, the 21st day of January; the second on the Commencement Day.

EXPENSES.

| | |
|--|----------|
| Tuition in College Classes, per term, in advance..... | \$ 20 00 |
| Tuition in Preparatory Department, per term, in advance..... | 20 00 |
| Fee for Fuel, Janitor's Services, &c., per term, payable by all..... | 1 00 |
| Fee for Chemicals, by Class in Chemistry, per session, in advance. | 10 00 |
| Library Fee, per term, payable by all..... | 50 |

BOARDING FOR STUDENTS.

Each student—or his parent or guardian for him—makes his own arrangement for boarding. Good boarding in private families from \$3.00 to \$4.00 per week.

ELY HALL,

A large brick building, erected in 1881 at a cost of \$10,000, is intended to afford to Literary students of limited means the same facilities of boarding at reduced rates which the Minis-

terial students have hitherto enjoyed. It contains a large dining hall, kitchen, and 20 rooms for use as dormitories, each furnished with bedstead, stove, washstand, table and hangings for clothes.

The rooms are in charge of a Custodian appointed by the College government, and students occupying them will forfeit the privilege of the building for disorder, idleness, or any gross misconduct. Every occupant of a room in Ely Hall is under a pledge not to bring into the building, or to have under his control, any intoxicating liquor, playing cards or pistol.

The dining hall and kitchen are in charge of the Ministerial Students' Boarding Club, which has been in operation for 12 years; and board is provided at as near the actual cost of provisions as possible. The average rate, heretofore, has not exceeded \$1.75 per week.

The room-rent, payable in advance, is \$5 per term for each occupant of a room intended for three or four, and \$7.50 per term for each occupant of one of the smaller rooms. A contingent deposit of \$1 is required of each student, which will be returned to him at the close of the term if there are no charges against him for damages.

Literary students occupying rooms in the main College building are charged the same rates as in Ely Hall. Ministerial students can occupy these rooms without charge for rent.

THE WORK OF THE FINANCIAL AGENT.

In building up a college and providing for its future growth and usefulness, no part of its management demands more wise and careful supervision than its finances. For a number of years, this great interest of the College has received the continuous attention of the Financial Agent, L. B. Ely, of Carrollton. In the past two years he has succeeded in raising, by contributions from the Baptists of Missouri, the sum of Fifty Thousand Dollars as an addition to the Endowment of the College. He is now engaged in collecting and investing

this sum and in otherwise promoting and enlarging the Endowment. The foundations of this great interest are now faithfully and securely laid, but so far from resting in this we must press forward to yet greater achievements. Certainly this much can be said, that the greatest encouragements are now afforded to yet larger givers that their investments in Christian education in William Jewell College will be permanent. Who will erect a building for the Department of Natural Science? Or who endow yet other Chairs in the College?

LOCATION.

The College is situated at Liberty, Clay County, Missouri, a quiet town of about 2,000 inhabitants. It is on the Kansas City Division of the Hannibal and St. Joseph Railroad, within three miles of the Wabash, St. Louis and Pacific Railway and Missouri River at Liberty Landing, and within fifteen miles of Kansas City, which is the focus of thirteen railroads. It is, therefore, accessible with ease to all parts of Missouri and the adjacent States.

CORRESPONDENTS

Wishing information concerning admission, course of study, and all matters pertaining to the internal affairs of the College, address the Chairman or Secretary of the Faculty, Liberty, Mo. Respecting the general fiscal affairs of the College, and especially all matters pertaining to the effort to further endow the College, address L. B. Ely, Carrollton, Mo. Concerning matters pertaining to ministerial education, address W. R. Rothwell, Liberty, or any officer of the Missouri Baptist Ministerial Education Society.

CALENDAR FOR 1884-'85.

Opening of Session—THURSDAY, SEPT. 4TH, 1884.

Semi-Annual Meeting of the Board of Trustees—WEDNESDAY, JAN. 21ST, 1885.

Second Term begins THURSDAY, JAN. 22D, 1885.

Public Exercises of the Preparatory Department—SATURDAY, JUNE 6TH, 8 P. M.

Annual Sermon before the Evangelical Society, and the Society of Missionary Enquiry—SUNDAY, JUNE 7TH.

Annual Address before the Literary Societies—MONDAY, JUNE 8TH, 10:30 A. M.

Meeting of Board of Visitors of School of Theology, and Examination of Theological Classes — MONDAY, JUNE 8TH, 2:30 P. M.

Anniversary of Philomathic Society—MONDAY, JUNE 8TH, 2:30 P. M.

Annual Address before the Missouri Baptist Ministerial Education Society—TUESDAY, JUNE 9TH, 10:30 A. M.

Annual Meeting of Education Society—TUESDAY, JUNE 9TH, 2:30 P. M.

Anniversary of Excelsior Society—TUESDAY, JUNE 9TH, 8 P. M.

Final Day—WEDNESDAY, JUNE 10TH, 1885.
