WILLIAM JEWELL COLLEGE.

Founded 1849.

WILLIAM JEWELL COLLEGE is under the control of the Baptists of Missouri, acting through a board of trustees who conduct the finances, appoint the officers, and prescribe the general management of the institution. It originated with the earliest efforts of this denomination to organize measures for promoting the preaching of the Gospel in the State, by providing the best educational advantages for young men who were called of God and His churches to the work of the Christian ministry. Our fathers were also moved with a desire to provide for their sons, and for young men throughout the West, the advantages of the highest scientific and literary education under the best Christian influences, where the moral as well as the intellectual faculties might be trained for the highest usefulness in all the professions and business pursuits of life.

The trustees, fully entering into sympathy with the founders of the college, and realizing the necessity of such an institution in this great West, have adopted an organization which contemplates the most comprehensive curriculum and the best methods of instruction, thereby keeping pace with the advance of true science and the general progress of the age.

It will be seen by reference to the proper pages that all the chairs are filled by competent and experienced professors. In fact, it is the aim of the trustees to employ none but qualified instructors and to use only the most approved apparatus, thus providing thorough and accurate instruction in all departments of the institution; and it is with no small degree of satisfaction that we find our graduates not only in the front ranks of the ministry and other professions, but also in the highest places of honor and trust in all the various callings and pursuits of life.

There are three departments of instruction, viz: Academic, Collegiate, and Theological.

JEWELL HALL.

The Academic department is designed to afford a thorough preparation for the college classes, and at the same time to give to its students such practical training as shall fit them for the ordinary duties of business life.

The School of Theology is designed to meet the necessities of students for the Gospel ministry. Its courses of study are so arranged as to admit of being pursued in connection with those of the other departments.

In the Collegiate department the course of instruction extends through four years, and at the present embraces the following schools: Latin, Greek, Modern Languages, English Language and Literature, History and Political Science, Mathematics, Chemistry and Physics, Biology and Geology, Mental and Moral Philosophy.

Full details concerning the work of the various schools will be given in subsequent articles.

GOVERNMENT.

The President has an office in Wornall Hall to which the students have access at stated times. He is glad to render them any assistance that is in his power as their friend and brother.

Whenever the Faculty learn that a student is not improving his time, or is living disorderly, they refer his case to the President, and he first advises and admonishes the young man before any penalty is imposed, except in very grave offenses. It is neither the desire nor the purpose of the Faculty to disgrace any student; but every one must live a pure, orderly and busy life or withdraw from the college. Idling, card playing, dancing, and all other forms of dissipation are strongly condemned by the Faculty, and students that persist in these things will be disciplined and may be expelled.

The students are not allowed to leave town during the session without the consent of the President. Going to Kansas City without permission, *is especially forbidden*, and may be considered a sufficient ground for expulsion.

No student is allowed to withdraw from the College without the consent of the Faculty. If the student is under age the Faculty require a written statement from the parent or guardian requesting permission for him to withdraw. *Withdrawal without the consent of the Faculty is considered a dishonorable dismissal.*

No student is expected to be absent from any college exercise except when it is unavoidable. However, that *necessary* absences may be provided for, the following regulations have been made.

1. Any student who finds it necessary to be absent from any exercise, may, upon excuse *previously obtained* from the professor in charge of such exercise, thus absent himself to the extent of *one-tenth* of the whole number of exercises in that course for the semester.

2. No absence in excess of the number allowed will be excused for any cause whatever, except that of illness.

3. Absence in excess of the allowed number will come under the investigation of the Faculty and may become a subject for discipline.

4. As regards attendance upon chapel exercises, the same proportion of absences, subject to the same restrictions as in the case of those pertaining to the class-room, will be allowed.

Students who reside with their parents will be excused from general college exercises on presentation of written excuses from their parents, but for absences from classes they must render satisfactory excuses to their professors.

To make the above regulations thoroughly effective, the President has decided to issue permits of absence from town, only on presentation of Certificate of Excuse signed by the Secretary of the Faculty for excuse from Chapel, and by each professor to whom the student would recite during the time for which absence is granted. The blank certificates will be furnished by the Secretary on application, and must be returned to him when fully signed.

Students are not permitted to give entertainments during the college session, other than entertainments of purely literary character, without the consent of the President, or, in his absence, of the Faculty.

No student who is not a member of the Junior or Senior class is permitted to join a secret fraternity.

Demerit marks are imposed for unexcused absence from recitations; and for any infraction of those rules of order and of gentlemanly propriety which every young man who is old enough to be sent from home is expected to know. A single instance of intoxication, gross immorality, persistent neglect of duty, or any other indication that the student is "doing no good," will sever his connection with the institution.

There is an Athletic Association in the College, composed of professors and students, which has charge and control of all football, baseball and other games. No student under age is permitted to connect himself with a football team or engage in the game without the written permission of his parent or guardian previously presented to the President of the College.

The College is neither a reform school nor a prison, but an institution of Christian learning, and the opportunities it offers for a sound Christian education at moderate cost are to be looked upon as high privileges, in return for which those who attend upon its instructions are under a positive obligation to make the most of the advantages placed at their disposal by the munificence of its founders and benefactors. The members of the Faculty hold themselves at all times ready to assist and encourage those young men who are earnest in their search after knowledge; but if there be any in whom the spirit of earnestness does not exist, or in whom it cannot be inculcated, they are hereby warned that William Jewell College is not the place for them.

COLLEGIATE YEAR.

The session begins on Tuesday, September 6, 1898, and closes on Wednesday before the second Thursday of June, 1899. It is divided into two semesters of twenty weeks each.

Thanksgiving Day, the Christmas recess, extending from the evening of December 23 to the morning of January 3, and Washington's Birthday are the only regular interruptions of work during the entire session, and except at those times no student is allowed to be absent without special leave. Absence, even for a few days, occasions a greater injury to the student than is usually supposed. He falls behind in his work, and, in many instances, it is impossible for him to make good the loss. *The Faculty must not be held responsible for the advancement of any student whose parent or guardian permits him to be absent at other times than the regular vacations.*

EXPENSES.

Tuition per semester, payable in advance.....	\$20.00
Entrance fee per semester, payable in advance.....	5.00

Laboratory fee in Chemistry, per semester, payable in advance.....	5.00
Laboratory fee in Physics, per semester, payable in advance..	2.50
Laboratory fee in Biology, per semester, payable in advance.....	2 50
Graduation fee, payable before graduation.....	5 00
Elocution and Oratory per semester, if taken.....	5.00
Room rent, in Ely Hall or the Cottages, per semester, in advance...	6.00
Board in Vardeman Hall per month, at cost, in advance.	
(This year it averaged nearly \$7.00 per month.)	

Board in private families per week, \$3.00 to \$4.00 (everything furnished).

Students occupying rooms in Ely Hall or the Cottages furnish their own fuel and lights. Each one will need to bring with him one pair of sheets, one pair of blankets or one comfort, one pillow, one pair pillow slips, half-dozen towels and such other conveniences as he may desire.

It is estimated that the expense of a student rooming in Ely Hall or one of the Cottages, need not exceed \$150 per year, exclusive of books, clothing and traveling.

Room-rent will be charged in every case from the beginning of occupancy to the close of the semester. And a student withdrawing from his room before the end of a semester will forfeit the rent for the unexpired portion of the time, except as hereinafter provided.

No student will be permitted to attend more than one recitation with any professor until he has paid his bills and entered his name upon the books of the professor from the treasurer's receipt.

Ministerial students and sons of Baptist ministers receive tuition free.

Tuition fees and room-rent will in no case be refunded by the treasurer *except for protracted sickness*, and then only for so much time as the student was prevented thereby from attending to his college duties.

BOARD AND LODGING.

The College has no common boarding department, but each student makes his own arrangements for board and lodging. Students may take boarding at such places only as the Faculty shall approve, and the Faculty may, at any time, require a student to change his boarding-place. For further information apply to the Secretary of the Faculty.

WEST COTTAGE.

MIDDLE COTTAGE.

ELY HALL.

DORMITORIES AND DINING HALL.

EAST COTTAGE.

VARDEHAN HALL.

Ely Hall.—In order to afford to students of limited means suitable facilities for boarding themselves at reduced rates, the large brick building known as Ely Hall was erected in 1881. The building contains twenty-three lodging rooms (accommodating about fifty students).

The Cottages.—During the summer of 1890, to enable the Board of Trustees to extend the same facilities for living at moderate expense to a larger number of students than could be accommodated in Ely Hall, three handsome cottages were erected, affording accommodations to about forty students.

Each room in these buildings is furnished with a bedstead, stove, wash-stand, book-case and study table. All other needed articles of furniture are provided by the occupants of the rooms, and can be obtained at low rates in Liberty.

The young men occupying rooms in Ely Hall and the Cottages, have the privilege of taking their meals with the "William Jewell Boarding Club," which provides table board *at actual cost*. They are also permitted to secure table board at any other place approved by the Faculty.

Vardeman Dining Hall.—For the use of this club, the Board of Ministerial Education erected the spacious and comfortable building, named as above.

The discipline of all of these buildings is entrusted largely to the occupants, who, in club meeting, adopt their own rules (subject to the approval of the faculty), and appoint officers whose duty it is to enforce them. *Every occupant is under a pledge not to bring into the building, or have under his control, any intoxicating liquor, playing cards, or pistol.* It is to be understood that the privileges of these buildings are intended only for worthy young men of limited means, and for those who cannot afford to squander either time, money or opportunities; and students occupying rooms will forfeit them for continued disorder, negligence, idleness or any gross misconduct.

Students occupying rooms in either Ely Hall or the Cottages can retain the same for the ensuing session by making application previous to May the 15th. At the time of making application a deposit of one dollar must be made, and the remainder of the room rent must be paid not later than the opening day of the next session. Rooms not thus paid for will not be held, should there be other applicants for them. No applications for rooms already

occupied will be received prior to May the 15th, except from present occupants, but on and after that date all rooms and places not previously engaged will be open to new applicants, upon the above mentioned terms as to the payment of rent.

Students are encouraged to select rooms on entering College, fit them up tastefully and comfortably, and occupy them during the term of their college life. This will give to each one a "local habitation," which, in after life, he will pleasantly remember as his College Home.

COLLEGIATE DEPARTMENT.

There are four distinct courses or groups of study, each leading to the degree of Bachelor of Arts, and every candidate for this degree is required to confine himself to one of these groups. In each group certain studies, amounting to more than three-fourths of the whole, are absolutely *prescribed*, while the remaining studies are *elective*.

Students who are not candidates for degrees may select their studies from such classes as their degree of preparation may justify, provided the selections involve fifteen hours of recitation per week, and be made from classes whose hours do not conflict. No student will be admitted to membership in any class for which he is not, in the judgment of the instructor, qualified.

Every student shall, before entering any class in the Collegiate Department, be examined upon English Grammar, Composition and Spelling, Geography, United States History and Arithmetic. If found deficient in any of these branches he will be required to pursue them in the Academic Department until the deficiency is removed.

Applicants for admission to the Freshman class will be examined upon all of those subjects given under the heading, "Preliminary Requirements," in the article entitled "Requirements for Graduation." A student whose preliminary examination is not satisfactory may be allowed to enter a class conditionally, the deficiency to be made good by a subsequent examination.

Candidates for advanced standing in any of the courses for the degree will be examined upon all previous studies of the classes they wish to enter.

The following statements, prepared by the instructors, show the scope and extent of the instruction given, and, to some extent, the methods pursued in the several schools embraced in the Collegiate Department.

CLASSICAL LANGUAGES AND LITERATURE—

Professor Semple.

LATIN.

1. **Cicero**: Cataline Orations; Prose Composition. Particular attention is given in this course to the study of syntactical constructions and etymological forms.

Three hours per week, First Semester.

Monday, Wednesday and Friday, 9:15 A. M.

2. **Virgil**: Aeneid; Prose Composition; Supplementary readings. Discussion of ancient traditions, legends and customs suggested by these readings.

Three hours per week, Second Semester.

Monday, Wednesday and Friday, 9:15 A. M.

3. **Cicero**: Orations for Milo and the poet Archias; Prose Composition; the more difficult questions of Latin Syntax discussed and illustrated.

Three hours per week during thirteen weeks of the First Semester.

Monday, Wednesday and Friday, 10:05 A. M.

4. **Cicero**: De Senectute; Prose Composition; Systematic study of Syntax continued.

Three hours per week during ten weeks, First and Second Semesters.

Monday, Wednesday and Friday, 10:05 A. M.

5. **Horace**: Odes, Satires, Ars Poetica; Prose Composition; Literature of the Augustan Period.

Three hours per week during the remainder of the Second Semester.

Monday, Wednesday and Friday, 10:05 A. M.

Courses 1, 2, 3, 4 and 5 are required of all candidates for the Degree of Bachelor of Arts.

6. **Livy**: Early Roman History; Original Exercises.

Three hours per week, First Semester.

Monday, Wednesday and Friday, 11:45 A. M.

7. **Tacitus**: Annals; Discussion of the Literature of the Post-Augustan Period, and the Syntactical changes in Post-Classical Latin; Original Exercises.

Three hours per week, Second Semester.

Monday, Wednesday and Friday, 11:45 A. M.

Courses 6 and 7 are required of students who are candidates for the Bachelor's Degree in the Classical Group. Elective for all others having completed courses 1 to 5 inclusive.

GREEK.

8. **Xenophon**: Anabasis; Prose Composition; Grammar, with special reference to forms of words.

Three hours per week, First Semester.

Monday, Tuesday and Thursday, 10:55 A. M.

9. **Xenophon**: Anabasis, continued; Prose Composition and Grammar.

Three hours per week, Second Semester.

Monday, Tuesday and Thursday, 10:55 A. M.

10. **Homer**: Iliad; Discussion of the manners, customs, literature, myths and legends suggested by the reading of this author; Prose Composition; Grammar.

Three hours per week, First Semester.

Tuesday and Thursday, 9:15 A. M.; Wednesday, 10:55 A. M.

11. **Xenophon**: Memorabilia or the teachings of Socrates. Much attention will be given to the teachings of this, the grandest leader of thought among the Greeks, in the domain of Religion and Morals; Composition and Grammar.

Three hours per week, First Semester.

Tuesday, Thursday, 9:15 A. M.; Wednesday, 10:55 A. M.

12. **Demosthenes**: Philippics; Discussion of Attic Orators and Oratory; Composition and Grammar.

Three hours per week, Second Semester.

Tuesday, Thursday, 11:45 A. M.; Friday, 10:55 A. M.

13. **Demosthenes**: De Corona; Study of contemporaneous Greek History necessary to the proper understanding of this masterpiece; Composition and Grammar.

Three hours per week, Second Semester.

Tuesday and Thursday, 11:45 A. M.; Friday, 10:55 A. M.

Courses 5 and 6 may be studied alternately.

14. **Thucydides**: Greek History; Discussion of the moral, mental and political status of the Greeks at the time of the Peloponnesian War; Systematic study of Greek Syntax, with original exercises in composition.

Three hours per week, First Semester.

Tuesday and Thursday, 11:45 A. M.; Friday, 10:55 A. M.

15. **Plato**: Phaedo, Apology, Crito; Study of Greek Philosophy, especially of the Platonic doctrine of the Immortality of the Soul; Syntax and original composition.

Three hours per week, Second Semester.

Tuesday and Thursday, 11:45 A. M.; Friday, 10:55

A. M.

16. **Attic Comedy**—Aristophanes; or Tragedy—Aeschylus, Sophocles; or Euripides; Discussion of Greek Poetry; Syntax; Original exercises.

Three hours per week, Second Semester.

Tuesday and Thursday, 11:45 A. M.; Friday, 10:55

A. M.

Courses 15 and 16 may be taken alternately.

All Greek Courses, exclusive of alternates, are required of candidates for the Degree of Bachelor of Arts, in Classical Group,—elective in all other Groups.

MODERN LANGUAGES.—Professor Greene, Professor Clark,
Professor Stroeter.

In this school courses are offered in German and French. In each language the grammatical forms and syntactical relations are thoroughly studied by means of text books and explanatory lectures. Frequent exercises in translation from English into the respective languages are required throughout the year, and occasional practice in sight reading is also had.

GERMAN.—Professor Stroeter.

1. Joynes-Meissner's Grammar, Part I.; Grimm's Kinder-und Haus Maerchen; Volkman's Kleine Geschichten; Storm's Immensee; Simple exercises in sentence writing and conversation.

Five hours per week throughout the year.

Daily, 1:25 P. M.

2. Joynes-Meissner's Grammar, Part II.; Exercises in writing and conversation; Hauff's Das Kalte Herz; Schiller's Der Neffe als Onkel; Schiller's Lied der Glocke.

Three hours per week throughout the year.

Monday, Wednesday and Friday, 12:35 P. M.

GERMAN, ADVANCED COURSE.—Dr. Greene.

3. The more difficult features of Syntax; Hosmer's German Literature; Lessing's Nathan der Weise; Schiller's

Wilhelm Tell; Goethe's Faust, Part I, (edited by Thomas).
 Two hours per week throughout the year.
 Tuesday and Thursday, 10:05 A. M.

FRENCH—Professor Clark.

4. Otto's Grammar, Part I; Super's Preparatory French Reader.

Three times per week throughout the year.

Monday, 1:25 P. M.; Wednesday and Friday, 10:55 A. M.

5. Otto's Grammar, Part II; Souvestre's *Le Philosophe Sous Les Toits*; Moliere's *Bourgeois Gentilhomme*; Thiers' *Expedition de Bonaparte En Egypte*, or other classic and modern selections both in prose and poetry.

Three times per week throughout the year.

Tuesday, Thursday and Friday, 11:45 A. M.

Courses 1, 2, 4 and 5 are required of candidates for the Bachelor's Degree in the Modern Language Group. Elective in all other groups. Course 3 is an optional, but strongly recommended to all students taking the Courses in German.

ENGLISH LANGUAGE AND LITERATURE.—Professor Simmons.

1. **Theme-Writing.**—This course is devoted to studies in the leading kinds of composition—Description, Narration, Exposition, Argumentation, and Persuasion—and to practice in applying the methods actually employed in these several types. Much writing is required, and so far as possible, every theme handed in is discussed in class.

First Semester. Monday, Tuesday and Wednesday, 12:35 P. M.

NOTE.—This work is open only to students who have completed an introductory course in Rhetoric.

2. **American Literature.**—This course has in view a study of our own authors, both of Colonial and subsequent times. Its aim is to give a general survey of the entire field of American literature, an accurate knowledge of the best portion of it; and a just estimate of its value in the world of letters. The following authors are made the central figures: Irving, Bryant, Hawthorne, Longfellow, Lowell, Whittier and Holmes. Considerable outside read-

ing is required, together with reports on assigned topics.

Second Semester. Monday, Tuesday and Wednesday,
12:35 P. M.

3. **Anglo-Saxon.**—This course embraces the essentials of Anglo-Saxon grammar together with readings from A-S prose and poetry. The history of forms is carefully studied. Lectures are given on Old English life and literature.

First Semester. Monday, Tuesday and Wednesday,
1:25 P. M.

4. **Early and Middle English.**—Readings from Early and Middle English texts, with some attention to dialectal peculiarities. Considerable time is devoted to the study of Chaucer. Lectures will be given on the history of the English language, and on the sources of its vocabulary.

Second Semester. Monday, Tuesday and Wednesday,
1:25 P. M.

5. **English Literature. General Survey.**—This course covers the history of English Literature, with critical study of authors. It is designed as a general course for students who do not intend to pursue the subject further, and also as a preparation for more advanced study. The student is brought into actual contact with the best writings, and is given each week some special studies on which he is to report. The courses of reading vary from year to year. During the past session, special study was given to the following authors: Spenser, Shakespeare, Bacon, Milton, Pope, Addison, Burns, Byron, Keats, Shelley, Wordsworth and Tennyson.

Much outside reading is required, and only those students who make diligent investigations can pass through the course successfully. The standard works of reference are at hand for purposes of research.

Both Semesters. Monday, Wednesday and Friday,
9:15 A. M.

NOTE—Course 5 is open only to students who have completed courses 3 and 4.

6. **Advanced Rhetoric.**—This course is introductory to experiments in authorship and criticism. Study is devoted to the elements and qualities of style, and to the examination of literary types. Essays are required.

First Semester. Tuesday, Wednesday and Thursday,
10:05 A. M.

7. **Poetics.**—The lectures given in this course treat of the Subject-Matter, the Style, the Mechanical Features of poetry. Gummere's Hand-Book of Poetics, Stedman's Nature and Elements of Poetry, and Corson's Primer of English Verse will be found useful as works of reference.

Second Semester. Tuesday, Wednesday and Thursday, 10:05 A. M.

8. **English Prose Style.**—Studies in De Quincy, Macaulay, Carlyle and Ruskin.

First Semester. Monday and Friday, 10:05 A. M.

NOTE—Course 8 is designed chiefly for students intending to make English a specialty.

9. **Development of English Fiction.**—A comparative study of English fiction in all its epochs. A historical outline will be given, and lectures will be delivered on the spirit and tendencies of modern fiction.

Second Semester. Monday and Friday, 10:05 A. M.

REMARK—Courses 1 and 2 are prescribed for all Freshmen; 3 and 4 for all Sophomores; and 5 is prescribed for all Juniors. The remaining courses are among the optional studies.

HISTORY AND POLITICAL SCIENCE.—Professor Smith.

The courses offered in this department contribute to a liberal education and directly aid in preparing students for the active duties of citizenship. They are of special value to those who are looking forward to careers in public life, law, journalism, the ministry, or other professions directly concerned with human relations.

HISTORY.

1. **Ancient History—The Eastern Nations and Greece.** The dawn of history and the early migrations and settlements of the races of mankind are discussed. Special attention is given the origin and development of the social, political, commercial and religious life of the Egyptians, Babylonians, Assyrians, Phoenicians, Lydians, Jews, Persians and Greeks. Recitations, library references and lectures.

First Semester. Wednesday and Friday, 11:45 A. M.

2. **Ancient History—Rome.** Roman political and military institutions are explained. Rome's influence as a lawgiver is emphasized and Roman survivals are noted.

The causes of decadence are pointed out. Recitations, assigned readings and lectures.

Second Semester. Wednesday and Friday, 11:45 A. M.

3. **Mediæval History—Europe.** In addition to text-book instruction and supplementary readings, the following topics are treated in lectures: The fall of Rome and the rise of new nationalities; the Franks; the Church; the Feudal System; the Crusades; the Renaissance.

First Semester. Monday, Wednesday and Friday, 9:15 A. M.

4. **Modern History—Europe.** Among the subjects discussed in lectures are the Reformation, the Thirty Years' War, the French Revolution, Prussia and the German Empire, and the unification of Italy. Recitations and collateral reading.

Second Semester. Monday, Wednesday and Friday, 9:15 A. M.

5. **Church History—Ancient and Mediæval Eras.** Among the subjects especially emphasized are the early Church, the New Testament canon, the union of Church and State, the rise, growth, and decline of the Papacy, the conversion of the Germanic nations, Scholasticism, and Humanism. Recitations and lectures.

First Semester. Tuesday and Thursday, 11:45 A. M.

6. **Church History—Modern Era.** The Protestant Reformation and the counter Roman Catholic Reformation, the struggles for religious liberty, missionary efforts, and the influence of science, philosophy and culture on religious creeds are the principal subjects discussed. Recitations and lectures.

Second Semester. Tuesday and Thursday, 11:45 A. M.

7. **Political and Constitutional History of England.** Among the topics emphasized are the Crown, the Parliament, the Courts, the Church, the Land and the People. Lectures, recitations, and supplementary readings.

First Semester. Monday, Wednesday and Friday, 10:55 A. M.

8. **Constitutional and Political History of the United States.** Special attention is given the following subjects: The origin and character of the Constitution; the causes of sectional divergence; the War between the States; and the Reconstruction period. The origin and principles of the political parties are explained. Lectures, recitations, and supplementary readings.

Second Semester. Monday, Wednesday and Friday,
10:55 A. M.

POLITICAL SCIENCE.

9. **Political Economy.** General study of the subject using text-books. Lectures on some specific applications of its principles to practical affairs.

First Semester. Tuesday and Thursday, 9:15 A. M.

10. **Political Economy.** This is a continuation of course 9. During the last ten weeks, modern social theories will be explained and criticised.

Second Semester. Tuesday and Thursday, 9:15 A. M.

11. **Institutional History and Administration.** The origin, functions, and ends of government are discussed; and the governments of the principal states of Europe and America are explained. Recitations and lectures.

First Semester. Monday, 10:05 A. M.

12. **Institutional History and Administration.** Course 11 continued.

Second Semester. Monday, 10:05 A. M.

13. **Economic Problems.** [Open only to those who have completed courses 9 and 10.] The subjects discussed are Taxation and Public Finance, Money and Banking, and Natural Monopolies. Lectures and assigned readings.

First Semester. Tuesday and Thursday, 10:55 A. M.

14. **International Law.** In connection with this subject, the external relations of the United States receive special attention. Recitations and reports on assigned topics.

Second Semester. Tuesday and Thursday, 10:55 A. M.

15. **Pauperism and Charities.** The causes of poverty and the principles and methods of poor relief are explained. Lectures and assigned readings.

Second Semester. Tuesday and Thursday, (hour to be decided upon).

Courses 1, 2, 7, 8, 9 and 10 are *required* in Group A; Courses 3, 4, 7, 8, 9 and 10 in Group B; Courses 3, 4, 7, 8, 9 and 10 in Group C; Courses 3, 4, 7, 8, 9 and 10 in Group D. Courses not required in a group are elective in that group.

MATHEMATICS.—Professor Clark.

The equipment of this department embraces an excellent Transit Theodolite, Solar Compass, Sextant, Astro-

nomical Plates, and a Telescope of four inches aperture with equatorial mounting. The subjects taught are the following:

1. **Solid and Spherical Geometry.** First Semester. Monday, Wednesday and Friday, 10:05 A. M.

2. **Plane and Spherical Trigonometry.** Second Semester. Monday, Wednesday and Friday, 10:05 A. M.

Courses 1 and 2 are required of all candidates for the degree of Bachelor of Arts.

3 and 4. **Algebra.** Selected chapters from Wentworth's College Algebra, including the Binomial, Exponential, Logarithmic and other series, General Properties and Solution of Equations, etc.

Both Semesters. Tuesday and Thursday, 10:05 A. M. Required only of those candidates for the degree of Bachelor of Arts, who are working in group C. Elective for all others.

5. **Plane Analytic Geometry,** including the method of co-ordinates, the point, straight line, circle and other conics; discussion of the general equation of the second degree.

First Semester. Monday, Tuesday and Thursday, 10:55 A. M.

6. **Analytic Geometry of Three Dimensions,** including the point, straight line, surfaces of the first and second orders.

Second Semester. Monday, Tuesday and Thursday, 10:55 A. M.

Courses 5 and 6 are required of those candidates for the degree of Bachelor of Arts, who are working in groups C and D. Other students may choose between these courses and the Sophomore course of Physics, and those who elect course 5 have the further privilege of substituting course 10 for course 6, if they so desire.

7 and 8. **Differential and Integral Calculus.** Both Semesters. Tuesday, Wednesday and Thursday, 1:25 P. M. (subject to change). Required of all candidates for the degree of Bachelor of Arts, who are working in group C. Elective for all others.

9. **Theoretical Mechanics.** Mathematical discussion of the doctrines of force and motion, with applications to the solution of various statical and dynamical problems.

First Semester. Monday, Wednesday and Friday, 9:15 A. M. (subject to change). Required of all candidates

for the degree of Bachelor of Arts, who are working in group C. Elective for all others.

10. **Astronomy.** An elementary outline of the science of Astronomy, open to all who have completed courses 1, 2 and 5, and required of all candidates for the degree of Bachelor of Arts, who are working in group C.

Second Semester. Monday, Wednesday and Friday, 9:15 A. M. (subject to change).

12. **Surveying.** During the Second Semester a short course in surveying will be given to all who desire it, including the elements of Land and Road Surveying, Leveling, etc., with some practice in the use of instruments. This is a volunteer class, but a knowledge of Elementary Algebra, Plane Geometry and Plane Trigonometry will be necessary for admission to membership.

Courses 1 to 4 inclusive are assigned to the Freshman Year; 5 and 6 to the Sophomore Year; 7 and 8 to the Junior Year, and 9 and 10 to the Senior Year.

Candidates for the degree of Master of Arts, who wish to take advanced work in Mathematics, must have completed courses 1 to 10 inclusive previous to entering upon the advanced work.

CHEMISTRY AND PHYSICS.—Professor Parker.

The department of chemistry and physics occupies the entire basement floor of Wornall Hall. The general laboratory for students in Chemistry 1 and 2 is located in the northeast corner and is fitted with desks for thirty-six students working at the same time. Each desk is provided with gas, water and suitable drawers, etc., where apparatus may be kept under lock and key. During the summer of 1898 an analytical laboratory will be fitted up for the use of advanced students of chemistry, with accommodations for about twenty. The Eaton physical laboratory is located in the southwest corner and will accommodate about fifty students. Besides the laboratories mentioned there is a general lecture room, a chemical store room, chemical apparatus and preparation room, physical apparatus room, physical work-shop, the professor's laboratory and office.

The lecture room is supplied with a projection lantern and other necessary arrangements for lecture table demonstration. The physical work-room contains a screw-cut-

ting lathe, emery and polishing wheels and various other appliances for wood and metal working. A gas engine is used as a source of power both in the work-shop and general laboratory. Among the equipment of physical apparatus may be mentioned a thirty inch plate electric machine, a Toepler-Holtz influence machine, an induction coil giving a five inch spark, a large collection of Geissler and other vacuum tubes, galvanometers, tangent and astatic, several magneto-electric machines, a dynamo, Attwood machine, microscopes, several sets of projection apparatus, as well as numerous pieces of apparatus for demonstrating the laws of mechanics, sound, light, heat, magnetism and electricity, which are so necessary to the successful prosecution of scientific work. The store of apparatus will be added to constantly and will be kept abreast of the increasing needs of the department.

PHYSICS.—Professor Parker.

1. **Mechanics, Fluid Dynamics and Sound.** Recitations, experimental lectures and laboratory work.

First Semester. Monday and Tuesday, 11:45 A. M.; Thursday, 11:45 A. M. to 1:25 P. M.

2. **Light, Heat, Magnetism and Electricity.** Recitations, experimental lectures and laboratory work.

Second Semester. Monday and Tuesday, 11:45 A. M.; Thursday, 11:45 A. M. to 1:25 P. M.

1 and 2 constitute a complete course in elementary physics, and are required of all students for graduation. These two courses must be taken in the Freshman year in order to prepare for further work in the department of physics and chemistry. A knowledge of algebra and plane geometry will be required and a working acquaintance with plane trigonometry is very desirable.

3. **Physical Measurements.** First Semester. Tuesday and Thursday, 10:05 A. M., and a third hour to be selected. This course consists chiefly of advanced laboratory work combined with lectures and conferences.

4. **Electrical Measurements.** Second Semester. Tuesday and Thursday, 10:05 A. M., and the third hour to be selected. This course is properly a continuation of Physics 3, and the same methods of instruction will be followed.

Courses 3 and 4 are open to all students who have taken 1 and 2, and are designed for students seeking a more intimate knowledge of the facts and theories of modern physics. The work is quantitative in its character and is designed to fit students to become practical electricians or teachers of physics. Students cannot be recommended by the department as teachers of physics without a knowledge of the courses 1 to 4 inclusive.

CHEMISTRY.—Professor Parker.

1. **Elements of Chemistry.** The non-metallic elements.

First Semester. Monday, 12:35 p. m.; Wednesday and Friday, 11:45 a. m.

This course will consist of experimental lectures, recitations and laboratory work. Lectures on Friday may extend over two periods.

2. **Elements of Chemistry.** The metallic elements and carbon compounds.

Second Semester. Monday, 12:35 p. m.; Wednesday and Friday, 11:45 a. m.

In courses 1 and 2, all of the more frequently occurring elements are treated and their relations discussed. Especial attention is given to the theory underlying the great body of facts of this science. The lectures are copiously illustrated with experiments and lecture-table demonstrations. Chemistry includes beside the metallic elements a study of some of the more important facts of "organic" chemistry. 1 and 2 together form a complete year's work in descriptive chemistry, and should be taken during the Sophomore year. These courses are necessary as an introduction to the further study of chemistry and are desirable also for those students who do not expect to make this branch a specialty, but wish to obtain a general knowledge of chemistry as a part of a liberal education.

3. **Qualitative Analysis.** First Semester. Monday, Wednesday and Friday, 10:05 a. m. This course consists chiefly of laboratory work interspersed with lectures, and requires courses 1 and 2 to be taken previously. The work is of a broader character than its name would indicate, being in essence, a closer study of the basic elements, more especially the methods of separation of one from another, and has long been recognized as the best means

of increasing a student's practical acquaintance with the facts of chemistry.

4. **Advanced Analysis and Preparation Work.** Second Semester. Monday, Wednesday and Friday, 10:05 A. M. This course requires a previous knowledge of 1, 2 and 3 and is a continuation of the latter. Advanced problems in qualitative analysis will be taken up, such as the analysis of drinking waters, the detection of poisons, analysis of alloys, etc., also various methods of preparing and purifying chemical compounds and reagents.

Courses 1, 2, 3 and 4 should be taken by all students intending to enter the medical profession, also by those intending to teach chemistry. A knowledge of these courses will be the minimum requirement for a recommendation as a teacher by the department. Those who intend to specialize in chemistry should take Chemistry 3 and 4 during their Junior year.

5. **Quantitative Analysis.** First Semester. Monday, Wednesday and Friday, 9:15 A. M. This course is somewhat technical in its character and is not designed for students not specializing in science. For those who desire to make chemistry their specialty quantitative analysis is absolutely indispensable, being the key to all further progress. A knowledge of the exact methods of quantitative analysis is also desirable to prospective students of medicine, as well as teachers of chemistry.

6. **Quantitative Analysis.** Second Semester. Monday, Wednesday and Friday, 9:15 A. M. This course is a continuation of Chemistry 5, and will consist mainly of volumetric and gas analysis.

To do justice to a course in quantitative analysis requires aptitude, patience and time. By special arrangement, therefore, courses 5 and 6 may be made to count for more than three hours per week, as may be desirable.

7. **Chemical Theory and Physico-Chemical Measurements.** First Semester. This course is designed for those making a specialty of chemistry, and is properly post-graduate work, but may be taken previous to graduation by special arrangement. It will consist largely of reference work combined with laboratory investigation. This course presupposes a knowledge of Chemistry 1, 2, 3, 4, 5 and 6 and Physics 1, 2, 3 and 4. The modern theories of the atom and the structure of the molecule will be considered. Ostwald's Physico-Chemical Measurements will be used as

a laboratory hand-book while free use will be made of the works of Nernst and other authorities in this department.

8. Chemical Theory and Physico-Chemical Measurements. Second Semester. This course is a continuation of Chemistry 7 and with it will form a year's work. By special arrangement 7 and 8 may be made to count for more than three hours according to the amount of work to be done.

The successful prosecution of advanced work in both physics and chemistry requires both care and patience, and students taking this work should not overload their courses of study. Hasty, slipshod work is of very little value to the student and cannot be countenanced by the department.

GEOLOGY AND BIOLOGY.—Professor Richmond.

This department is designed to give instruction in the facts and laws of natural history. The work will be made as practical as possible by means of laboratory and field work, in which original investigation will be encouraged. Lectures in the several subjects will treat such phases of each as may not be sufficiently emphasized in the class-room work, and will give suitable discussion to the questions which subjects in natural history raise at the present time.

GEOLOGY.

1. Lithological, Dynamic and Structural Geology.

This course embraces the consideration of forces now at work and their efforts in shaping the earth, as furnishing a key for the reading of its past history. The field work will consist of a careful study of geological formations in this locality. Students will be required to illustrate the formations studied by drawing maps. Such study will also be made of the common minerals as will enable the student to readily identify them. Classification will be required throughout the course.

First Semester. Tuesday, Thursday and Friday, 1:25 P. M.

2. Historical Geology. A study is made of the succession of events in geological time as revealed by the rocks. Fossil organisms are especially considered, their manner of preservation, their value as a geological record,

their succession in time, and their relations in the development of life. The history and present state of opinion, and the factors of evolution are fully treated in the lectures of this course. Excursions will be made for study of the fossils of this and neighboring localities, and classification of the same will be required.

Second Semester. Tuesday, Thursday and Friday, 1:25 P. M.

Courses 1 and 2 are required of all candidates for degree in groups A, B and D.

BIOLOGY.

This course treats of the simple laws of life and the relations of animals and plants. The following order of treatment is observed.

3. General Zoology. A comparative study is made of the various forms of invertebrate and vertebrate life. Their structure and development receive special consideration, together with their relations to each other and their geographical distribution. Illustrated lectures will be given and laboratory work will be required.

First Semester. Tuesday and Thursday, 9:15 A. M.; Wednesday, 10:55 A. M.

4. Structural and Systematic Botany. The method pursued in this course is similar to that of course 3. A general study is made of the structure of plants, their mode of life, the relation existing between the various parts, and the evidences exhibited of adaptation to their environment. Laboratory work is required of the student, and the work of the class-room is rendered more interesting by means of illustrated lectures and experiments.

Second Semester. Tuesday and Thursday, 9:15 A. M.; Wednesday, 10:55 A. M.

SHERWOOD SCHOOL OF MORAL PHILOSOPHY.—

Professor Rothwell.

In the phenomena of consciousness the student begins the study of facts and laws just as real as those of the outward world and of transcendent importance. He now enters upon the study of himself—"What he ought to do, what he can know, and what he may hope." He comes to the clearer recognition of spirit, of person, of freedom

and responsibility, of obligation to righteousness and humanity, of his relation to his fellow men and of his life mission under God. He seeks to know his own faculties and possibilities, and how to attain a true development and high culture. He learns to reverence God, and man, and nature, and to regard the laws of mind, and especially the moral law as supreme. Without this department of training a liberal education would not only be incomplete but materialistic.

The student is required to make diligent study of a text on each subject, together with collateral reading. In the class room recitation, free discussion and lecture are practically combined with a view to the learner's best instruction and discipline.

Four years of teaching are given in the school of Moral Philosophy. One hour per week in the Freshman and Sophomore years, three hours per week in the Junior year, and two hours per week throughout the Senior year.

The subjects taught are:

1. **Bible Study.** Lectures and class drills in the history and institutions of the Bible, for the Freshman class. Both Semesters. Friday, 10:55 A. M.

2. **A Course of Lectures** for the Sophomore class on the principles and precepts of morality as found in the Law of Moses and in the Prophets, and how far these are extended or modified by Christ and His Apostles. One hour a week both semesters.

This will give a very valuable review of the Scriptures of the Old Testament and the New. The student will be required to do a specific amount of Bible reading and preserve his notes of lectures for inspection by the teacher. His grade will depend on the fullness of notes and regularity of attendance.

3. **Psychology and Psychic Culture.** Both Semesters. Monday, Tuesday and Thursday, 10:55 A. M., during first Semester, and on Monday only, during second Semester.

4. **Logic.** Second Semester. Tuesday and Thursday, 10:55 A. M.

5. **Ethics or Moral Philosophy proper.** Both Semesters. Tuesday and Thursday, 9:15 A. M.

N. B.—Courses 3 and 4 are prescribed for all Juniors, and course 5 for all Seniors. Courses 1 and 2 are optional

but counted as degree studies. No Freshman or Sophomore can well afford to omit them if he wishes high success in the School of Moral Philosophy.

JEREMIAH VARDEMAN SCHOOL OF THEOLOGY.

Professors Rothwell and Greene.

From the beginning of William Jewell College its projectors had in view not only the founding of a permanent college, the peer of the best colleges of our country, but also to make special provision for Ministerial Education. In 1858 was originated the Board of Ministerial Education, to co-operate with the Board of Trustees in making such provision more effective. In 1868 eight brethren contributed \$5,000 each toward the endowment of a School of Theology in the College. These brethren and their successors constitute the Board of Visitors. The honor of leadership in the former movement is due to Rev. W. M. Bell, and in the latter to Thos. Rambaut, D. D., LL. D., the President of the Board of Ministerial Education and of the College. The Board of Trustees received this endowment of \$40,000, with the solemn agreement to preserve it intact and to devote its annual earnings to the support of a School of Theology in the College, in which the doctrine of divine grace as exhibited in the Philadelphia Baptist Confession of Faith should be forever taught.

The School of Theology, then, is one of the permanent departments of the College. It forms no part of the course of study for the college degrees, but some of its subjects because of their adaptation to the development of mental power, are made *electives* in examination for degrees as exhibited in the scheme of studies.

The School of Theology is so connected with the other departments of the College that careful instruction and training in the elements of theological study can be imparted to the student for the Gospel Ministry while he is accomplishing his preparatory and collegiate courses.

This arrangement keeps the student's mind and heart engaged more or less in his life-work, and promotes growth in grace and in the knowledge of the Lord Jesus Christ, while he is prosecuting his literary training.

Strenuous effort is made to retain each ministerial student in the College until he obtains its graduating honors, and completes the outline of ministerial preparation prescribed in this department. If, however, a student can continue only two or three years in the College, as sometimes his necessities limit him, he receives that much of ministerial training and equipment, learns to use books, and gets started in such studies as he can afterward continue to any extent that his Christly manhood may suggest and his opportunities may permit. Already about five hundred young ministers have availed themselves of these facilities, most of whom are doing good work in the churches and mission fields.

REQUISITES TO ADMISSION.

Each young man who matriculates as a ministerial student must come endorsed by his own church, bearing a license or a written recommendation signed by the officers of his church stating that the church entertains such convictions of his call to preach and of his moral character and piety that they can commend him to the faculty as a student of the gospel ministry. Before admission to the College, the local Board of Ministerial Education gives him a faithful examination on his evidences of conversion, his present piety, and his convictions of duty to preach as called of God to his work. He must also consent to the intelligent and loving watch-care of this Board from year to year. If at any time he should show himself unworthy of their confidence, they reserve the right to withdraw their commendation.

LANGUAGE STUDY.

All ministerial students are advised to take the Department of English as thoroughly as practicable. Those studying for a degree should take the entire Greek course under Professor Semple. The course in Hebrew will be thorough as far as it goes, and will enable the student to carry forward the study of the Hebrew Bible for himself, or fit him for a more advanced course in the seminary. Such students as desire to be able to consult the German theological treatises, or fit for higher study in a German university, can take a three year's course in German in the College as a part of their elective work.

NATURAL SCIENCE.

The gospel minister, in this age, should, by no means, neglect the natural sciences. Professors Parker and Richmond take pains to make clear the relations of science and religion, believing firmly that the God of the Bible and the author of nature are the same and that there can never be any real conflict between the truths of science and revealed religion.

THE BIBLE.

Each student is requested to bring with him his hand Bible to class or lecture. He is liable, at any time, to be called upon to read a passage, or verify a quotation, or trace in the Bible the historical connection of the matter in discussion. An aim never lost sight of in the School of Theology is to make the student master of the Scriptures, and full of their contents—to help him to make himself “Mighty in the Scriptures.” He is urged to commit to memory all Scripture proof-texts cited in his text-books as he prepares each lesson.

OTHER HELPS.

The College Library is peculiarly rich in valuable and rare aids to the ministerial student. The meetings of the literary societies form habits of correctness in the use of tongue and pen. Besides morning worship in the chapel, the students hold a daily prayer-meeting of their own accord, usually characterized by a lively gracious spirit of devotion. On Sabbath, students join in public worship with the church. They enter society, and enjoy the social intercourse of Christians, take part in prayer-meeting and instructions of the Sunday School and Bible classes, and keep thus in living connection with the work of the church and the benevolent enterprises of the day. Those who are able to preach to edification are encouraged to do so, but only to such extent as not to conflict with regular recitations or lectures.

COURSES OF INSTRUCTION.

1. **The Study of the Bible.** The English Bible—the Bible alone—is the text-book. A printed order of lessons and drills taking the student many times through the entire Bible from Genesis to Revelation is put into the

hands of the student. Each student must attain fair proficiency in his English Bible before he can proceed further in the school of Theology.

First Semester. Monday, Wednesday and Friday, 9:15 A. M. Required of all third year academic ministerial students and open to all others. Non-ministerial students who want to become Sunday school teachers, will find their opportunity in this class.

2. **The Geography of the Bible.** A text-book with maps brought up to date is used. Beginning with Genesis the whole history in both Testaments is reviewed, locating every event and so studying the maps as to create in the mind of the student an abiding mental vision of all Bible lands in connection with his Bible reading.

Second Semester. Monday, Wednesday and Friday, 9:15 A. M. Required of all ministerial students in third year academy class and open to all others. Secular students who can, should take this continuance of Bible study.

3. **Biblical Introduction.** Facts common to all the thirty-nine books of the OLD TESTAMENT, a study of each book as to its author, date, occasion of writing, historical and doctrinal contents, larger divisions, chapter divisions, questions of criticism, place in the scheme of divine revelation, the geography and archeology of the book.

First Semester. Monday, Tuesday and Thursday, 11:45 A. M.

4. **Biblical Introduction.** This course will make a study of all the books of the NEW TESTAMENT as is specified for the Old Testament in course 3.

Second Semester. Monday, Tuesday and Thursday, 11:45 A. M.

5. **System of Theology.** First Semester. Wednesday and Friday, 10:05 A. M.

6. **New Testament Church Order.** Second Semester. Wednesday and Friday, 10:05 A. M.

7. **Homiletics.** A course of prescribed reading with lectures by President Greene.

8. **Church History.** See Department of History, courses 5 and 6—Professor Smith.

9. **Hebrew.** Classes will be formed when there is sufficient demand.

10. **Church and Pastoral Work.** Lectures by President Greene. Both Semesters. Weekly.

MINISTERIAL STUDENTS.

	Phariss, B. L.	

REQUIREMENTS FOR GRADUATION.

As has been stated, the College provides four distinct and parallel groups of study leading to the degree of Bachelor of Arts, and every candidate for that degree is required to select and confine himself to some one of these groups.

In each group there are, in addition to the required studies, a number of *electives* from which the student is required to select each year a sufficient number to bring his work up to a total of sixty-two recitations for the entire period of four years. A student that attains an average grade of 75 per cent. in all the studies of any year, and does not fall below 60 per cent. in any study, is promoted to the next higher class; and one that has thus passed through the four classes, and has complied with other regulations of the College, is graduated with the degree of Bachelor of Arts.

In determining the standing of a candidate for this degree, equal weight is given to his recitation grades and his examination marks for each semester.

COLLEGIATE GROUPS.

The following is an outline of the work required for graduation in each of the four groups of study.

PRELIMINARY REQUIREMENTS.

English, including Reading, Spelling, Grammar, Rhetoric, Composition, Introduction to American Literature.

Latin, including the subjects taught under this head in the Academic Department.

Greek, including Grammar and a few chapters of the Anabasis (not required of those who do not study Greek in College).

Mathematics, including Arithmetic, Algebra and Plane Geometry, as taught in the Academic Department.

Natural Science, including Physical and Descriptive Geography and Elementary Physiology.

History, including United States History and General History.

Students will be received into the college classes only on certificates of proficiency in the above requirements, given by the Principal of the Academic Department, or as *Conditional Students*, in which case the deficiency must be made up during the current year.

No conditioned student will be considered as a *candidate for a degree in the college classes*, until the existing deficiency is made up.

In the following groups the unenclosed figures indicate the courses required in the various schools. The figures enclosed in parentheses indicate the number of hours per week spent in recitation.

	A.	B.	C.	D.
FRESHMAN.	Latin. 1, 2. (3). Greek. 8, 9. (2). English. 1, 2. (3). History. 1, 2. (3). Mathematics. 1, 2. (3). Physics. 1, 2. (3).	English. 1, 2. (3). German. 1. (5). Latin. 1, 2. (3). MASTER OF ARTS.

To obtain this degree, the student must first pass through one of the four groups of study for the Bachelor's degree, with a minimum grade of 75 on each examination. He must then take, with the same conditions as to examination grades, an additional year of advanced work, to be previously approved by the Faculty. All studies designated as "optional" may be included in the additional year of work required for this degree. Lastly, he must prepare and submit to the Faculty a satisfactory thesis upon some one of the subjects of his course. The fee for this course is \$15, payable one-half in advance. An additional charge is made for courses requiring work in the laboratories.

ORATIONS AND ESSAYS.

Every candidate for a degree is required to prepare and submit to the Faculty an oration for delivery at the public exercises on the closing day of the session.

The members of the Junior class are required to present to the Faculty one essay of not less than 2,000 words. This essay will be due April 1.

Each member of the Senior class will present an essay of not less than 2,000 words on April 1, and his graduating oration at least two weeks before Commencement Day.

These essays and orations are to be considered the property of the College.

ACADEMIC DEPARTMENT.

R. P. RIDER, A. M., Principal.

The primary object of this department is to fit students to enter any of the Collegiate Courses. The required work preliminary to entering the collegiate courses embraces the following subjects of study.

English, including Reading, Spelling, Grammar, Etymology, Composition, Rhetoric, and American Literature.

Latin, including Grammar, Composition, Four Books of Cæsar or their equivalent.

***Greek**, including Grammar, Composition, a few chapters of the Anabasis.

Mathematics, including Arithmetic, Algebra, Plane Geometry.

Science, including Descriptive Geography, Physical Geography, and Physiology.

History, including History of the United States, History of the State of Missouri, and General History.

The secondary object is to fit those who may be precluded from taking a complete course to take a respectable position among intelligent business men.

To this class of students a certain degree of latitude in electing studies is allowed, always subject to this restriction, however, that no student may enter any class for which his previous preparation does not fit him.

For students desiring to prepare themselves to become competent business men, the following special courses are offered:

Bookkeeping: A five months' course. Classes will be formed at the beginning of each semester.

Stenography: Two courses of one year each. Classes formed at the beginning of the session only.

Typewriting: One course extending through the year. As the instruction in this art is necessarily individual in its character, students will be permitted to begin the work at any time.

WORNALL HALL.

Students desiring to enter the special business courses will be examined in Spelling, English Grammar, including simple Letter Writing, Commercial Arithmetic and Penmanship. If found deficient in any of these branches, they will be assigned a place in the sub-academic classes until they acquire the desired proficiency.

The desire has been to make the above curricula as comprehensive as possible, so that the student, if precluded from prosecuting his studies further, may leave school with a well-balanced, if limited, education; but, at the same time, to impress the idea continually upon his mind, that this work is but an introduction to the vast fields lying beyond, which he must traverse if he would class himself with educated men.

For the benefit of the students that show deficiency in Reading, Spelling, Descriptive Geography, the fundamental principles of English Grammar, Arithmetic and Penmanship, classes will be formed under competent tutors. These classes will be strictly sub-academic.

The academic work will embrace the following courses:

Mathematics—1. Algebra. Both Semesters. Daily, 11:45 A. M. 2. Plain Geometry. Both Semesters. Daily, 10:05 A. M.

History—1. United States. Both Semesters. Monday, Wednesday and Friday, 11:45 A. M. 2. General History. Both Semesters. Monday, Wednesday and Friday, 12:35 P. M.

Natural History—1. Physiology. Both Semesters. Monday, Wednesday and Friday, 9:15 A. M. 2. Physical Geography. Both Semesters. Tuesday and Thursday, 10:05 A. M.

English—1. Grammar and Composition. Both Semesters. Daily, 9:15 A. M. 2. Rhetoric and Themes. Both Semesters. Monday, Wednesday and Friday, 11:45 A. M. 3. American Literature and Themes. Both Semesters. Tuesday and Thursday, 11:45 A. M.

Latin—1. Grammar and Exercises. Both Semesters. Daily, 10:05 A. M. 2. Grammar, Readings, and Prose Composition. Both Semesters. Daily, 10:55 A. M.

Greek—1. Grammar and Exercises. Both Semesters. Daily, 11:45 A. M.

Sub-academic classes and classes for special courses will be arranged on the opening of the session.

MUSIC.—Professor Rider.

The following courses form a part of the required work of all ministerial students, and they are offered to all students in the College that will comply with the reasonable requirement that earnestness of purpose be manifest in the work done.

The courses are arranged with view to giving the student a practical working knowledge of music, so that he may be able (1) to read any ordinary composition at sight; (2) to express simple thought and emotion in music-language; (3) to construct harmonies for simple melodies.

Such attention will be given to character and construction of hymns and their consistent expression in song as will give the minister an intelligent directive ability in this part of public worship.

That the student may have a broader outlook upon the field of Ecclesiastical Music, some attention will be given to the distinctive characteristics of the music of the different ages of the Christian Church.

COURSES.

1. Reading simple music based upon the plain diatonic scale. The elementary principles of Rhythm, taught by practical theme-writing with simple motives as bases. Harmony in two parts. Hymn-reading and singing.

First Semester. Two hours per week.

2. Reading music, introducing accidentals. Principles of Scale. Transposition. Theme-writing with view to expressing thought and feeling. Harmony in four parts, employing the tonic, dominant, sub-dominant and dominant-seventh chords. Hymn-reading and singing.

Second Semester. Two hours per week.

3. Part-singing. The construction and relation of the major scales. Theme-writing. Harmony, involving inversions, modulatives and suspensions.

History of Ecclesiastical Music from the beginning of the Christian Era to the Reformation. Critical study of hymns. Hymn-reading and singing.

First Semester. One hour per week.

4. Part-singing. Elaborate theme-writing. The construction and relation of the minor scales. Harmony, involving the freer use of the chords of the seventh and their inversions; the study of dissonances and their resolution.

History of Ecclesiastical Music, including all kinds of Church Music, from the Reformation to the present. Critical study of hymns. Hymn-reading and singing.

Second Semester. One hour per week.

EXAMINATIONS AND REPORTS.

Each instructor examines his class orally at each recitation or lecture, and keeps a record book, the marks in which are determined not only by the verbal accuracy of the answers but also by the clearness of the understanding shown.

Every absence from class is marked *zero*, and to each *unexcused* absence a penalty of three demerits is affixed. Recitations lost through absence for which an excuse satisfactory to the instructor is tendered may be made up, and the zero grade removed.

Reports are mailed to parents and guardians at the end of each semester. Special reports will be sent during the semester, if deemed advisable.

Two stated written examinations of each class are held during the year—the first, or intermediate examination, taking place about the middle of the session, and the second, or final examination, taking place in the closing weeks—each embracing the subjects discussed during the semester immediately preceding. The questions propounded have numerical values attached, and if the values of the answers given amount to three-fourths of the aggregate valuation, the student is ranked in the "first division" of the class known as "Proficients." If at the examination of any class the answers of a student fall below fifty per cent. of the aggregate valuation, he is "conditioned" and required to attend the recitations of that class another year. If his answers fall below seventy-five per cent., but not below fifty per cent., he may be allowed the privilege of raising his grade at the next corresponding examination, without further attendance upon the exercises of the class.

At the exercises of Commencement Day, those students that have attained a grade of 95 or more at their examinations will be announced as "Honor Men."

In the Academic Department any student making an average class record of 90 per cent. for the semester, and having no demerits against him during the period under

consideration, will be passed on his class standing alone. If his grade for the semester fall below this per cent. or he be subject to demerit for any cause whatever, he will be required to stand examination on the same conditions as above with this modification, that in determining his standing as a scholar, his daily record shall be combined with his examination grade in the proportion of 2 to 1.

Further, in this department, a student having made 90 per cent. in daily recitations will also be ranked among the "Proficients," and one having made 95 per cent. among the "Honor Men," without reference to examination.

CERTIFICATES.

After *final* examination in any school, a student may, on application to the professor in charge, receive a certificate of his attainments in that school, signed by the professor and by the secretary of the faculty.

BROWN HALL. (Gymnasium.)

BROWN HALL. (Interior.)

PHYSICAL TRAINING DEPARTMENT.

Y. P. ROTHWELL, A. M., Physical Director.
W. O. HAMILTON, A. B., Assistant.

This department has been put on equality with the other departments of the College. Attendance upon its exercises, amounting to at least three recitations per week, is obligatory upon all students not excused by vote of the Faculty.

It is the purpose of this department to promote the student's health and usefulness by directing his physical activities and acquainting him with the means of bodily development and preservation of health.

This is provided for by the handsome gift of Mr. A. D. Brown of St. Louis—a large brick gymnasium with a basement for baths, a main hall (100 ft. by 40 ft.) for exercising, and a running gallery of twenty-one laps to the mile. It is lighted and ventilated by 240 windows. In addition to the Gymnasium, there is an Athletic Field of thirty acres for recreative exercises—games, field-sports, etc.

The department offers six lines of exercise, viz: 1, Military Tactics and Free Movements; 2, Light Gymnastics or Club Swinging, Dumb-Bells, Iron Wands, etc.; 3, Intermediate Gymnastics or Vaulting and Combination Bar; 4, Heavy Gymnastics or Horizontal Bar, Parallels, and Horse; 5, Athletics; 6, Individual or private exercises made out in accordance with the physical examination of the student.

Without underrating individual work, we emphasize strongly the regular class work, believing that there are benefits and advantages that can be had by this means only. Students are drilled in classes in military tactics and free movements for the first month preparatory to entrance upon gymnasium work proper.

The theoretical work of this department embraces text-book recitations in Physiology and Hygiene, and two lectures per week on the care of the body and the theory and practice of physical training.

Every student is entitled, free of charge, to a physical examination, a chart showing strong and weak points, and a card of exercises made out in accordance therewith.

No charges are made for the regular work of this department, nor for use of any apparatus; and special encouragement is given those that wish to learn the work with a view to becoming teachers.

SCHEME OF EXERCISES.

	MON.	TUES.	WED.	THUR.	FRI.	SAT.

4:40	Ind.	Ind.	Ind.	Ind.	Ind.	

 The Gymnasium is open throughout the day for private work.

ELOCUTION AND ORATORY.

It is the purpose of this department to develop the speaking powers by systematic vocal and physical culture, together with a development of all the intellectual faculties, arousing and quickening the imagination, stirring and deepening the feelings, and bringing to the surface all the nobler emotions of mind and heart.

The pupil is taught not to surrender his individuality but to develop his speaking faculty through natural channels.

The course of instruction is divided into two semesters of about sixty lessons each. The following is a brief outline of the work:

Course 1. Physiology and Hygiene of the Voice, Voice Culture, Articulation, Vocal Elements, Quality, Force, Form, Elementary Gesture, Analysis, Class Reading with Criticism.

Course 2. Voice Culture, Quantity, Pauses and Movement, Pitch, Melody, Analysis and Interpretation Lectures on Sources of Power in Delivery, etc. Advanced

Gesture, Study of Shakespeare with criticism upon conception and rendition of lines, Declamations and Readings with individual criticism.

The cost of instruction in this department is \$5.00 per semester.

UNIVERSITY EXTENSION.

The object of University Extension is to carry special instruction to those who are so situated that they cannot attend courses in colleges and universities. In England, where the movement originated, it is esteemed one of the most important agencies for promoting popular education. It has found a congenial soil and is accomplishing great good in our own country.

University Extension offers busy men and women of every station and profession opportunities for intellectual improvement, and gives the higher institutions of learning wider fields for usefulness. It is for these reasons that the professors of William Jewell College offer their services to neighboring communities, with the hope that the friends of education and the College will interest themselves in organizing Extension classes. For terms and full particulars, address the professor from whom a course of lectures is desired.

Courses are offered as follows:

BY PROFESSOR SIMMONS.

Representative English Poets.....Six Lectures.
Poets of America.....Six Lectures.

BY PROFESSOR SMITH.

Social and Economic Problems.....Twelve Lectures.
Principles of TaxationSix Lectures.
Money and BankingSix Lectures.
Natural MonopoliesSix Lectures.
Events and Epochs in Ancient HistoryTwelve Lectures.
Ancient Empires of the East.....Six Lectures.
Epochs in the History of Greece and Rome.....Six Lectures.
Epochs in Mediaeval History.....Twelve Lectures.
Epochs in English History.....Six Lectures.
Epochs in American History.....Six Lectures.

THE LIBRARY.

CHARLES LEE SMITH, Curator.

MISS NANNIE WIKOFF, Librarian.

The College Library numbers about 11,000 thoroughly classified and catalogued volumes. Additions are made regularly from lists submitted by the Faculty. In its contents, management and usefulness, the Library will compare favorably with that of any similar institution in the West.

In the Reading Room, adjacent to the Library, are found encyclopædias and other valuable books of reference; the leading daily papers of the West; a large number of religious papers; the most prominent literary magazines and scientific publications of the United States; and many of the English magazines and reviews. The desire is to have all departments of modern research represented.

The Reading Room and the Library are kept open from 8:30 A. M. to 4:30 P. M., daily, except Saturday and Sunday; on Saturday from 8:30 A. M. to 12:30 P. M.

SOCIETIES.

The four Literary Societies — Philomathic, Junior Philomathic, Excelsior and Junior Excelsior—have large and elegantly furnished halls in Jewell Hall where they meet every Friday evening for debate and general literary exercises.

The students of the Academic Department have organized the Junior Philomathic and Junior Excelsior Societies. The academic students are no longer eligible to membership in the Collegiate Societies.

Every student is urged to join one of these societies, and to participate actively in all the duties pertaining thereto. The training resulting from such participation is invaluable, and nothing else can take its place.

The Philomathic and Excelsior Societies jointly offer gold medals for the following: Oratory, Debate, Essay, Reading, and Declamation. Only their members are allowed to enter the contests for these honors. The Junior Societies also jointly offer gold medals on the same subjects.

EXCELSIOR LITERARY SOCIETY HALL.

PHILOMATHIC LITERARY SOCIETY HALL.

MEDAL WINNERS, 1897-'98.

Oratory—J. E. Matthews, Philomathian; Debate—W. O. Lewis, Excelsior; Essay—H. C. Marsh, Excelsior; Reading—W. O. Anderson, Philomathian; Declamation—J. B. Pew, Excelsior.

Oratory—P. E. Harman, Junior Philomathian; Debate—G. L. Hale, Junior Philomathian; Essay—H. B. Robins, Junior Philomathian; Reading—P. E. Harman, Junior Philomathian; Declamation—W. R. Mereness, Junior Excelsior.

Best article in *The Student*—W. B. Sydnor, Philomathian.

The William Jewell Student is published by the Excelsior and Philomathic Societies. Professor James G. Clark offers a gold medal for the best prose article contributed by a student during the session.

The Society of Alumni holds an annual session during commencement week, and provides for an oration from some one of its members.

THE BIBLE IN THE COLLEGE.

Professor Rothwell gives the following courses in the study of the Bible: 1. A two years' course of Bible Lectures and class drills, in the School of Moral Philosophy for the regular Freshman and Sophomore classes. 2. A three years' course in the study of the English Bible in the School of Theology, which is required of all ministerial students and open to all others. The first two years are given in the Academic Department, and the third year in the Freshman class of the College.

The study of the Bible is optional, except in case of students for the Gospel Ministry; but the courses in the School of Moral Philosophy, and the third year in the School of Theology, taken in the Freshman year, are optional degree studies, counting as much for graduation as any other studies.

President Greene gives daily practical exposition of the Bible in his Chapel exercises, and also a weekly lecture open to all students.

LECTURE COURSE.

A lecture course of unusual interest to the students was given during the past session by distinguished citizens of Kansas City. A similar course has been arranged for the session of 1898-'99.

The weekly lectures of the President before the ministerial students are of such practical character that they attract many of the lay students.

AID TO MINISTERIAL STUDENTS.

With large means at its disposal, the Board would be enabled to render assistance to many young men in our churches who feel themselves called to the work of preaching the Gospel, but who, for want of money, are compelled to forego the opportunities of education offered in William Jewell College. The President of the College is also the President of the Board of Ministerial Education, and his efforts are, while raising funds for general use in the College work, to enlarge the fund from which worthy students, both literary and theological, may receive the aid so much needed.

The Ministerial Education Society has decided that its policy for the future with regard to students requiring aid from the Society shall be that they be expected to perform some simple duties in connection with the College in return for the benefits given.

RELIGIOUS WORK AND INFLUENCE.

The daily morning prayer-meeting, conducted by the students, and the Gospel meeting on Sunday afternoon, under the guidance of Professor Richmond, are very effective means in checking the tendency of the worker in literary pursuits to lose spirituality. The spirit of religious *home work* among the students is strong and healthy. As a consequence, many are converted during each college year. We feel like emphasizing this phase of college life. Our College, like all Christian institutions, exists chiefly for this purpose: that while the minds of the young men are

being stored with the science of the world, they should not fail to take in the everlasting principles of that Supreme Science that purifies the heart and saves the soul, while it enlightens the mind. This is the crown and glory of the so-called Denominational College.

FINANCIAL NEEDS OF THE COLLEGE.

In building up a college and providing for its future growth and usefulness, no part of its management deserves more wise and careful supervision than its finances. For a number of years this great interest of the College received the continuous attention of the financial agent, Hon. L. B. Ely, of Carrollton. In the past few years he succeeded in adding, by contributions from the Baptists of Missouri and other sources, more than \$140,000 to its endowment. At the time of his death he was engaged in collecting, enlarging, and securing this fund (about \$300,000), and in otherwise promoting the financial interests of the College. The foundations of this great interest are now faithfully and securely laid, so that those who are investing their money in the cause of Christian education in William Jewell College may be assured that their contributions will be safely invested, sacredly guarded and wisely used for the advancement of the cause of truth and righteousness.

On the last day of Brother Ely's life he made a memorandum of the pressing needs of the College—a heating plant, campus improvements, etc.—and planned to raise the necessary funds that summer. To realize Brother Ely's desire, the trustees have determined to raise an Ely Memorial Fund of \$15,000. Rev. E. S. Graham is now engaged in securing this fund, and it is hoped to have the work done during the summer and fall of 1898. A handsomely engraved Ely Memorial Certificate is given to every contributor to the fund.

The constantly increasing work of the College demands enlarged facilities for imparting instruction. Other professors and instructors are needed; a fireproof library hall is needed; additional rooms are needed for the increasing number of students. We must keep up with this progressive age. We must have additional endowment funds to enable us to meet these demands upon our institution.

Let us not cease our efforts nor withhold our contributions until these demands are met, and our College shall be made equal in all departments to the best institutions in the land.

BEQUESTS.

It is encouraging to know that many of our thoughtful and pious brethren and sisters are making liberal provisions in their wills for the endowment of the College.

The history of Baptist colleges since the founding of Brown University in 1764, the first Baptist college in the world, has demonstrated the fact that no safer nor better use can be made of money for future good than by investing it in the endowment fund of a well established Christian college, and no institution in the land gives better promise of long life and great usefulness than our own William Jewell College.

Every dollar of its endowment fund is securely invested; the interest or earnings only can be used for current expenses.

Every bequest is entered separately on the College ledger, and will stand perpetually in the name and to the memory of the testator.

MEMORIAL ENDOWMENT.

We have confidence in the growing popularity and final success of the Memorial Endowment scheme suggested by the late Hon. L. B. Ely. This is certainly a beautiful blending of a happy thought with a worthy deed, which we hope many of the friends of the College will enjoy. Let your dead work for God here while they live with Him "over there." If we could see the importance of the work as doubtless they see it, we should all want a part in it. We trust this year may be one of large growth in this interesting department of College Endowment which will be looked after by Mrs. Anna Bell Ely Thomas, of St. Joseph, Mo., daughter of Brother Ely. All correspondence on this subject should be addressed to her.

SCHOLARSHIPS.

The Board of Trustees will issue scholarship certificates to any one who may hereafter contribute the sum of \$500 at any one time to the endowment of the College.

Memorial Scholarships may also be obtained by the contribution of \$500 in the name of a deceased friend, and will be kept forever on the books of the College in the name and to the memory of the deceased.

Scholarships, either general or memorial, will entitle the donor to free tuition for one student during life, or for such time as may be agreed upon.

Several have been taken during the past year, and they must surely grow in favor with our young people and become a popular feature in the endowment of the College.

LOCATION.

The College is situated at Liberty, Clay county, Missouri, a growing town of about 3,500 inhabitants. It is on the Kansas City divisions of the Hannibal & St. Joseph, and Chicago, Milwaukee & St. Paul railroads, within three miles of the Wabash railway and Missouri River at Liberty Landing, and fourteen miles from Kansas City, which is the focus of twenty-three railroads. It is, therefore, accessible with ease from all parts of Missouri and the adjacent States.

CALENDAR.

1898.

TUESDAY, SEPTEMBER 6—Fall Semester begins.

THURSDAY, NOVEMBER 24—Thanksgiving Day.

FRIDAY, DECEMBER 23—Christmas Recess begins.

1899.

TUESDAY MORNING, JANUARY 3—Christmas Recess ends.

WEDNESDAY, JANUARY 18—Fall Semester ends.

THURSDAY, JANUARY 19—Spring Semester begins.

WEDNESDAY, FEBRUARY 22—Washington's Birthday.

COMMENCEMENT WEEK.

- | | | |
|--------------------|---|--|
| SUNDAY,
JUNE 4. | } | 11:00 A. M.—Baccalaureate Sermon. |
| | | 3:00 P. M.—Annual Students' Prayer Meeting. |
