HISTORICAL SKETCH

It was soon after the organization of the Missouri Baptist General Association in the year 1835 that the initial steps were taken for the establishment of an institution of higher learning for young men, and in particular for candidates for the Christian ministry. No definite action was taken until 1843, when Dr. William Jewell of Columbia, Missouri, made to the General Association the conditional offer of ten thousand dollars in lands as a nucleus for the building and endowment of a college. The offer was not accepted until 1848. A charter was granted by the legislature and approved by the Governor, February 27, 1849.

In accordance with the terms of this charter the subscribers to the building and endowment funds met in Boonville for the purpose of selecting a location and fixing upon a name for the institution. After an animated contest the town of Liberty—the county seat of Clay County—was selected, and it was unanimously decided that the name of the institution should be William Jewell College.

The College was opened to students (in the old Liberty Academy) on January 1, 1850, with Rev. J. S. Dulin as Principal and Professor of Ancient Languages, and Rev. T. F. Lockett as Professor of Mathematics. Dr. Dulin served as Principal until the close of the session of 1851-52. Then on account of financial embarrassment the school survived the year 1852-53 as a private enterprise.

In the meantime the foundation had been laid for the building now known as Jewell Hall, and by the summer of 1853 the structure had advanced towards completion so far as to admit of occupancy and use. It was not finally completed until 1858. The building was begun under the immediate superintendence of Dr. Jewell, who died in August, 1852, from the effects of exposure to the intense heat of that summer.

In 1853, the trustees resuming full control, called to the presidency Rev. R. S. Thomas, D. D., from a professorship in the State University at Columbia. This administration continued until the summer of 1855, when new financial trouble caused the suspension of the College for the next two years.

The College reopened in the fall of 1857 under the presidency of Rev. William Thompson, LL. D. Dr. Thompson was a graduate of the University of Edinburgh, and was a scholar of distinction and one of the most brilliant orators of his day. His administration lasted until June, 1861, when it was deemed prudent to suspend operations until by the return of peace, the conditions of the country should be more favorable for the prosecution of academic pursuits. There was, however, a school carried on in the college building during the years of the war whenever it was practicable.

Not until 1867 was it thought safe to reopen the institution. In June of this year, Rev. Thomas Rambaut of Louisville, Kentucky, was called to

the presidency. He was a graduate of Trinity College, Dublin, and was a man of wide experience in the management of educational enterprises. The first year of his incumbency was devoted to the reorganization and the increasing of endowment.

The reopening was on September 28, 1868, with Dr. Rambaut, President; R. B. Semple, Professor of Latin and French; A. F. Fleet, Professor of Greek and German; John F. Lanneau, Professor of Mathematics; James R. Eaton, Professor of Natural Sciences. Dr. Rambaut's administration ended in the spring of 1874 on account of ill health.

The office of President remained vacant until the summer of 1892. In the meantime the affairs of the College were administered by the Faculty, acting through a chairman. Professor William R. Rothwell was Chairman from 1873 to June, 1883, and Professor James G. Clark from that date until June, 1892.

The financial affairs of this period were in the hands of Lewis B. Ely of Carrollton, who had been a most ardent friend of the College. But previous to his election as financial agent in 1887, the Rev. W. Pope Yeaman, D. D., was appointed Chancellor of the College and for two years succeeded in enlarging the endowment.

In June, 1892, the productive endowment had been largely increased, several buildings erected, one of which was named in honor of the financial agent, Ely Hall, and several members added to the Faculty. Mr. Ely was also president of the Board of Trustees until his death in June, 1897.

In June 1892, Dr. John Priest Greene, pastor of the Third Baptist Church of St. Louis, was elected President of the College. Under his administration the number of students was greatly increased, a library with a capacity of 100,000 volumes was erected, also a modern dormitory and a most excellent science building. Many new departments of instruction were added. The crowning glory of Dr. Greene's presidency of twenty-seven years was that he held the College to the prime purpose of its establishment, namely, the thorough literary and scientific training of young men for Christian service.

On January 1, 1920, Dr. Greene resigned his office as President and was succeeded by Dr. David Jones Evans, who for many years had been Dean of Biblical Literature and Religious Education. Dr. Evans served until September 1, 1921, when he resigned to become Pastor of the First Baptist Church of Kansas City, Missouri. Dr. Greene was again requested to act as President until a suitable person could be found for the place.

On March 29, 1923, the Trustees of the College elected as President, Dr. Harry Clifford Wayman of Louisville, Kentucky. Dr. Wayman was a professor in the Southern Baptist Theological Seminary. He is a scholar of recognized ability and a man of forceful Christian character.

CHOOSING A COLLEGE

The choice of a college is an important matter to every person seeking an education, but it is especially so to students having definite professional aims in view.

Professional schools, especially those of engineering and medicine, impose rigorous preliminary requirements upon their students. The first two years of college work nearly always determine the ability and fitness of a student for the line of study he has in mind. If this work is done in a poor school or poorly done in a good school, the student will suffer a serious handicap in pursuing his advanced studies. The significance of this latter statement will be evident to any medical student who has attempted to enter any of the standard medical colleges. For example, the Harvard Medical School seldom accepts more than fifty per cent of the applicants from Harvard University itself and thirty per cent of those from other colleges and universities. The same might be said of the medical departments of some of our neighboring universities. It is therefore evident that graduation from a large university itself does not insure admission to the medical department of that institution.

What then should a student do to make sure that he will not be denied first class training after doing his pre-medical work? The answer is this—he must not only do his pre-medical work in well equipped laboratories and under competent instructors but he must acquire high standing in his classes. The dull or lazy student will find it difficult to gain admission to a good medical college even if he is a graduate of a standard university.

STANDING OF WILLIAM JEWELL

William Jewell College is a member of the North Central Association of Colleges and Secondary Schools, and is also approved by the Association of American Universities.

CAMPUS AND BUILDINGS

Grounds

The College campus consists of one hundred acres of wooded upland situated just within the northern and eastern corporation limits of the city of Liberty. The buildings are located on the "old Hill," surrounded with historic associations.

The athletic field of twenty acres is at the foot of the College Hill. It contains a quarter-mile and a 220-yard straight away cinder track, a football field and a baseball diamond. Eight tennis courts are provided in the vicinity of the gymnasium.

Buildings and Equipment

Jewell Hall

Jewell Hall is the oldest of the college buildings on the Hill. It was built in the early fifties, Dr. Jewell, the founder of the College, himself superintending the work. It is a brick structure containing the recitation and lecture rooms of languages, literature and history. The literary societies also have rooms in this building. The Conservatory of Music is on the third floor.

Marston Science Hall

The science hall is located at the southern extremity of "The Hill" and contains the class rooms and laboratories of biology, chemistry and physics as well as some allied subjects. Most of the first and second floors are occupied by the department of chemistry. The third floor is given over to physics and the fourth floor contains the museum and the department of biology. This building is of modern, fireproof construction, and is valued at \$225,000. It is especially designed for science work and is a model of its kind.

Marston Science Hall was named in honor of Doctor S. W. Marston who had great interest in the development of the physical and biological sciences. Mr. E. W. Marston, son of Doctor Marston, contributed very liberally to the erection and equipment of the building.

Gano Assembly Hall

The friends of the College, realizing the great inconvenience suffered for years because of a lack of an adequate room for daily assemblies, have recently given in cash and pledges sufficient money to build a new assembly hall. The principal donor to this much needed building on the Hill was a friend in Kansas City. The building is named The "Gano Assembly Hall" in honor of Reverend John Gano, the great grandfather of this donor. This distinguished minister of the Gospel established the First Baptist church in New York City, served as chaplain in Washington's army and enjoyed the most intimate friendship of that great American. The building is now completed, being located at the extreme north end of the quadrangle and facing south. It seats about 1100 persons. The administrative offices are also in this building.

Gymnasium

The old gymnasium, which recently burned, had become inadequate for the needs of the College.

It is the intention of the Trustees of the College to begin, at once, the construction of a gymnasium having every modern equipment. This building will stand just east of Gano Hall.

New Ely Hall

New Ely Hall, the men's dormitory, is a large, three-story brick and stone building on the college hill. It is a beautiful, thoroughly fire-proof structure offering modern accommodations to over a hundred men. The appointments provide all the modern conveniences of showers, abundant lavatory equipment, electric lights, etc. The large and comfortable lobby with its piano and fireplaces provides a recreational center.

Old Ely

Old Ely Hall, situated in the midst of the central buildings of the campus, is an historical and beautifully ivy covered three-story brick structure. The first floor is given over to the college barber shop, the offices of the Student and the Tatler, central offices of the debate squad, and the women's retiring room. The other two floors provide additional living accommodations for men of the college.

Melrose Hall

This is a beautiful modern home for girls accommodating about sixty persons. Melrose Hall stands on a wooded hilltop overlooking the beautiful country north and east of Liberty. It contains, besides dormitory facilities, several class and conference rooms, a gymnasium, chapel and some other features for the comfort of its occupants. Two girls occupy a room. The cost for each person is from \$25 to \$30 per term of twelve weeks, according to the size and position of the room. Room and board can be had in these dormitories at reasonable prices; in fact the same prices will obtain here as do in the boys' dormitory. All non-resident girls will be expected to live in the college dormitory.

Everything is furnished for rooms except towels, sheets, pillow slips, bed covering, window curtains, table napkins and napkin rings. Room and board cost from \$85 to \$90 per term of 12 weeks each, payable in advance. There are three terms in the school year of 12 weeks each.

The total necessary year's expense (including tuition and fees) for a woman rooming and boarding in this dormitory should not exceed \$450.00.

To reserve a room the student should send \$5.00 to Mrs. L. S. Cook, book-keeper. This will be credited on the room rent.

For convenience in bringing furnishings, the following dimensions are given: dresser, 40x20 inches; highboy, 36x20 inches; desk, 48x30 inches; single beds, sheets, 50x90 inches; pillows, 27x18 inches.

The Library

The Library occupies a handsome modern building, the gift of Mr. Andrew Carnegie, and other friends of the College. It has 36,040 accessioned volumes classified according to the Dewey system and fully catalogued. In the large reading room may be found encyclopedias, dictionaries, and such modern works as are needed for reference. The reading room receives regularly about 140 periodicals selected so as to help students in the various courses of their college work. At least 60 of the best magazines are bound, and are accessible to the students. The library is especially rich in the stock of bound magazines covering the last third of a century.

The library and reading room are open from 7:50 a. m. until 6:00 p. m., except Saturday afternoons.

The Spurgeon library of 7,000 volumes occupies a large section. The records of the Missouri Baptist Historical Society are in Marston Hall. Professor H. I. Hester is custodian of these records.

Power Plant

All of the buildings on the Campus are heated by steam from a central power plant which is valued at \$40,000.00. This adds to the comfort of those living in the dormitories as it eliminates all coal dust and smoke from their rooms.

The Co-operative Book Store

The Co-operative Book Store is situated in the south end of the basement of Gano Hall. Books and other school supplies may be purchased here at reasonable prices.

The store is conducted under the supervision of the Faculty of the College. Its earnings are used to improve the campus.

The William Jewell Press

The William Jewell Press, established in 1914, has become interwoven into the warp and woof of the life of the college and the welfare of a considerable portion of the student body is affected by it. It is the busiest spot on the campus except during an intercollegiate game. At present thirty-one young men and young women are earning all or part of their college expenses in this printing shop.

This establishment has grown with the college. It now occupies most of the ground floor of the new Gano Memorial Chapel building, requiring about four thousand square feet of floor space for its type cabinets, presses, imposing tables, working quarters and office space.

In addition to its function as a means of subsistence for students while in college, it has a positive educational and preparatory capacity

as well, though it is not listed in the curriculum of the college. It teaches the student a trade. "Many students who have learned the fundamentals of the printing trade at the William Jewell Press are now instructors of printing in high schools and technical schools throughout the country. School boards seek the young men who have received their training here for their vocational shops."

The Press started in 1914 with a small bindery as an adjunct of the library, employing one student. The next year a small press was installed for the printing of the forms used by the college and another student was hired. In 1916 another press was donated by Mr. T. O. Sims, of St. Joseph, who also furnished about \$150 worth of type. That same year, a fund of \$3,500 was provided by M. C. Treat, Pasadena; W. D. Johnson, Kansas City; C. Q. Chandler, Wichita; E. S. Pillsbury, St. Louis, and G. M. Smith, Kansas City. Pictures of these men hang on the walls of the Press office.

The Press has been under the management of Mr. Harvey J. Ray since 1921. Experienced printers wishing to attend William Jewell should apply to the manager if they wish employment.

COST OF ATTENDING WILLIAM JEWELL COLLEGE

Fees and Expenses

The necessary expenses for a student boarding and rooming in the college dormitories are from \$400.00 to \$450.00 per year.

Tuition, per term, payable in advance.....\$40.00

Tuition, per term, for ministerial students and sons and daughters
of ministers, payable in advance..... 20.00

Gymnasium fee per term..... 2.00

Caution fee, payable in advance..... 5.00

The caution fee will be refunded to the student on his withdrawal from college, less whatever charges may be against him for damage to college property.

Student activity fee, per term..... 4.00

This fee will be apportioned as follows: In the fall term, \$2.00 for athletics, \$1.00 for the Student, \$1.00 for music. In the winter term, \$2.00 for athletics, \$1.00 for the Student and \$1.00 for the library. In the spring term, \$2.00 for forensics, \$1.00 for athletics and \$1.00 for the Library.

The Student activity fee is payable in cash and is non-returnable. It cannot be included in any scholarship or in any other form of gifts or credit that does not provide the actual cash.

Laboratory Fees, Payable in Advance

Laboratory fee in chemistry.....	\$5.00
Laboratory fee in physics.....	2.50
Fee in graphics.....	2.50
Laboratory fee in biology 21, 22, 23, 24, 26, 30, 31, 33, 33a.....	2.50
Laboratory fee in biology 25, 27, 28, 29	5.00
Education 11 and 13.....	1.00
Geology.	1.00
Astronomy (fall and winter terms only).....	1.00
The diploma fee for graduates is \$5.00.	

Reduced Tuition

William Jewell College gives reduced tuition to ministerial students and sons and daughters of ministers. To secure reduced tuition each student for the ministry must present either ordination papers or a license to preach or the formal approval of his church.

Late Enrollment

On page 2 of this catalog will be found the periods of time set aside for classification and payment of fees for each term of the school year 1928-1929.

For failure to matriculate and be classified within the period set therefor, an extra fee of \$3.00 will be charged and in addition to this, an extra fee of \$3.00 will be required for late payment of regular fees. These extra fees will be reduced to \$2.00 each for new students.

OPPORTUNITIES FOR SELF-HELP

About one hundred students earn at least a part of their expenses while in college.

There is a demand in Liberty for help in keeping furnaces, waiting tables, carrying papers, house cleaning and various other kinds of odd jobs. A good many students work in stores, garages, printing offices and restaurants. The College also offers employment to a number of students about the campus and in buildings.

Students wishing employments on the campus should correspond with Professor J. E. Davis, Liberty, Mo. The College has no control of work out in town. To secure such it is necessary for a student to make application in person to those needing help. Mr. Harvey Ray, manager of the William Jewell Press, employs a limited number of students, preferably those with experience in the printing business.

Loan Funds and Scholarships

A loan fund of \$3,000.00 is available for the benefit of students

worthy of financial aid. All funds provided by churches or individuals and designated for certain students will be administered according to the wishes of the donors.

Competitive Scholarships

The A. R. Levering Scholarship is awarded to the sophomore making the most satisfactory record in his freshman year at William Jewell College.

The L. B. Ely Scholarship is awarded to the junior making the most satisfactory record as a sophomore.

The John Sillers Scholarship is awarded to the senior making the most satisfactory record in his junior year.

These scholarships provide full tuition for one year and are awarded to applicants by the faculty. They do not include special fees.

The Marston Scholarship yields \$200.00 annually and is for a William Jewell College graduate in Brown University. It is open to competition under rules prescribed by the faculty. The scholarship was founded by Mr. E. L. Marston, son of Rev. S. W. Marston, D. D.

Non-Competitive Scholarships

The following scholarships are governed by the College and will be granted to applicants whom the College thinks most worthy of receiving them.

Students pursuing any mode of living not conducive to economy or engaging in extravagant habits will not be given the scholarships.

The R. E. Turner and the Elizabeth Johnson Scholarships are available for either literary or ministerial students.

The following scholarships are awarded to ministerial students only:

Three scholarships, known as the James G. Clark Memorial Scholarship, the W. B. Ballew Scholarship, the W. F. Elliott Scholarship, the Mrs. Mary Elliott Scholarship, the H. W. Gilliam Scholarship, the Mildred Ely Montgomery Scholarship, the Thos. F. Melvin and Wife Scholarship, the William M. Senter Scholarship, the Joint Scholarship of William Anderson Crouch, a Baptist preacher, and Martha Alice Crouch, his wife.

Besides these scholarships, there is a scholarship fund maintained by the friends of the College from which needy and worthy students may receive aid.

Students receiving these scholarships are required to work for the College at least one hour per day and are expected to room and board in the College dormitories.

PRIZES

The William M. Fitch Prize—William M. Fitch, '93, offers a \$20.00

gold medal annually to the student who writes the best essay on some specified sociological subject.

The Frank B. Hearne Medal In Chemistry—By the will of Mrs. Roberta Lee C. Hearne of Independence, Missouri, "the Trustees of William Jewell College are directed to purchase annually a medal to cost approximately \$50.00, such medal to be known as the Frank B. Hearne Medal to be awarded annually as a scholarship medal for excellency in the study of chemistry. At the discretion of the Trustees, and with the approval of the recipient, the sum of \$50.00 in gold coin may be awarded. The bequest is in affectionate remembrance of her husband, Frank B. Hearne, whose college education was obtained at William Jewell." This prize will in general be awarded to a member of the graduating class, but in exceptional circumstances may be given to a lower class man.

ROOM AND BOARD

There are two dormitories for men and one for women. These dormitories were built for the accommodation of students and not for the purpose of making money. Board and room are given at actual cost. It is the desire of the College to make the dormitories good places in which to live and study.

The dormitories are modern in equipment. The rooms are comfortable, and neatly furnished with everything necessary except bed covers, sheets, pillow cases, towels and window curtains, which are furnished by the occupants. Students are required to keep their own rooms clean and in good order.

Men's Dormitories

The cost of rooms in New Ely ranges from \$18.00 to \$25.00 per term of 12 weeks. The College reserves the right to place at least two students in a room. The chart of prices indicates the number of students who may occupy a room.

Freshman boys are required to room and board in the College dormitories. Exceptions to this rule will be made in case students live in the community or work in town for their board or room.

Women's Dormitory—Melrose Hall

Melrose Hall is a beautiful modern home for girls accommodating about 60 persons. Two girls occupy a room. The cost to each person is from \$25.00 to \$30.00 per term of 12 weeks, according to the size and position of the room.

All non-resident girls are expected to live in Melrose Hall or places prescribed by the College. Under no circumstances are girls to make their own plans about places to live. All girls must make application for rooms not later than May 15. The number of girls will be limited.

Discipline in Dormitories

Discipline in the men's dormitories is in charge of the superintendent of the dormitories, the matron of the dining hall, and the discipline committee. Discipline in Melrose Hall is in charge of the directress of women and the discipline committee.

If it should become necessary to dismiss a student from a dormitory on account of misconduct, his future relation to the College will be determined by the faculty.

No refund will be made to a student on either board or room if it becomes necessary to dismiss him from a dormitory on account of bad conduct, since the money paid by such a student does not meet the expense incurred by such behavior.

Plats of the dormitories will be found on pages 54, 55. In order to reserve a room the student must send the College cashier, Mrs. L. S. Cook, \$5.00 which will be applied on the room rent. This sum will be forfeited if the room is not occupied.

Board

The dining hall for men is in New Ely dormitory, and for women, in Melrose Hall. The former has a seating capacity of 250 persons and the latter 75. Both are equipped with every modern device for preparing food in the best approved manner. The College has its own dairy herd of fifteen pure-bred cows that are tested annually. The cost of board for the term of approximately 12 weeks is \$60.00.

Board and room rent are payable for one term of 12 weeks in advance.

The total necessary expenses for a student rooming and boarding in the college dormitories range from \$400.00 to \$450.00 per year.

Fees, room rent and board will not be refunded, except for protracted illness, certified to by an attendant physician, and then only for so much time as the student was prevented thereby from attending to his college duties. In making refund \$5.00 will be charged as matriculation fee. The Student Activity fee is never refunded.

REQUIREMENTS FOR ADMISSION AND GRADUATION

How to Enter William Jewell College

Graduates in the regular college entrance course of an approved high school or academy are admitted to William Jewell College without conditions. Such students should request an officer of the high school to send an official transcript of their entrance credits to the Dean of William Jewell College, Liberty, Missouri. The College prefers to have these credits on its own blanks which the student will find in this college

bulletin on the inside of the back cover.

Since freshmen, with some exceptions, are required to room and board in the college dormitories, they should select a room early in the summer and reserve it by sending Mrs. L. S. Cook \$5.00 as part payment on the rent. The positions and prices of rooms may be found on page 57.

In case a student is not a graduate of an approved high school, he should have an official transcript of his credits sent to the Dean and receive from him a statement as to the number of units that will be granted.

After presenting his entrance credits and reserving a room, the student has no other arrangements to make until coming to Liberty, then the Dean will give him a course of study, after which he will pay his fees and begin work.

Students coming from other colleges must bring honorable dismissals. Those wishing to enter later than two weeks after the beginning of a term should correspond with the Dean before coming to Liberty.

No one is permitted to enter a course of study later than two weeks after class work has begun, unless he can show that he has already done the missing work in a satisfactory manner in an accredited school.

Scholastic Requirements for Entrance

Applicants who have graduated from the regular college entrance course of an approved high school or academy are admitted to William Jewell College without condition. They should request the proper high school officer to send an official transcript of their credits to the Dean of William Jewell College, Liberty, Missouri. A blank on which the student may have his credits sent may be found on a detachable sheet inside the back cover of this bulletin.

In case a student is not a graduate of an approved high school, 15 units are required. These must include:

- 2 units of one foreign language.
- 3 units of English.
- 2 units of mathematics (1 algebra, 1 plane geometry).
- 1 unit of laboratory science.
- 1 unit of history.
- 6 units elective.

He may have an official transcript of his credits sent to the Dean and may receive from him a statement as to the number of units that will be accepted.

A student may also enter William Jewell with twelve units done in an approved senior high school as recommended by the North Central Association of Colleges and Secondary Schools.

A unit of work is the standard unit of the high schools, approved by the Superintendent of Public Schools of Missouri.

Conditioned Freshmen

A student offering 15 units, but deficient in not more than one unit, caused by a lack of specific requirements, may enter college as a conditioned freshman. This condition must be removed, however, by the beginning of his sophomore year. It is sometimes necessary for a student to make up the deficiency in the college department. In that case 12 hours will count as one unit. Examinations will be arranged for those desiring them, not later than two weeks after the student enters college.

A student coming from another college must provide an honorable dismissal from the college last attended, and also a transcript of grades. These credentials should not be presented by the student himself but should be sent directly from the college issuing them.

By permission of the Dean a student may take not more than two subjects and be listed as a special student. For students so listed a special rate of tuition will be charged in addition to registration, caution and student activity fees.

The College reserves the right to refuse admittance to a student whose high school record or moral life seems to make him unfit for college work.

Degree Conferred

William Jewell College grants only one degree, namely, the Bachelor of Arts. This degree will be conferred upon students who have satisfied the entrance requirements and have completed 186 term hours of college work in the manner prescribed under Specific Requirements for Graduation.

SPECIFIC REQUIREMENTS FOR GRADUATION

PLAN OF MAJORS AND MINORS

1. All college courses are classified in a general way under three groups which, for convenience of reference, will be designated by I, II, III, as follows:

I. Latin, Greek, French, German and Spanish.

II. Mathematics, chemistry, physics and biology.

III. History and political science, the social sciences, philosophy, education, Bible and advanced English.

IV. All other subjects taught.

2. On entering college a student is required to take in his freshman year the following subjects:

Freshman English, one foreign language and one subject from either mathematics, physics, chemistry or biology.

3. Three term hours of hygiene and sanitation are required for graduation and also six hours of Bible, namely, Bible 1a, 2a, 3a.

4. After completing the freshman work a student must choose one of the twelve majors and its three prescribed minors as shown in the table of majors and minors (See page 54). A major is nine terms of work in one subject (unless otherwise stated) taken in regular sequence, and of not less than four hours per week. A minor is six terms of work with such exceptions as appear in the table.

All other work necessary to make the 186 hours for graduation is elective.

The maximum amount of credit a student may receive in one department is sixty hours.

5. Any senior having fulfilled all other requirements for graduation with his class except the lack of not more than twelve (12) term hours may, by permission of the Faculty, do this work in absentia, and thereupon be graduated as of his class, provided he complete this deficiency before February 1st of the following year. Such a student may participate only in the graduating exercises of the class following the completion of his work, but will be graduated as of his own class.

6. A student having completed in William Jewell College the required work for graduation may, with the approval of the Faculty, finish the work for the A. B. degree by one year of satisfactory work done in an A-grade technical school. (This privilege will not be granted to a student of low scholastic ability or one having more than a normal year's work to complete for graduation.)

7. Students offering three or more years of college work from other institutions must complete their entire senior year's work in William Jewell College in order to acquire the A. B. degree in this institution.

GENERAL REGULATION

Classification

To be classified as Freshman a student must present 15 units as described on page 17.

To be classified Sophomore all conditions for entrance must have been removed and at least 36 term hours of college work completed.

To be classified Junior, at least 84 term hours, and as Senior at least 132 term hours must be presented, and in addition to this there must also be at least 84 and 132 honor points respectively to entitle students to these classifications.

In each of these cases the student's work must be of such a kind as to lead to graduation in the normal time.

Grading, Examination, Honor Points

1. Grades are expressed by the letters A, B, C, D and F. The first four letters indicate grades ranging in order from 100 per cent down to

60 per cent. F means failure.

2. The grade A entitles a student to three honor points per credit hour. B carries with it two such honor points per hour and C one honor point per hour. No honor points are given for the grade D. In arriving at student averages the grade F is assigned one negative honor point per credit hour, but this is not done when determining a student's classification.

The number of honor points won by a student determines his scholastic rating.

3. In classes of more than 14 students the number of those receiving a grade of A is limited to 25 per cent of the class. A teacher may disregard this rule, however, provided he limit the number of A grades in his whole department to 25 per cent of the number of students.

4. No student is admitted to examination in a subject in which the number of his class absences has reached 25 per cent of the total number of recitations.

5. In order to be admitted to a final examination a student must have acquired a class grade of at least D (60 per cent). No second examinations are permitted because of failures, except that a senior may be granted one re-examination as a senior privilege.

6. College students are limited to 18 hours of work per week. Less than 12 hours of work per week cannot be carried without the permission of the Dean.

7. Students are not permitted to drop or exchange a study later than one week after recitations begin, without consent of the Dean.

8. The College reserves the privilege of omitting courses, the demand for which is not sufficient to justify their being given.

Incomplete Work

If at the close of any term a student's grade is reported as "incomplete," he must make up the deficiency prior to the examination period of the next following term or a grade of F will be recorded and the student barred from further participation in any course to which the deficiency is a prerequisite.

Correspondence

The College will not accept for graduation work done by correspondence from any institution except those of high standing having regularly organized correspondence departments, and then in no greater amount than one-fourth of the number of term hours required for graduation. Not more than fifteen term hours of correspondence work will be accepted in any one department of instruction.

Student Conduct

It is assumed that every student matriculating in William Jewell College agrees to conduct himself in a manner conducive to the highest sort of mental and moral development. The faculty reserves the right to send any student home whose habits are considered inconsistent with the ideals of the institution.

Hazing in any form is contrary to the wishes of both the trustees and faculty of the College. The domination by force of one class by another is now regarded by the best colleges and universities as contrary to the spirit of modern education.

Class Attendance

Students are required to attend classes regularly. A grade of zero will be given for each class absence. This zero grade may be removed by the student's making up the work with the permission of the teacher. Absences occurring the day previous to or the day following a holiday will receive not only zero but one-tenth hour negative credit for each recitation missed unless these absences are excused by the Dean, in which case the zero grades alone will be counted.

Chapel.

All students are required to attend chapel exercises, which are held on Tuesday, Wednesday and Thursday at 10:35. This convocation is not only for the purpose of holding religious exercises, but also to hear public announcements and to cultivate college spirit and good fellowship.

For each 12 unexcused absences from chapel, one negative hour will be given. Excuses from chapel are issued by the chapel committee.

PREPARATION FOR PROFESSIONAL SCHOOLS

The best schools of law and medicine require a minimum amount of specific college work for entrance, in addition to graduation from a four-year high school. They also place particular emphasis upon the quality of this work and also the personality and adaptability of the candidate for admission.

Two years of college work is still the minimum quantitative requirement for entrance to some well approved professional schools, but there is a strong tendency to raise this amount to three years. The medical department of the University of Missouri has announced this change to take effect in 1928-1929.

Even after graduation from college, which is required in some institutions, it is not always possible for a student to gain admission to the professional school of his choice. The Harvard Medical School chooses only 125 men out of about 600 qualified applicants. The Yale School of

Law bases its selection of candidates upon quality of college record, an aptitude test and letters of recommendation, in addition to the quantity of preparation.

Students interested in a medical education should secure a pamphlet issued by the Council of Medical Education and Hospital, 535 North Dearborn street, Chicago, Ill. This booklet contains a good deal of information about medical schools besides a list of minimum requirements.

For students wishing to do only two years of college work before entering a professional school the following outlines are recommended:

BIBLE DEPARTMENT**Professor Hester**

A major in this department must include courses 11a, 12a, 13a, 8, 9, 10, and 31, 32, 33. A minor is any six of the above courses taken in their proper order.

1a, 2a, 3a, Bible History. Required for graduation. Fall, winter and spring terms. Two sections, 1:15 on Tuesdays and Thursdays and on Wednesdays and Fridays. Credit 2 hours each. The aim of this course is to give the student a knowledge of the chief events in Bible history. Fall and winter terms are devoted to a study of introductory matters and Old Testament history. The spring term is used in the study of the interbiblical period and New Testament history.

Textbooks: Bible, American Standard Version; Introducing the Old Testament (Tidwell); Between the Testaments (Grant); Library References; Studies in the New Testament (Robertson).

8-9, 10. Life of Christ. Apostolic Age. Christian Ethics. Fall, winter and spring terms at 9.40. For freshmen. Credit, 4 hrs. each. A careful study of the principal facts in the life of Christ with special attention to the development of His mission. And a course that takes up the history of the Christian movement at the ascension of Jesus, tracing the development through the work of the Apostles during the first century. In the spring term as careful study as the time will permit is made of the ethical teachings of Jesus.

Textbooks: Bible, American Standard Version; The Days of His Flesh (Smith); The Life and Letters of St. Paul (Smith); The Ethic of Jesus (Stalker); Library References.

31-32, 33. History of Christianity. Prerequisite, one course of college history. A rapid review of the first century and a study of the development of Christianity from the close of the Apostolic Age to the present time. Christian missions, a study of modern missions and the needs and opportunity for missionary service in the world today. Fall, winter and spring terms at 7.50. Credit, 4 hrs. each.

Textbooks: The History of the Christian Church (Fisher); The Progress of World-Wide Missions (Glover); The Light of the World (Speer); Library References.

11a-12a-13a. Greek New Testament. Fall, winter and spring terms at 9.40. Prerequisite, Greek 23 (two years of Greek). Credit, 4 hrs. each. In these courses the student is made familiar with the main differences between classical and the New Testament Greek. One of the Gospels and one of Paul's epistles are read in Greek. Grammar is studied

and translations from English into Greek required. (See department of Greek.)

41b. **Organization and Administration of Religious Education.** Fall term T., Th., at 2.10. Prerequisite, Educ. 13. Credit, 2 hrs.

42b. **The Teaching of Religious Education.** Winter term. T., Th., at 2.10. Prerequisite, Educ. 13. Credit, 2 hrs.

43b. **The Efficient Church.** Spring term. T., Th., at 2.10. Prerequisite, Educ. 13. Credit, 2 hrs.

BIOLOGY**Professor Elmore and Assistants**

Any six courses constitute a minor and any nine a major.

21-22. **General Biology.** Fall and winter terms. Lectures T., Th. at 9.40. Laboratory 4 hrs. per week. For freshmen. Credit, 4 hrs. per term. A course dealing with the general principles of biology and giving a general view of all of the animal phyla. Text: College Zoology (Hegner).

23. **General Botany.** Spring term. Lectures T., Th. at 9.40. Laboratory 4 hours per week. For freshmen. Credit, 4 hours. A brief survey of the plant kingdom with special attention to the Phanerogams. Part of the time is given to a study of the local flora and the preparation of an herbarium. 21, 22, 23 prerequisite to all other courses in the department. Text: Principles of Botany (Bergen and Davis).

28-28a. **General Bacteriology.** Fall and winter terms. Lectures T., Th. at 11.00. Laboratory M., W. at 2.10. Prerequisites, Biology 21, 22, 23; Chemistry 1a, 2a, 3a. Credit, 4 hours each term. Fundamental principles of Bacteriology, including the relation of bacteria to industries and disease. Laboratory work is coordinated with the principles developed in the lectures, with emphasis upon technique. Typical pathogenic and non-pathogenic bacteria are studied. Text: Bacteriology (Buchanan).

30. **Botany.** Spring term. Lectures T., Th. at 11.00. Laboratory, 4 hours per week. Prerequisite 21, 22 and 23. Credit, 4 hours. A course in general botany treating of the structure, physiology, and relationships of plants. Text: Principles of Botany (Bergen and Davis), and Plant Histology (Chamberlain).

29. **Human Physiology.** Winter term. Lectures M., W. at 11.00. Laboratory, 4 hours per week. Prerequisite 21, 22 and 23. Credit, 4 hours. A study of the anatomy and physiology of the human body. The laboratory work consists of a study of the gross and microscopical structure of organs and of physiological processes. Text: Textbook of Anatomy and Physiology (Williams).

32. **Histology.** Fall term. Lectures, M., W. at 11.00. Laboratory, 4 hours per week. Prerequisite 21, 22 and 23. Credit, 4 hours. A study of the microscopic structure of animal tissues and the methods of histological work. Text: Manual of Normal Histology (Hill).

27. **Embryology.** Spring term. Lectures, M., W. at 11.00. Laboratory 4 hours per week. Prerequisite, 22 and 29 and 32 or 24 and 25.

Credit, 4 hours. A study of embryological development as illustrated in the chick. Lectures deal with the development of sexual cells, cleavage of the egg, formation of principal organs, and the differentiation of tissues in vertebrates. Text: *Vertebrate Embryology* (Shumway), and *Laboratory Outlines* (Lillie).

24. **Invertebrate Zoology.** Fall term. Lectures, M., W. at 11.00. Laboratory 4 hrs. per week. Prerequisite, 22. Credit, 4 hrs. A study of the invertebrates, their adaptations, relationships, morphology, and development. In the laboratory, forms not considered in 22 are studied, attention being given to some of the parasitic invertebrates, their structure, life history and economic relations. Text: *Manual of Zoology* (Hertwig).

25. **Comparative Anatomy of the Vertebrates.** Winter term. Lectures M., W. at 11.00. Laboratory, 4 hours per week. Prerequisite, 22. Credit, 4 hours. A study of the comparative development of the various systems and organs of vertebrate animals, their structure and homologies. The laboratory work consists of a comparative study of *Amphioxus*, lamprey, dogfish, turtle, and cat. Text: *Vertebrate Zoology* (Newman).

33. **Systematic Botany.** Fall or spring term. Lectures Mon. at 9.40. Laboratory 6 hrs. per week. Credit, 3 hrs. Prerequisite, Biol. 23. A study of a local flora and the principles of classification of seed plants.

33a. **Systematic Botany.** Fall or spring term. Lectures Mon. at 9.40. Laboratory 12 hrs. per week. Credit, 6 hrs. Prerequisite, Biol. 23. A study of local flora and the principles of classification of seed plants.

Courses 21, 22, 23, 27, 28, 30, 31 will be given every year.

Courses 24, 25, 29, 32 will be given in alternate years.

Courses 24, 25, 29, 32 will be given in alternate years; 29 and 32 in 1928-1929.

Laboratory hours for courses 21, 22, 23 are as follows: For boys—first division, Monday, 9.00-11.00 and Friday, 2.10-4.00; second division, Monday and Wednesday, 2.10-4.00; third division, Saturday, 8.00-12.00. For girls—Tuesday and Thursday, 2.10-4.00.

The College has an herbarium consisting of about 5000 specimens collected in thirty-six states and foreign countries. Among the foreign countries represented are India, Palestine, Germany, Belgium, France, and England. Included in the herbarium is a large collection from Wisconsin by Dr. J. S. Douglas and one from Shelby County, Missouri by C. A. Ripley. Plants from India, Palestine, and some from Europe are from W. T. Elmore.

CHEMISTRY**Professors Parker and Walker and Assistants**

Any three years of chemistry constitute a major and any two years a minor.

1a—2a. General Chemistry. Fall and winter terms. Lectures M., W., F. at 9.40. Laboratory, two periods weekly. For freshmen. Credit, 5 hrs. per term. Students who offer chemistry for college entrance will be enrolled in this course, but may be given special work suited to their advancement. Chem. 1a covers the general introduction to chemistry and the non-metallic elements. Chem. 2a takes up the metals. Text: Newth's Inorganic Chemistry.

3a. Qualitative Analysis. Spring term. Prerequisite, Chem. 2a, of which this course is a continuation. Lectures W., F. at 9.40. Laboratory, three periods weekly. Credit, 5 hrs. Lectures will embrace general chemical theory including the elements of physical chemistry.

7-8. Quantitative Analysis. Fall and winter terms, at 1.15. Laboratory, M., W., F. at 2.10. For sophomores and juniors. Prerequisite, Chem. 3a. Credit, 5 hrs. each. Text: Popoff's Quantitative Analysis. The course includes gravimetric analysis, volumetric analysis and various forms of standard methods for the determination of the chemical elements.

9a. Physical Chemistry. Spring term. M., W., F. at 1.15. Laboratory, T., Th., at 1.15. Prerequisite, Chem. 8. Credit, 5 hrs. For juniors and seniors. Text: Millard, Physical Chemistry.

5-6. Organic Chemistry. Fall and winter terms. M., W., F., at 7.50. Laboratory, T., Th., at 2.10. For sophomores and juniors. Prerequisite, 3a. Credit, 5 hrs. each per term. Text: Theoretical Organic Chemistry—Cohen.

13. Synthetic Organic Preparations. For juniors and seniors. Spring term T., Th., at 7.50. Laboratory, M., W., F., at 2.10. Prerequisite, Chem. 6. Credit, 5 hrs. Advanced preparation of carbon compounds. Special topics in organic chemistry.

14-15. Water Analysis. Fall and winter terms at 11.00. Laboratory hours to be arranged. For juniors and seniors. Prerequisite, Chem. 8. Examination of water, including standard bacteriological practice. Credit, 5 hrs. each per term. Text: A. P. H. A. Manual and Mason's Water Supply.

16. Special Methods of Quantitative Analysis. Spring term at 1.15 M., W., F. Laboratory, M., W., F., at 2.10. For juniors and seniors.

Prerequisite, Chem. 8. Parr's Fuel and Gas Analysis. Special methods, including fuel and gas analysis. The work in courses 14, 15, 16 may be varied somewhat to suit the need of the individual student. Credit, 5 hours.

Students preparing for engineering should take at least two years of physics, and two years of mathematics in addition to chemistry. Those expecting to study medicine should take at least one year of physics and one, or preferably, two in biology, in addition to a minimum of three years of chemistry.

Students preparing for graduate work in chemistry should take two years of German, two years of French and mathematics thru the calculus.

The work of the senior year in chemistry may be modified to suit the individual student. The professor should be consulted.

All laboratory work up to the senior year will come regularly afternoons from 2.10 to 4. Sections will be so alternated that any student may take any two sciences without conflict, at least in the elementary classes.

EDUCATION

Professors Sullivan and Frederick

Courses 11, 12a, 13, 14, 15, 19, 24, 21a and 18a form a major in education. Twenty-four hours in education form a minor. (Six of these form a minor.)

✓ 11. General Psychology. It is the purpose of this course to give a general treatment of main elements, facts and principles of psychology. Inherited traits, instincts, reflexes, emotions, central nervous systems and the various mental processes are a few of the topics studied in the course. Fall term, M., T., W., T. at 7.50, 9.40, 1.15. Credit, 4 hours.

✓ 12a. Applied Psychology. A study of the application of the principles of General Psychology in various lines of work, such as law, medicine, business, industry. Special attention will also be given to educational and vocational guidance. Winter term. M., T., W., Th., 7.50, 9.40, 1.15. Prerequisite, 11. Credit, 4 hours.

✓ 13. Educational Psychology. A study of the facts and principles of the learning process, and an application of the methods and results of experimental psychology to the problems of class room instruction. A few of the topics studied are the learning process, habits, association, individual differences, intelligence, memory, and types of tests. Spring term. 7.50, 9.40, 1.15. Prerequisite, 11. Credit, 4 hours.

✓ 14. Technique of Teaching in H. S. An intensive study of principles underlying the teaching process, an evaluation of the common and newer teaching procedures, and a consideration of the general factors in teaching as reviews, assignments, etc. Required by the state department of education. Should be taken before special methods courses. Fall term. T., W., Th., at 9.40. Freshmen not admitted. Prerequisite, 11 or 13. Credit, 4 hours.

✓ 15. Principles of Secondary Education. This course seeks to discover and apply the fundamental social and psychological principles upon which the organization and administration of the high school should be based. Required by the state department of education. Winter term. T., W., Th., F. at 9.40. Freshmen not admitted. Prerequisite, 14. Credit, 4 hours.

101. Special Methods in the Teaching of the Social Studies. Professor Fleet and Mr. Park

Mathematics 12, 13, 14, 24, 25, 26, 27, 28, 29 form a major. The first six of these form a minor.

↘ 12. College Algebra. Fall term. Daily, at 8.45. Prerequisite, one unit of algebra and one unit of plane geometry. For freshmen. Credit, 5 hrs. This course will contain a review of elementary algebra and a few advanced topics.

↘ 13. Plane and Spherical Trigonometry. Winter term. Daily, at 8.45. Prerequisite, 12 or 1½ units of algebra and 1 unit of geometry. Credit, 5 hrs.

↘ 14. College Algebra. Spring term. Daily at 8.45. Prerequisite, 13. Credit, 5 hrs. This course will be a continuation of course 12. Some of the more advanced topics of the subject will be treated.

↘ 24—25—26. Analytical Geometry and Calculus. Fall, winter and spring terms. Daily at 9.40. Prerequisite, 14. Credit, 5 hrs. each term. In these courses, extending thruout the year, the text by Wood and Bailly will be completed.

↘ 29—28—27. Analytical Mechanics and Differential Equations. Fall, winter and spring terms. M., W., and F., at 7.50. Prerequisite, 26. Credit, 3 hrs. each. Murray's text on differential equations is used and Jean's Mechanics or a text of equal grade.

28a—29a. Selected Topics From Higher Mathematics. Eulerian integrals, elliptic integrals, existence theorems, etc. Winter and spring terms. Alternating with 28 and 27. (May not be given in 1928-1929.)

↘ 1f—2w—3s. Descriptive Astronomy. Fall, winter and spring terms. Tuesday and Thursday, at 7.50. For college students. Credit, 2 hrs. each.

Other courses in advanced mathematics will be given on sufficient demand.

Students who expect to study engineering are advised to take at least one year of chemistry, two years of physics and two years of mathematics.

MUSIC

Professor Cooper

1, 2, 3. **Music Appreciation.** Fall, winter and spring terms. T., Th., at 1.15. For college students. Credit, 2 hrs. per term. A lecture course designed to enable the student to appreciate all forms of good music. A brief survey of the history of the art is made, and a number of great masterpieces are analyzed and studied.

4. **Introduction to Philosophy.** Professor Fruit. Fall term. M., T., W., Th., at 1.15. Prerequisite, Edu. 11. Credit, 4 hrs. This course is designed to give the beginner a perspective of what philosophy is about and how it may help him. Text: *Introduction to Philosophy*—Cunningham.

6. **History of Philosophy.** Professor Fruit, Winter term, M., T., W., Th., at 1.15. Prerequisite, Edu. 11. Credit, 4 hrs. Text: *Rogers—Student's History of Philosophy*.

3. **Logic.** Professor Fruit. Spring term. M., T., W., Th., at 1.15. Prerequisite, psychology. Credit, 4 hrs. This is an elementary course in the study of the aims and methods of thinking. Text—Creighton.

PHYSICAL EDUCATION**Professor Bowles and Associate Professor Collins**

1, 2, 3. Physical Education—Practical. Fall, winter and spring terms at 11.00, 2.10, 3.05, and 4.00. One hour each period three times a week. Credit, one-half hour per term.

The following forms of exercise will be given throughout the year: Football, basket ball, baseball, track, tennis, handball, medicine ball, soccer, indoor baseball, gymnastics, wrestling, boxing.

Physical Education 1. Fall term. Classes in the following forms of exercise will be organized: Basket ball, tennis, handball, medicine ball, soccer, track and football, at the hours given above.

Physical Education 2. Winter term. Boxing, wrestling, handball, medicine ball, soccer, gymnastics, indoor baseball, track and basket ball will be given at the hours designated above.

Physical Education 3. Spring term. Basket ball, tennis, handball, track, football, medicine ball, soccer and baseball—see hours named above.

Credit toward graduation will be given at the rate of $\frac{1}{2}$ hour per term. A maximum of six hours may be offered toward graduation, in addition to the credit for courses 7, 8, 9.

7, 8, 9. Principles of Coaching. Fall, winter and spring terms. Lectures, Tuesday and Thursday at 11.00. Prerequisites, actual participation in one of the major sports. Freshmen are not admitted to these courses. Credit, 2 hours per term. Bibliography, history and development; equipment of teams; conduct of a season of football, basket ball, baseball, games; track and field athletics.

No one will be recommended for a position as Athletic Coach or Director of athletics who has not completed these courses.

PHYSICS

Professors Davis, Walker and Mr. Park

Courses 1, 2, 3, and any six additional courses of physics form a major, 1, 2, 3, and any three additional courses form a minor.

✓ 1-2-3. General Physics. Fall, winter and spring terms. Lectures, T., Th., at 11.00. Two laboratory periods per week. For freshmen. Credit, 4 hrs. per term. Students offering physics for entrance as well as those who are taking the subject for the first time are enrolled in this class. The equivalent of 1, 2, and 3, is required of all students entering medical or engineering schools, elective by all others. Students offering physics for entrance may enter physics 2 without physics 1. Text: Elements of Physics—Merchant and Chant.

The purpose of these courses is to give information in the field of mechanics, heat, sound, light, and electricity, to the student desiring a general education.

✓ 4. Mechanics. Fall term. Lectures, M., W., F., at 11.00. Two laboratory periods per week. For sophomores. Prerequisite 3 and Math. 13. Credit, 5 hrs. Courses 4, 5, and 6 comprise the second year of general physics. Discussion of force, machines, liquids and gases.

✓ 5. Heat, Light and Sound. Winter term. Lectures, M., W., F., at 11.00. Two laboratory periods per week. For sophomores. Credit, 5 hrs. Prerequisites 3 and Math. 13. This course is founded on the theory of the transmission of energy by wave motion.

✓ 6. Electricity. Spring term. Lectures, M., W., F., at 11.00. Two laboratory periods per week. Prerequisites, 3 and Math. 13. For sophomores. Credit, 5 hrs. Text: Physics for Technical Students—Anderson. This deals with the elements of electricity and magnetism and is prerequisite to 10a, 10 and 11; 4, 5, and 6 are required of all engineering students; 4 and 6 are required for entrance to some medical schools.

4, 5, 6 are required for entrance to engineering schools. These courses offer a study of theoretical laws and their application to industry.

*9. Heat and Light. Winter term. Lectures, conferences and laboratory daily at 9.40. Prerequisite, 5. For juniors and seniors. Credit, 5 hrs. A general discussion of the transmission of energy by wave motion and an introduction to spectrum analysis. Text: Heat for Advanced Students—Edser.

7. Electron Theory. Professor Walker. Fall term. Lectures at 9.40 M., T., W., Th., F. Prerequisite 6 and Chemistry 3a., or

Chem. 6 and Phys. 3. For juniors and seniors. Credit, 5 hrs. Course includes the electron theory, discharge through gases, x-ray, radioactivity, principles of photography, heat and light. Atomic structure and other topics of importance in modern physics and chemistry. Recommended for all advanced students in chemistry and physics.

✓ 12. Surveying. Spring term at 2.10. Prerequisites, 3 and Math. 13. Credit, 5 hrs. Text: Theory and Practice of Surveying—Johnson-Smith. In the classroom the theory of surveying will require about one hour per week. The rest of the time will be given to field work. This course requires a two-hour period.

10a. Electricity and Magnetism. Fall term. Lectures, conferences and laboratory, daily at 8.45. Prerequisites, Phys., 6 and Math. 26. Credit, 5 hrs. This course is a preparation for electrical engineering and is required of all engineers. The fundamental principles underlying the generation, distribution and use of electricity are discussed. Text: Timbie and Bush—Principles of Electrical Engineering.

10. Direct Current Electricity. Winter term. Lectures, conferences and laboratory, daily at 8.45. Prerequisites 6 and Math. 26. Credit, 5 hrs. Direct current machinery including dynamos, motors, coils and batteries as well as the distribution and use of the current will be discussed. Text: Pender—Direct Current Machinery.

11. Alternating Currents. Spring term. Lectures, conferences and laboratory, daily at 8.45. Prerequisite, 10. Credit, 5 hrs. Theory and practice in the generation, transmission and use of the alternating current. Text: Timbie—Alternating Currents.

In so far as possible all laboratory periods will be arranged from 2.10 to 4.00.

*This course may not be given in 1928-1929.

POLITICAL SCIENCE

Professor Titus

9. **Introduction to Political Science.** Fall term. For sophomores. T., W., Th., F., 8.45. Credit, 4 hrs. Lectures and library readings of the legal and theoretical basis of the modern state, the various forms of government and the structure and functions of the principal governmental organs.

THE ALUMNI ASSOCIATION

Headquarters: Liberty, Missouri

President: John J. Bowman, Bonne Terre, Missouri.

Secretary: J. E. Davis, Liberty, Missouri.

Local associations are sustained in St. Louis, Kansas City, St. Joseph and Chicago.

The future success of William Jewell College depends largely upon the efforts of the Alumni Association.

It is the desire of the Trustees and Faculty of William Jewell to secure a still closer cooperation of the alumni with the direct interests of the College. The alumni are urged to keep themselves informed as to the ideals, the policies and the needs of their Alma Mater, and to see that the institution is conducted on the highest plane of efficiency and economy, both as to administration and teaching.
