ORIENTATION FOR NEW STUDENTS

During the week of September 10 to 15, a program consisting of tests, lectures, registration and social activities introduces the new student to college life. *The first standardized test will be given at 8 a.m. Monday, September 10th, in Marston Hall.* New students from outside Liberty should arrive not later than Sunday afternoon, September 9. Dormitories will open Saturday afternoon.

Reservation of rooms in the dormitories should be made at time of application for admission. Freshmen not living at home are required to live in the dormitories.

THE PRESENT EMERGENCY

Because it is difficult in many cases for a young man to foresee what his position will be with regard to military service, and because he will wish to take advantage of every opportunity for his educational advancement in the meantime, the college has made the following special provisions:

Any student called to active military service shall receive full credit for the work of the semester in which he is enrolled, provided he has completed a minimum of twelve weeks and has passed final examination over the work covered. He shall pay full tuition for the semester.

Any student called to active military service before completing twelve weeks shall receive full tuition refund for the semester.

Refunds on payments to the college for room and board will be made from the time of leaving college for induction.

These provisions apply both to men who are drafted and to men who volunteer. They must present notice of induction and/or orders to report for active duty to Dean F. G. Edson or to Mr. E. W. Holzapfel, Director of Personnel, in order to make arrangements for credit or refund.

WILLIAM JEWELL COLLEGE AND VETERANS

For nine years the college has had veterans in the student body. A special plan provides reasonable credit for military service when applicable to the A.B. degree.

WILLIAM JEWELL: A LIBERAL ARTS COLLEGE

By WALTER POPE BINNS, President

William Jewell College is committed to liberal arts education under Christian auspices, privately supported, with a limited student body. In a scientific age when the emphasis is upon technical education, there is still need for broad liberal education as preprofessional training. Unless culture and comprehension keep pace with the development of technical skill, we shall not be able to solve the problems or control the inventions of the new scientific age.

Here is the case for liberal arts education, the need for cultured, educated men and women. William Jewell College has chosen its task, to educate for every profession the interpreters of life who will help to furnish the intellectual and moral leadership of the future. Upon the accomplishment of this task rests the security of democracy.

There is a distinctive service to be performed by the small college. The policy of a limited enrollment makes possible a closer contact between faculty and students. We believe that the essential technique of education is to bring the eager, aspiring student into contact with the communicating personality of the highly trained teacher.

To be liberally educated one should have certain knowledge about himself and the laws of his physical, mental, moral, and spiritual well-being. To this end he should have instruction in such subjects as psychology, hygiene and sanitation, physiology, ethics, logic, and kindred subjects. For adjustment to his social environment he needs the study of his mother tongue and other languages, the literature and cultures of his own and other peoples, and the social sciences such as history, economics, political science, and sociology. That he may be at home in the physical universe he should have instruction in such subjects as biology, chemistry, physics, mathematics, astronomy. Because of his vital and necessary relationships with God, the ultimate invisible reality behind all of these visible things, he should study philosophy, religion, and the Bible. It is this kind of education which is offered by the Christian liberal arts college.

CHRISTIAN EDUCATION

William Jewell is a Christian college affiliated with the Baptist denomination. The ideal of Christian education was uppermost in the minds of its founders, and that ideal has inspired throughout its history of a century. To implement this ideal we have a Christian administration and a Christian faculty. We are concerned that the personal lives of the teachers in every relationship shall exert a positive Christian influence.

In further implementation of the ideal of Christian education, we provide a program of Christian activity which involves student participation upon a voluntary basis. This integrated program offers opportunity for student growth in Christian life and character. The only compulsory features are attendance at Chapel and one year of Bible study as a requirement for graduation.

CHAPEL

One of the cherished traditions of the college is the general assembly of all students and faculty members in the John Gano Memorial Chapel at a designated time for worship services. These exercises are held from 9:40 to 10:15 A.M. on Tuesdays, Wednesdays, and Thursdays. This convocation has distinct values in the development of school spirit, in cultivating fellowship, and in ministering to the religious needs of both students and faculty. Except on some special occasions the exercises are distinctly worshipful in nature. Along with the singing of hymns, the reading of the Scriptures and prayer, a brief address is given, usually by the president or some member of the faculty. Frequently this address is given by a distinguished visitor. At regular intervals the students present the program. While attendance is required of all students, just as in class work, the spirit of the service is such that students participate in it cheerfully and heartily.

STANDING OF WILLIAM JEWELL

William Jewell College is accredited by the North Central Association of Colleges and Secondary Schools, and is also approved by the Association of American Universities, and the American Association of University Women.

HISTORICAL SKETCH

It was soon after its organization in 1835 that the Missouri Baptist General Association took the initial step for the establishment of a

college for young men. No definite action was taken until 1843, when Dr. William Jewell of Columbia, Missouri, made to the General Association the conditional offer of land valued at ten thousand dollars as a nucleus for the building and endowment of a college. The offer was not accepted until 1848. The legislature granted a charter which was signed by the Governor February 27, 1849.

In accordance with the terms of this charter the subscribers to the building and endowment funds met in Boonville for the purpose of selecting a location and deciding upon a name for the institution. After an animated contest, the town of Liberty—county seat of Clay County—was selected and the institution was named William Jewell College.

The College was opened to students (in the old Liberty Academy) on January 1, 1850, with Rev. J. S. Dulin as Principal and Professor of Ancient Languages and Rev. T. F. Lockett as Professor of Mathematics. Dr. Dulin served as Principal until the close of the session of 1851-52 when, because of financial embarrassment, the school became a private institution for a period of one year.

In 1853 the trustees resumed full control and called to the presidency Rev. R. S. Thomas from a professorship in the State University at Columbia. This administration continued until the summer of 1855, when new financial trouble caused the suspension of college work for the next two years.

The college reopened in the fall of 1857 under the presidency of Rev. William Thompson, LL.D., a graduate of the University of Edinburgh, a scholar of distinction and one of the most brilliant orators of his day.

During the Civil War the college was again forced to suspend classes for a period. For a part of this interim, Jewell Hall was in the hands of Union soldiers who used its second story to house their wounded and used the first floor as a stable for their horses. A monument erected by the class of 1931 marks the location of a battle trench on the slope of the campus north of the Library.

Other presidents who have served since Dr. Thompson are Rev. Thomas Rambaut 1867; Prof. James C. Clark as Chairman of the Faculty 1883; Dr. John Priest Greene 1892; Dr. David Jones Evans 1920; Dr. H. C. Wayman 1923; Dr. John F. Herget 1928; Dr. H. I. Hester as interim President for 1942-43; Dr. Walter Pope Binns 1943.

In 1917 the first women students were admitted and in 1921 the College became officially coeducational.

In December 1942, arrangements were made to set up a Naval Flight Preparatory School as a part of the war effort in World War II. The school began operations January 1, 1943. Aviation cadets remained in the school for three months instruction. The school operated until October, 1944, and trained a total of 2983 cadets.

In July, 1944, a Naval Refresher Unit was established on the campus. Enlisted men were given "refresher" courses in Physics, Mathematics, English, and History. A total of 728 navy men were enrolled. This school, like those in other colleges, was discontinued after the close of the war.

LIBERTY AN IDEAL COLLEGE TOWN

Liberty is an historic Missouri town. It was incorporated in 1922, the year after Missouri was admitted into the Union. Its settlers came from Virginia and Kentucky. Here a generation later the wagon trains outfitted for the California gold rush. It is a cultured community, largely residential.

A small town with a population of about 5000, located only fourteen miles from the heart of Kansas City, it has all the advantages of a small town and in addition has the advantages of a large city.

Liberty is served by three railroads. Highways 71, 69, 10 and 33 serve the town. Frequent and adequate bus service connects with Kansas City.

EXCELSIOR SPRINGS

One of the greatest watering resorts of the world is located fifteen miles from the campus. People from all over the United States and some foreign countries come to Excelsior Springs to use its mineral waters which are serviced by an elaborate million dollar system.

KANSAS CITY NEARBY

The skyscrapers of Kansas City can be seen from the campus of William Jewell. Here, just across the Missouri River from Liberty, is one of the great metropolitan areas of the Middle West. More than a half million people live in Kansas City, Missouri, Kansas City, Kansas, and North Kansas City. It is one of the important railroad centers of America. Its great airport is the crossroads of the world. The finest and best in entertainment come to Kansas City. The Nelson Art Gallery is one of the most famous in the United States.

CAMPUS TOUR

The college campus consists of one hundred six acres of wooded upland situated just within the northern and eastern corporate limits of the city of Liberty. To the student who is a newcomer interest centers in the buildings of the quadrangle.

CHAPEL

The John Gano Memorial Chapel was named in honor of the Reverend John Gano, who established the First Baptist Church in the city of New York and served as the famous "fighting chaplain" in the army of George Washington. The auditorium seats 1100 persons. Facing the foyer on the main floor and also on the second floor are the studios and practice rooms of the department of music. Below the auditorium and reached by an outside entrance on the east is the William Jewell Press. On the same level but with entrance on Mississippi street are the practice room of the William Jewell Band and the office of the Director.

GYMNASIUM

East across the driveway from the chapel is the Brown Gymnasium. This building, erected at a cost of \$150,000, contains a maximum-sized basketball court, a corrective gymnasium, adequate shower and locker facilities for the entire student body, a tile-finished swimming pool, handball courts, director's and coaches' offices, and a lecture room. The lobby is furnished as a lounging room for the students. The "J" Club room is adjacent to the coaches' offices.

THE LIBRARY

The Andrew Carnegie Library, south of the chapel on the west side of the walk, houses 66,445 volumes. In the large reading room may be found encyclopedias, dictionaries, and other reference books. The reading room receives regularly 355 periodicals selected for the purpose of supplementary reading in the various departments of the college. Approximately sixty of the important magazines are bound in volumes covering many years. These are accessible to students.

The library and reading room are open from 7:50 A.M. until 5:50 P.M. Monday through Friday and on Saturday from 8 A.M. until noon. They are open on Tuesday and Thursday evenings from 7:15 to 9:45.

The library receives United States government publications regularly, and these pamphlets, periodicals, and books are classified and cataloged, furnishing much authoritative material on contemporary subjects.

Charles Haddon Spurgeon's private library of 7,000 volumes, which was purchased for the library in 1906, is kept on the shelves as a separate collection. It is especially useful in the study of Puritan and sixteenth century literature.

Other collections in the library are the "Dr. Louis M. Mertins Collection of signed manuscripts, first editions, and holographic works"; the "Ted Malone Collection of Poetry"; the "Hubmaier Collection" photostatic copies made by Dr. W. O. Lewis of the complete writings of Dr. Balthasar Hubmaier; and the "John F. Herget Limited Editions Collection." The archives of the Missouri Baptist Historical Society are also housed in the library.

Among the many paintings of interest in the library is the oil portrait, "Major Deane in Jail," painted in 1866 by the old Missouri master, George Caleb Bingham. The painting is of value not only because of the fame of the artist but also because it chronicles an incident important both in the history of the state and in relation to the tenets of Baptists. It depicts the Rev. A. H. Deane, early Baptist minister of Harrisonville, Missouri, imprisoned in the Independence, Missouri, jail just after the Civil War because of his refusal to take the oath of allegiance required of ministers at that time. Mr. Deane refused to take the oath on these grounds: First, he had never rebelled against the government, but, on the contrary, had served in the Union Army; second, he felt that his commission to preach came not from the government but from the Lord. Later, the law requiring the oath of allegiance, against which he had taken his stand, was declared unconstitutional by the Supreme Court of the United States, and the Legislature of the State of Missouri repealed the test oath law in the same year that Bingham visited Deane in jail that he might paint his portrait as an expression of the sentiment against the test oath.

JEWELL HALL

Jewell Hall, described in *The Missouri Guide* as an outstanding example of Classical Revival architecture, contains the lecture rooms of language, literature, philosophy, religion, history, economics and sociology, psychology and education. This building was modernized in 1946, needed changes having been made in the interior. Two class

rooms are provided on both the north and south wings on each floor. In the center section connecting the two wings there is a corridor, one large class room (two on the first floor), and offices for professors. Drinking fountains and rest rooms are provided. All heating and lighting installations are modern.

MARSTON HALL

Marston Science Hall, built on the southern point of "The Old Hill," contains the classrooms and laboratories of biology, chemistry, physics, and mathematics. Most of the first and second floors are occupied by the department of chemistry. The third floor is used by the department of physics and mathematics, and the fourth floor contains the museum and the department of biology. The building is of fire-proof construction and especially designed for science work.

The College Museum, on the fourth floor of Marston Hall contains foreign relics collected by various missionaries, many articles of historical interest, and a large collection of specimens of natural history used in science classes. Among these are 245 species of birds and 4 cases of fossils, rocks, and mineral.

The College Herbarium contains about 10,000 specimens of plants collected from 44 states and 16 foreign countries.

OLD ELY HALL

East, across the walk from the library, is an historic, three-story brick structure. The building is now used as a dormitory for men. The first floor is newly equipped as a student activities center, to which the students have given the name "The Hub."

GREENE HALL

On the east slope of the hilltop and facing the west is the new administration building. The cornerstone was laid in 1948, and it was occupied in the summer of 1949. This building is a memorial to President John Priest Greene and is the gift of Mr. W. D. Johnson, for many years member of the Board of Trustees and its president for a quarter of a century. Greene Hall brings together and adequately houses all the administrative offices of the college. It also provides an assembly room for meetings of the faculty, of the trustees, of alumni and other such groups. The building has fire-proof vaults for college records.

HEATING PLANT

A new central heating plant has been constructed. This modern plant, costing approximately \$170,000, has been in use since 1947. Housed in this building are also the shops of the college carpenter, plumber, electrician and other men entrusted with the maintenance of college buildings, equipment and grounds.

THE PRESIDENT'S HOME

The President's Home, only a "stone's throw" from the quadrangle and set in a beautiful wooded lawn, was built originally for President Greene. After the beginning of World War II it served in emergency for women's dormitory, class room building and most recently as quarters for the music department before its removal to Gano Chapel. Now renovated and remodeled the building has returned to its original use, and President Binns is able to live on the campus in the traditional president's home.

MELROSE HALL

Melrose Hall, a dormitory for women, stands on a wooded hilltop northwest of the President's Home. It contains, besides dormitory facilities for eighty women and a modern recreation room, an infirm-ary supervised by a resident nurse. Miss Mary Mitchell and Mrs. Margaret Fristoe serve as hostesses.

NEW ELY HALL

On the southeast of the drive that leads from Melrose Hall back to the quadrangle, and just north of the gymnasium, is New Ely Hall, a dormitory for men. This building accommodates 140 men. Dr. and Mrs. Joseph Clapp serve as hosts.

On the first floor of New Ely are two dining rooms. The larger one accommodates all the students living on the campus for regular meals and is also adequate for such affairs as the annual alumni banquet. The smaller one furnishes facilities for small groups. The faculty also holds its weekly sessions here. Mr. Robert L. Keeney, dietitian, with his staff has charge of the preparation and serving of all the food.

ATHLETIC FIELD

The athletic field of twenty acres is southeast of the gymnasium. It contains a quarter-mile and a 220-yard straightaway cinder track, and a football field. Stands for spectators accommodate about 3000. The field is lighted with flood lights for night games. Tennis courts

are provided near the gymnasium. The college has recently constructed a grass green for individual instruction in golf.

DORMITORIES IN TOWN

Three buildings in the city of Liberty near the campus are now being used by the College as residence halls.

Alpha Gamma Delta House, 441 Wilson, furnishes living accommodations to twenty young women. Mrs. A. G. Byrns serves as hostess.

The Beta Sigma Omicron House on the corner of Mississippi and Jewell streets furnishes accommodations for twenty-five young women. Mrs. Ralph Davidson serves as hostess.

The Alpha Delta Pi House, 424 East Mississippi, furnishes accommodations for twenty-four young women. Mrs. Grace Stanley serves as hostess.

number of scholarships available for such students. A revolving loan fund can be used by a limited number. Remunerative work is available on the campus or in the community by practically all who need such assistance. For information about all these see pages 36 to 39.

By permission of the registrar a student may take not more than two subjects and be listed as a *special student*. For students so listed a special rate of tuition will be charged.

Students enrolling for the first time may have the privilege of registering as late as two weeks after the beginning of classes by obtaining, in addition to the dean's permission, the approval of the professors under whom they expect to study. These provisions, however, do not cancel the extra fees for late registration or late settlement of charges mentioned above.

And there will be no refund on room rent, but unused portions of advanced payments on board will be returned if a student is obliged to return home because of protracted illness certified to by an attending physician. No refunds will be made to the student on either room rent or board if it becomes necessary to dismiss him or her from a residence hall because of ill conduct.

REDUCED TUITION

William Jewell College extends the courtesy of reduced tuition to properly accredited students for the ministry, to sons and daughters of ordained ministers, and to young women approved by their church as students who are committed to full time Christian work as a vocation. These students are charged the same fees as other students.

A meeting of all ministerial and missionary students is held at the opening of the session. A special committee of faculty members

and denominational leaders confers with each new student concerning his Christian experience and his call to special Christian service. Each student for the ministry must present his ordination papers, or a license to preach, properly issued by the church of which he is a member. Young women who have publicly committed themselves to full time Christian work as a vocation must present a statement to this effect issued by the pastor or some official of the church of which they are members. The special committee will authorize the reduction in tuition in each case where the requirements are satisfactorily met.

The sons and daughters of ministers will be given the reduction in tuition upon the presentation of satisfactory evidence that their fathers are ministers.

SCHOLARSHIPS

The college is able to offer a number of scholarships to worthy students of high scholastic rating. The money for these has been provided by generous friends who want to assist young people in their efforts to secure a college education. These scholarships are classified as competitive and non-competitive.

COMPETITIVE SCHOLARSHIPS

The A. R. Levering Scholarship is awarded to the Sophomore making the most satisfactory record in scholarship, character, and conduct in his Freshman year at William Jewell College.

The L. B. Ely Scholarship is awarded to the Junior making the most satisfactory record in scholarship, character, and conduct as a Sophomore.

The John Sillers Scholarship is awarded to the Senior making the most satisfactory record in scholarship, character, and conduct in his Junior year.

These scholarships provide full tuition for one year and are awarded by the faculty. They do not include special fees.

The Marston Scholarship yields about \$200.00 annually and is for a William Jewell College graduate at Brown University. It is open to competition under the rules prescribed by the faculty. The scholarship was founded by E. L. Marston, son of the Rev. S. W. Marston, D.D.

A scholarship fund of \$5,000.00 has been provided by Dr. Hubert Eaton, of Glendale, California, in memory of his father, the late Professor James R. Eaton, who was head of the department of Natural Sciences in William Jewell College from 1869 to 1897. This scholarship

provides \$250.00 each year to be awarded annually by the faculty to a promising sophomore majoring in Chemistry, Physics, or Geology, and to be credited to his or her tuition, \$125.00 for the junior year, \$125.00 for the senior year.

NON-COMPETITIVE SCHOLARSHIPS

There are a number of non-competitive scholarships governed by the College. These are awarded to the most deserving student applicants. Students desiring to make an application for one of these should write to Dr. H. I. Hester, Vice-President of the College.

All students receiving non-competitive scholarships are expected to live in the College dormitories. Students receiving such scholarships are expected to maintain a high scholastic average in college classes.

The Reynolds Fund. Mr. J. B. Reynolds of Kansas City some years ago gave the College a large sum of money as an endowment fund. The income from this fund is to assist worthy students preparing for the ministry and missionary service.

The Ministerial Education Fund. The Baptist Churches of Missouri contribute through their co-operative program a sum of money to be used in assisting needy students for the ministry in meeting the expenses of a college education. William Jewell College receives its proportionate part of this fund and makes it available for needy students enrolled in the college.

REQUIREMENTS AND ARRANGEMENTS FOR ADMISSION

REQUIREMENTS

1. Graduation or the equivalent of graduation from a fully accredited high school with not less than 15 units exclusive of physical education will admit a student to William Jewell College without condition, provided he ranks in the upper half of his class. Individual consideration is given to veterans who do not meet the above requirements. General Education Development tests may be administered at the discretion of the Admissions Committee.

2. average grade for advanced standing must not be less than C, and all transfer students are expected to maintain at least this average after entering William Jewell College. Only in exceptional cases will students be allowed more than 60 semester hours for junior college credit and never more than 62.

The Dean reserves the right to withhold advanced standing until the student shall have demonstrated his scholastic ability in William Jewell College.

REQUIREMENTS FOR GRADUATION

DEGREE CONFERRED

William Jewell College grants only one degree, the Bachelor of Arts. This degree will be conferred upon students who have satisfied the entrance requirements and have completed 124 semester hours of college work according to specifications given below, and have earned an average of two grade points for each semester hour attempted.

CLASSIFICATION OF COURSES

The courses offered by William Jewell College are classified as follows:

- Group I.* Communications:
English, French, German, Greek, Latin, Spanish, and Russian.
- Group II.* Mathematics and Natural Sciences:
Mathematics, Biology, Chemistry and Physics.
- Group III.* Social Sciences:
Economics, History, Political Science, Psychology, Education, and Sociology.
- Group IV.* Humanities:
Literature, Philosophy, Religion, Music.
- Group V.* All other subjects.

There are certain requirements which all students must fulfill in order to obtain a degree from William Jewell College. In keeping with the purpose of a Liberal Arts College, these requirements are of two kinds, (1) the specific major courses with their respective cognate minors, and (2) the general education requirements which have a certain uniformity for all students.

1. Every student must choose a major as shown in the table of majors and minors (page 135). This usually is done by the beginning

of the sophomore year. A major varies from twenty-four to forty hours, depending upon the subject chosen, taken in regular sequence. In the junior or senior years the greater part of the student's work should be taken in courses numbered 300 or above. The rest of his schedule should consist of courses numbered above 200. Courses for credit toward a major must be passed with a grade of C or better. All seniors will be required to pass a comprehensive examination in their major field, not later than three weeks preceding commencement and not earlier than five weeks preceding commencement.

2. For each major, there is a cognate minor, determined by the major department and listed in the description of that department or in the table of majors and minors (page 135). A minor shall consist of not less than sixteen hours in the designated subject or subjects.

3. Every student is required to take six hours of Freshman English during his freshman year. During the Orientation program, every entering freshman will be required to take an English placement test. If the results of this test warrant it, the student will be required to take a course in Remedial English without credit. In order that no student of the college shall be graduated without a reasonable command of English grammar, spelling, pronunciation, composition and good usage, the English department will examine every student at the beginning of the junior year and the passing of such examination as the English department may set up shall be required before graduation. Details such as tests, time of examinations, and passing marks, are in the hands of the English department. Remedial courses shall be provided for those failing examinations. All transfer students must take this examination irrespective of advanced standing.

4. Every student is required to take four hours of Speech at some time before graduation.

5. Two hours of Hygiene and Sanitation are required for graduation.

6. Four hours of Physical Education are required, and should be taken, two in the freshman and two in the sophomore years.

7. Four hours of Bible History are required for graduation. These should be taken, if possible, in the freshman year.

8. Every student is required to take two years of one foreign language. An optional foreign language proficiency test may be taken, which will be the equivalent of a second year final examination and which will permit the student who can pass it to be excused from further courses in a foreign language or allow him to enroll in a course

of third year language. A proficiency test, equal in difficulty to that expected upon completion of one year of the language in college, may be required of all students presenting two units of high school language before they are permitted to continue that language.

9. Every student is required to complete a minimum of fifteen hours from Group II, Mathematics and Natural Sciences, from at least two subjects.

10. Every student must complete fifteen semester hours from Group III, Social Sciences, from at least two subjects.

11. Every student must complete six semester hours from Group IV, Humanities, in addition to the four hours of Bible.

12. Should the student's major be in any of the Groups represented by 9, 10, 11 above, it shall be considered as fulfilling the general requirement in that group.

13. All other work necessary to make 124 hours for graduation is elective. As many of the general requirements as possible should be met in the student's freshman and sophomore years.

14. The maximum amount of credit a student may receive in one department is forty hours.

15. Any senior having fulfilled all other requirements for graduation with his class except eight semester hours of credit or less, may, by permission of the faculty, do this work *in absentia*, and thereupon be graduated as of his class, provided he completes his deficiency before February 1 of the following year. This work may be done by correspondence in some reputable institution or in residence in some other college or university of recognized standing. Such a student may participate only in the graduating exercises of the class following the completion of the work, but will be graduated as of his own class. The last year's work for graduation must be done in William Jewell except as above provided.

16. Students offering three or more years of college work from other institutions must complete the entire senior year of work (not less than 30 hours) in William Jewell College in order to receive the A.B. degree from this institution.

17. A student having completed in William Jewell College the required work for graduation may, with the approval of the Faculty in advance, finish the work for the A.B. degree by one year of satisfactory work done in an A-grade technical school. This privilege will not be granted to a student of low scholastic ability or one having more than a normal year's work to complete for graduation.

18. Students planning to enter a graduate school are advised to take French and German.

GENERAL REGULATIONS

CLASSIFICATION OF STUDENTS

To be classified freshman a student must present 15 units as described on page 39.

To be classified sophomore a student must have earned at least 24 semester hours of college credit and 48 grade points.

To be classified junior a student must have earned at least 60 semester hours of college credit and 120 grade points.

To be classified senior a student must have earned at least 90 semester hours credit and 180 grade points.

In each of these cases the student's work must be of such kind as to lead to graduation in the normal time. Classification is made only once a year, at the time the student first registers.

GRADING, EXAMINATIONS, AND GRADE POINTS.

1. Grades are expressed by the letters, A, B, C, D, F, and W. The first four letters indicate grades ranging in order from 100 percent down to 60 percent. F means failure. W means withdrew in good standing.

2. Grade points are assigned as follows: A, 4 grade points per credit hour; B, 3 grade points per credit hour; C, 2 grade points per credit hour; D, 1 grade point per credit hour; F, no grade points. Scholastic averages are computed upon the basis of hours attempted and the total number of grade points earned. For graduation at least 248 grade points are required, but the total number of grade points must be double the number of hours attempted (an average of C).

3. In order to be admitted to final examinations a student must have acquired a class grade of at least D. In order to pass a course the student must make at least D on his final examination. The term grade is made up by averaging the grade of class work and the grade of final examination, the latter to count not less than thirty percent and not more than fifty percent. No second examinations are permitted because of failures, except that a senior may be granted one re-examination as a senior privilege.

4. College students are limited to 18 hours of work per week. Less than 12 hours of work per week may not be carried without the permission of the Registrar.

CHANGE IN REGISTRATION

Upon application to the Registrar's office and with the approval of his adviser and the instructor in any course he wishes to enter, a student may modify his schedule of studies by addition, substitution, or dropping of courses within two weeks after the start of class work. No students may enroll for any course after two weeks have elapsed. No change of registration is completed until notification has been sent from the Registrar's office to the instructor concerned.

A student may withdraw from a course within six weeks following the beginning of class work, by applying to the Registrar and getting the approval of his adviser. Thereafter, the dropping of a course by a student shall entail for him a grade of "F" for the course. Students obliged by circumstances to withdraw from college should report to the Registrar at once.

HONOR ROLL

To have his or her name appear on the Semester Honor Roll, the student must (1) have no grade in any subject less than C; (2) have an average of .85 or above obtained by the following formula

$$Q = \frac{gp}{2(h+n)}$$
, in which gp = total grade points earned, h = number of hours attempted, and n = 16 + the numerical difference between h and 16.

QUALITY OF WORK

A student is expected to secure each semester at least twice as many grade points as the total number of hours for which he is registered.

At the end of the first six weeks a report is made of all freshman students who are doing unsatisfactory work in any class or classes. At the end of the ninth week a report is made of all students doing unsatisfactory work in any class or classes. The dean receives such reports and takes such steps as are advisable in each case.

Whenever the quality of a student's work declines to such an extent that his graduation in due course seems improbable, he and his parents are so informed.

For a student to remain in college he must

1. At the end of his second semester have a minimum grade point average of 1.0.
2. At the end of his fourth semester have a minimum grade point average of 1.5.

3. At the end of his sixth semester have a minimum grade point average of 1.8.

INCOMPLETE WORK

If at the close of any semester a student's grade is reported as "Incomplete," he must make up the deficiency by the end of the ninth week in the semester following the occurrence of the incomplete grade or else the incomplete becomes a grade of F, except by the vote of the faculty.

CORRESPONDENCE

The College will not accept for graduation work done by correspondence from any institution except one of high standing, having regularly organized correspondence departments, and then for no more than 10 semester hours. No credit may be allowed by correspondence toward a major except by consent of the head of the department and upon approval of the faculty.

STUDENT CONDUCT

It is assumed that every student matriculating in William Jewell College agrees to conduct himself in a manner conducive to the highest sort of mental and moral development. The faculty reserves the right to send any student home whose habits are considered inconsistent with the ideals of the institution.

CLASS ATTENDANCE

1. Students are expected to attend classes regularly. The penalty for absences varies with the student's classification in college and his scholastic standing.

CHAPEL ATTENDANCE

Chapel services are held Tuesdays, Wednesdays, and Thursdays every week during the school year, except during final examinations. Attendance upon these services is required.

REGULATIONS FOR RESIDENCE HALLS

1. In accordance with the practice of the most progressive educational institutions, all freshmen not living at home are required to live in the college dormitories.

2. All non-resident young women will be expected to live in one of the college residence halls for women or in other houses provided by the college unless permission to room elsewhere is secured from the President of the college or the Dean of Women.

3. Students living in any of the residence halls are expected to furnish their own bed linen, blankets, towels and curtains.

4. Major problems arising in the residence halls are referred to the Deans and the Discipline Committee. If it should become necessary to dismiss a student from a residence hall on account of misconduct, his future relations to the College will be determined by the faculty.

STUDENT PERSONNEL SERVICES

The Personnel department of William Jewell offers its services to all students in educational, vocational, and personal counseling. Every student who enters the college takes aptitude tests designed to help him discover in what way he may most satisfactorily direct his efforts. On the basis of these tests and their academic records, the advisers and dean can assist students in selecting courses of study. The student can also receive assistance in determining occupational goals for which he appears to have abilities and interests.

EDUCATIONAL GUIDANCE

The Director of Guidance assigns each freshman to a faculty member who acts as an adviser until the student chooses a major in the sophomore year. At that time the head of the department becomes the adviser. The student thus secures the counsel of the head of the department until time of graduation. In addition, the President, the Vice President, the Dean, the Registrar and the Director of Guidance give their counsel at any time to those desiring any kind of assistance.

DORMITORY COUNSELORS

William Jewell College recognizes its responsibility in helping individuals to make satisfactory adjustment to all phases of college life.

In New Ely Dormitory, where the freshmen are housed, we have a counselor in each wing of the building to help the students to make this adjustment. The counselors are employed by the college on the basis of their academic standing and their demonstrated power of leadership. They will assist with problems concerning study schedules, study habits and participation in the other activities which help each student to develop his potential interests and abilities.

HEALTH SERVICE

In addition to at least one physical examination for each student every year, all students are provided opportunities for wholesome exercise and recreation in the gymnasium and on the athletic field. Working with Professor Patterson in the health program are the instructor in physical education for women, the athletic coach, the college nurse, the local physicians, and the matrons of the residence halls. The close proximity of the college to Kansas City makes it possible to have any student affected with serious illness quickly transferred to the very best hospitals in the city.

The John Gano Memorial Chapel erected in honor of George Washington's "fighting chaplain" of the Revolution and first pastor of the First Baptist Church of New York City

The Carnegie Library. It houses more than 60,000 volumes and is the depository of many notable collections, including the 7000-volume Charles Haddon Spurgeon library, the Balthasar Hubmaier pamphlets, the Louis Mertins holographs, and the Ted Malone Poetry collection

STUDENT ACTIVITIES

The program of student activities is a part of the personnel program and is administered by the Director of Student Activities and the student activities committee. The Student Activities Committee is a student-faculty committee with student representation from all major campus organizations. All-school projects and activities, such as "The Hub," all-school parties, and the annual organizational sing are sponsored by this committee. The interests of all students are carefully considered in planning these activities.

The center of student activity on the campus is "The Hub" located on the first floor of Old Ely Hall. "The Hub" has a lounge, snack bar, game room, book store, committee meeting room, commuting student facilities. Ping-pong, radio-phonograph sessions and television are some of the every day activities in the Hub. The facilities are in constant use throughout the day and evening.

PLACEMENT SERVICES

Placement services are available to all students who desire help in finding permanent employment. Personnel officers from many companies come to our campus for the purpose of interviewing students. Students who desire help in securing employment are urged to report to the personnel office at least four months before they desire to find full time employment.

PART TIME EMPLOYMENT

Many students earn part of their expenses while in college by working on the campus, in the dining halls, and in the library. Part time employment is provided also by a number of business firms in the city of Liberty. Students desiring this service should write to the Director of Guidance and Placement, who will furnish an application blank. Early application is desirable, because such openings are limited.

PREPARATION FOR SPECIAL FIELDS

As has been stated elsewhere in this catalog, William Jewell College is committed to a liberal arts education. The college recognizes, however, that many students wish to select their courses with a definite view to preparation for a special field or profession. Some suggestions are offered in the paragraphs which follow:

ARTS AND SCIENCES (Graduate Study).

William Jewell College is fully accredited by the North Central Association of Colleges and Secondary Schools and approved by the

Association of American Universities, so that graduates with the Bachelor of Arts degree may continue their work in Graduate Schools with full credit for their undergraduate work.

The student is advised to study the catalog of the graduate school that he expects to attend so that he may plan his course of study so as to meet the special requirements of the specific school. The Dean of the College, the Director of Personal Guidance and Placement, and the student's major professor should be consulted with regard to planning a program of studies leading to graduate work.

Students who expect to attend graduate schools must have a high scholastic average and may be required to take the Graduate Record Examination during the last semester of the senior year.

BUSINESS

Many students are interested primarily in business administration. The aim of the Department of Economics and Business Administration is to offer opportunities for both cultural and preprofessional training in the fields of economics and business administration. A further aim is to equip students with a well rounded knowledge of the dynamic character of economic society and the responsibilities that are placed upon men and women in the field of business. This gives the student a wide perspective for specific training in a particular business after graduation or for further graduate study.

DENTISTRY

The general course requirement for entrance into a college of dentistry is at least two full years of work in an accredited college of liberal arts, comprising not less than 60 semester hours. The quality of the student's scholastic record must be good.

The student should consult the catalog of the school he plans to enter. However, the required courses usually include: English, 6 to 8 hours, zoology 8 hours, physics 8 hours, inorganic chemistry 10 hours, and organic chemistry 5 hours.

Other subjects should include courses intended to broaden the intellectual background of the student, an important factor in professional life. Recommended elective subjects include advanced courses in English, history, foreign language, psychology, economics, philosophy, sociology, and political science.

ENGINEERING

The program of studies for pre-engineering is designed to fit in with leading engineering schools. However, the student should consult

the catalog of the engineering school he expects to enter so that the specific requirements may be met.

Students who expect to receive an A.B. degree before entering an engineering school should major in physics, chemistry, or mathematics, depending upon the type of engineering, as Electrical, Chemical, Mechanical.

A suggested program of studies for the first two years is as follows:

FIRST SEMESTER		<i>Freshman</i>	SECOND SEMESTER	
	Hours			Hours
English 115	3	English 116		3
Chemistry 103	5	Chemistry 104		5
Engineering Drawing 105	2	Engineering Drawing 106		2
Public Speaking	2	Engineering Problems 108		2
Algebra	3	Analytic Geometry 118		5
Trigonometry	2			
<i>Sophomore</i>				
Calculus 225	4	Calculus 226		4
General Physics 213	5	General Physics 214		5
Descriptive Geometry 205	3	Engineering Surveys 212		3
Elective	3	Engineering Drawing 206		2
		Economics 204		5

JOURNALISM

The requirements for admission to any one of several leading professional schools of journalism are, in general, as follows:

1 year freshman English	1 year literature
1 course in composition	1 year of foreign language plus a reading course in the language
1 year of science	1 course in American Government
1 course in economics (3 sem. hrs.)	(3 semester hrs.)
1 course in sociology (3 sem. hrs.)	

LAW

Students expecting to enter an accredited law school should have earned at least 90 semester hours (A.B. degree recommended) of college credit with a grade of B or better. They should have some knowledge of economics, history, sociology, psychology, government, and accounting. Mathematics, Latin, and logic will be beneficial. They should also have command of both written and spoken English.

MEDICINE

Students planning to study medicine should consult the catalog of the prospective medical school which they expect to attend so as to have all pre-medic requirements fulfilled. The number of years of pre-medic work required before the study of medicine varies with the different medical schools. Some schools require only two years, some

three and some require the bachelor's degree as prerequisites for entrance to the medical school.

The general course requirements are as follows: chemistry 16 to 20 semester hours; biology, 8 to 12 semester hours; physics 8 semester hours; English 6 semester hours. The remaining courses should be selected from the humanities or social science such as English literature, psychology, economics, sociology, philosophy, history.

Some schools in addition require a reading knowledge of a foreign language such as French, German, Spanish or Russian.

Admission to medical school is based on the medical aptitude test, scholastic record and recommendations from the professors. No student can expect to be admitted to a medical school who does not maintain a high scholastic record.

MINISTRY

William Jewell College offers no professional theological course. Pre-theological students may choose their own major field. Students are encouraged to select a well balanced course, as recommended by the American Association of Theological Schools.

It is suggested that a student should acquire a total of 90 semester hours or complete approximately three-fourths of his college work in the areas listed below:

Basic Fields

TEACHING

One of the principal aims of the Department of Psychology and Education is the preparation of teachers for the elementary schools and high schools. Full information is available as to the requirements of the state Department of Education, and the Registrar's office cooperates in the filing of applications for certificates. Some of our students go on for graduate work in the university with a view to preparing to teach in colleges and universities.

COURSES OF INSTRUCTION

Courses numbering 100 to 199 are intended primarily for freshmen, 200 to 299 for sophomores, 300 to 499 for juniors and seniors.

The College reserves the privilege of adding courses, or omitting courses the demand for which is not sufficient to justify their being given.

Credit for courses is given in semester hours.

ENGLISH AND SPEECH

English

A *major* in English requires at least 24 hours, not including Freshman English (115, 116) and courses in public speaking and dramatics. Those planning to teach English in high school or to study for advanced degrees in the field should take the following courses as a bare minimum: English 231, 315, 316, 321, 322, 323, 324 and 350. English majors are urged to take History 112 and 221.

The *cognate minor* for an English major is: (1) 16 hours of college Latin, or (2) 16 hours of college Greek, or (3) four years of high school Latin plus six hours of college Latin.

For students to whom English is a foreign language the department may prescribe other appropriate courses in lieu of the normal minor in Latin or Greek.

Students intending to do graduate work in English should have in addition to their minor as strong a background as possible in history and philosophy. Most graduate schools require a reading knowledge of Latin, German and French for the doctorate in English.

Speech

A *major* in speech requires at least 24 hours with 24 hours in one other subject as a cognate major. Suggested cognates are English, philosophy, history, economics, sociology, or psychology. The following speech courses should be included: 221, 224, 125, 239, 240, 331, 337, and 348. One of the following courses may be counted toward the speech major: English 306, English 350, Philosophy 351.

English requirements for all students, irrespective of major. (See "Requirements for Graduation," pp. 41-44). All students must take six hours of Freshman English (115, 116) at the beginning of their college course. Those without sufficient skill in reading, writing, grammar and

spelling to do college work must complete Remedial English (100) without credit in addition to Freshman English.

In order that no student shall receive a degree from the college without a reasonable command of written English, the department will examine every student early in his junior year and prescribe such remedial work as may seem necessary.

GREEK

A knowledge of Greek gives an appreciation of the growth and development of language. It is the only means of direct contact with the great body of literature which contains the germ of many of our literary forms and familiar conceptions. It provides an acquaintance with many root words which have found a place in English and cognate languages. It makes possible reading and interpreting in its original form the basic literature of our modern civilization—the New Testament. Courses 111, 112, 211, 212 satisfy the general foreign language requirements; these with any additional eight hours of courses numbered above 300 form a major. The cognate minor consists of two years of college Latin.

MODERN LANGUAGES

The importance of the study of foreign languages as an aid in scientific research is recognized, but it is also invaluable in foreign trade,

and service, radio broadcasting, and travel. The practical value of foreign languages will be stressed accordingly by scientific readings, phonetic and conversational exercises.

Foreign language study should develop in the student a broader knowledge of human civilization by emphasis on the cultural contributions, the thoughts, and manners of European and Pan-American nations. The importance of this goal in the cause of peace and international good-will can hardly be denied.

It is the aim of this department to enable the student to acquire an efficient reading knowledge and an elementary speaking knowledge of the language studied in the shortest practicable period. At the same time, an effort will be made to develop language consciousness which will result, it is hoped, in a keener interest in sources of English words and an enriched vocabulary.

PHYSICAL EDUCATION

Physical Education 101 and 102 are required of freshmen; 201 and 202 are required of sophomores. No degree is granted until four semesters of physical education have been completed.

INTERCOLLEGIATE ATHLETICS.

William Jewell College is a member of the Missouri College Athletic Association. Intercollegiate sports consist of football, basketball,

track, baseball, tennis and golf. Participation in this program will meet the physical education requirement for the semester during which the student participates.

INTRAMURAL PROGRAM.

The Physical Education Department in its class work lays the foundation for the intramural program through developing an interest and skill in a diversified sports program. The intramural program affords the opportunity for all students to compete in these sports and others in which they may have developed an interest. Intercollegiate athletics remains the highest goal for those who have achieved sufficient skill in intramural athletics.

PHYSICAL EXAMINATION.

All students entering William Jewell College will be required to take a physical examination once a year. No student is permitted to participate in strenuous activities, either in class or on athletic squads under supervision of the school, without such prior physical examination.

PHYSICAL EDUCATION FOR JUNIORS AND SENIORS (not compulsory).

Juniors and seniors are invited to continue their participation in activities that have possibilities for carry-over purposes. Physical education facilities are open to leisure time participants at all times, except when classes are in session in that particular area. Through this means the department aims to provide for the average student an adequate opportunity for physical, mental, and social development with preparation for life-long interests in athletic hobbies.

PROFESSIONAL INFORMATION.

Men students may take a major of twenty-four hours in the field of physical education. Women students may take a minor of sixteen hours in the field of physical education.

Practices and procedures in the field of physical education are based upon a scientific background. The lack of such a background constitutes a deficiency in the professional preparation.

In order for a student to meet the standards for certification in secondary schools in the state of Missouri he must include the following subjects:

Group I—Orientation.

1. Educational Psychology.
2. A general orientation course, such as history or philosophy of education.

Group II — Methods.

1. General techniques or methods in high school teaching.
2. Special techniques in one teaching field.
3. A general administration course for teachers.

Group III — Teaching.

1. Student or apprentice teaching, five semester hours.

A physical education major is 24 hours chosen from the following: 211, 221, 222, 281, 241, 282, 391, 392, 301, 332, 322, 351, 311. (The above listed courses total more than 24 semester hours. It is suggested that students majoring in physical education take as many of the additional hours as possible.)

The following courses are required for a physical education minor: 211, 241, 281, 332, 322, 311, 301.

GIFTS AND BEQUESTS

Gifts and bequests of money, securities, or real estate are gratefully received by William Jewell College. Many additions have thus been made to the resources of the institution.

To serve the college in this way it is not necessary to make a large bequest. There are doubtless many who without injury to family or other interests could bequeath \$500, \$1,000, \$5,000; and some who might bequeath a much larger sum.

A will must be signed by the testator in the presence of at least two disinterested witnesses. Three witnesses are preferable and in all states sufficient. It is advisable to ascertain the requirements of the law in the state in which the testator resides.

FORM OF GENERAL BEQUEST

I hereby give and bequeath to the "Trustees of William Jewell College" and to their successors forever for the use of said institution in the fulfillment of its general corporate purpose _____

 (State here the sum of money to be given or describe the property or securities constituting the bequest.)

FORM OF BEQUEST FOR A PARTICULAR PURPOSE,
DESIGNATED BY THE TESTATOR

I hereby give and bequeath to the "Trustees of William Jewell College" and to their successors forever in trust the sum of _____

 (State here the sum of money to be given or describe the property or securities constituting the bequest.)
to be used as follows _____

 (Indicate here whether the gift is to be used for endowment, buildings, or current expenses.)

ANNUITIES

William Jewell College accepts sums of money from \$500 upward on the annuity basis, paying interest thereon during the life of the

donor. The plan has distinct advantages. The donor has the satisfaction of having aided a worthy cause. At the same time he receives an income from the gift during his life. This income is usually larger than could be obtained through other secure investments. The safety of the principal is absolutely assured. The donor is assured also of the fulfillment of his own wish in the manner of the disposition of the gift. Finally when the recipient or recipients of the annuity payments have passed on, the principal continues to work, providing income for the needs of the institution. The giver "though being dead, yet speaketh."

Correspondence regarding gifts, bequests or annuities is solicited, and will receive the prompt attention of the President.
