ORIENTATION FOR FRESHMEN AND TRANSFERS

During the week of September 16 to 20, a program consisting of tests, lectures, registration and social activities introduces the new student to William Jewell College life. *The first standardized test will be given at 8 a.m. Monday, September 16th, in Marston Hall.* Students from outside Liberty should arrive not later than Sunday afternoon, September 15. Residence halls will open Saturday afternoon.

Reservations of rooms in the residence halls should be made at time of application for admission. Freshmen not living at home are required to live in the residence halls.

WILLIAM JEWELL COLLEGE AND VETERANS

For fourteen years the college has had veterans in the student body. A special plan provides reasonable credit for military service when applicable to the A.B. degree.

William Jewell is certified to enroll students under Public Law 550, which provides for veterans who have served during the Korean emergency. Veterans planning to enter under the provisions of this act should present a certificate of eligibility.

STANDING OF WILLIAM JEWELL

William Jewell College is accredited by the North Central Association of Colleges and Secondary Schools, and is also approved by the Association of American Universities, and the American Association of University Women.

CHRISTIAN EDUCATION

The ideal of Christian education was uppermost in the minds of the founders of William Jewell College, and that ideal has inspired their successors throughout its history of more than a century. To implement this ideal it has a Christian administration and a Christian faculty. It is concerned that the personal lives of the teachers in every relationship shall exert a positive Christian influence, and that the program of Christian activity which involves student participation upon a voluntary basis shall offer opportunity for growth in Christian life and character. The only required features are regular attendance at Chapel and a two-semester course in the Bible.

OPPORTUNITY FOR SELF-HELP

Many students earn part of their expenses while in college by working on the campus, in the dining-halls, and in the library. Part time employment is provided also by a number of business firms in or near the city of Liberty. Students desiring this service should write to the Dean of Students who will furnish an application blank. Early application is desirable because such openings are limited.

WILLIAM JEWELL: A LIBERAL ARTS COLLEGE

By WALTER POPE BINNS, President

William Jewell College is committed to liberal arts education under Christian auspices, privately supported, with a limited student body.

The function of the college is to give broad liberal education as preprofessional training, preparing the students for graduate studies in the universities or for business careers. Culture and comprehension must keep pace with development of technical skill if we are to solve the problems or control the inventions of a new scientific age.

Liberal arts education endeavors to produce cultured, educated men and women for every profession, the intellectual and moral leaders of a democratic society. Such education is concerned with scientific efficiency and also with value judgments.

There is a distinctive service to be performed by the small college. The essential technique of education is to bring the eager, aspiring student into contact with the communicating personality of the highly trained and dedicated teacher. It is the limited enrollment which makes possible this closer contact between faculty and students, and also makes possible an acquaintance and fellowship between the students themselves.

William Jewell College is a Christian college affiliated with the Baptist denomination, which means that the administration and faculty are openly and actively committed to Christian faith and practice. There is no religious requirement for the admission of students.

CHAPEL

One of the cherished traditions of the college is the general assembly of all students and faculty members in the John Gano Memorial Chapel at a designated time for worship services. These exercises are held from 9:40 to 10:15 A.M. on Tuesdays, Wednesdays, and Thursdays. This convocation has distinct values in the development of school spirit, in cultivating fellowship, and in ministering to the religious needs of both students and faculty. Except on some special occasions the exercises are distinctly worshipful in nature. Along with the singing of hymns, the reading of the Scriptures and prayer, a brief address is given, usually by the president or some member of the faculty. Frequently this address is given by a distinguished visitor. At regular intervals the students present the program. While attendance is required of all students, just as in class work, the spirit of the service is such that students participate in it cheerfully and heartily.

ACHIEVEMENT DAY

Annually William Jewell College sets aside the second Thursday in November as Achievement Day. This day has a two-fold purpose: 1. To honor a group of five representative alumni who have achieved distinction in various fields of endeavor. 2. To set up an educational forum by which members of the student body can receive inspiration and advice from those alumni who are leaders in fields in which the students themselves may plan to build their careers. "Citations for Achievement" are awarded the five alumni at a formal convocation, and in the evening they are guests of honor at a banquet at the Hotel Muehlebach in Kansas City, at which the speaker is a distinguished non-alumnus who has received an honorary degree at the morning convocation.

The five alumni chosen for this honor are selected by a special committee composed of seven members, three from the faculty appointed by the president of the college, two trustees appointed by the president of the Board of Trustees, and two alumni appointed by the president of the Alumni Association. Those called back to their *alma mater* November 8, 1956 were Clovis McWilliams, 1931, St. Joseph, Mo.; Randall Jessee, 1933, Kansas City; Dr. Herbert C. Jackson, 1939, Louisville, Ky.; John Wesley Reed, 1939, Ann Arbor, Mich.; Everley Hayes, R.N., 1944, Java, Indonesia. The speaker at the banquet was H. Roe Bartle, mayor of Kansas City, Mo.

LIBERTY AN IDEAL COLLEGE TOWN

William Jewell College has been located, since its founding, in Liberty, a historic Missouri town, incorporated in 1822, the year after Missouri was admitted into the Union. Settlers here came from Virginia and Kentucky. Here a generation later the wagon trains outfitted for the California gold rush. It is a cultured community, largely residential. A small town with a population of about 6000, Liberty is located only fourteen miles from downtown Kansas City.

Liberty is located on three railroads: the Burlington, the Rock Island and the Milwaukee. It is reached also by highways 71, 69, 10 and 33. Greyhound Bus Lines furnish frequent and adequate bus service with Kansas City.

KANSAS CITY NEARBY

The skyscrapers of the city can be seen from the campus. Here on both sides of the Missouri River, is the Heart of America, one of the great metropolitan areas of the Middle West, one of the fastest growing and most diversified industrial centers in the nation. More than a half million people live in Kansas City, Missouri, Kansas City, Kansas, and North Kansas City, Missouri. It is one of the important railroad centers of America. Its great airports are crossroads of the world. The finest and best in entertainment come to Kansas City. The Nelson Art Gallery is one of the most famous in the United States.

EXCELSIOR SPRINGS

One of the greatest watering resorts of the world is located fifteen miles from the campus. People from all over the United States and some foreign countries come to Excelsior Springs to use its mineral waters which are serviced by an elaborate million dollar system. An eighteen hole golf course is available to undergraduates and is the home course for the college golf team.

HISTORICAL SKETCH

Soon after its organization in 1835 the Missouri Baptist General Association took the initial step for the establishment of a college for young men. No definite action was taken until 1843, when Dr. William Jewell of Columbia, Missouri, made to the General Association the conditional offer of land valued at ten thousand dollars as a nucleus for the building and endowment of a college. The offer was not accepted until 1848. The legislature granted a charter which was signed by the Governor February 27, 1849.

In accordance with the terms of this charter the subscribers to the building and endowment funds met in Boonville for the purpose of

selecting a location and deciding upon a name for the institution. After an animated contest, the town of Liberty — county seat of Clay County — was selected and the institution was named William Jewell College.

The College was opened to students (in the old Liberty Academy) on January 1, 1850, with Rev. J. S. Dulin as Principal and Professor of Ancient Languages and Rev. T. F. Lockett as Professor of Mathematics. Dr. Dulin served as Principal until the close of the session of 1851-52 when, because of financial embarrassment, the College became a private institution for a period of one year.

In 1853 the trustees resumed full control and called to the presidency Rev. R. S. Thomas from a professorship in the State University at Columbia. This administration continued until the summer of 1855, when new financial trouble caused the suspension of college work for the next two years.

The College reopened in the fall of 1857 under the presidency of Rev. William Thompson, LL.D., a graduate of the University of Edinburgh, a scholar of distinction and one of the most brilliant orators of his day.

During the Civil War the College was again forced to suspend classes for a period. For a part of this interim, Jewell Hall was in the hands of Union soldiers who used its second story to house their wounded and used the first floor as a stable for their horses. A monument erected by the class of 1931 marks the location of a battle trench on the slope of the campus north of the Library.

Other presidents since Dr. Thompson and the year they began their service are Rev. Thomas Rambaut 1867; Prof. William R. Rothwell as Chairman of the Faculty 1874; Prof. James Clark as Chairman of the Faculty 1883; Dr. John Priest Greene 1892; Dr. David Jones Evans 1920; Dr. H. C. Wayman 1923; Dr. John F. Herget 1928; Dr. H. I. Hester as interim President for 1942-43; Dr. Walter Pope Binns 1943.

In 1917 the first women students were admitted and in 1921 the College became officially coeducational.

In December, 1942, arrangements were made to set up a Naval Flight Preparatory School as a part of the war effort in World War II. The School operated from January 1, 1943, to October, 1944, and trained a total of 2983 aviation cadets in a three months course of instruction.

In July, 1944, a Naval Refresher Unit was established on the campus. Enlisted men were given "refresher" courses in Physics, Mathematics, English, and History. A total of 728 navy men were enrolled. This School, like those in other colleges, was discontinued after the close of the war.

CAMPUS TOUR

William Jewell College is located on a campus of one hundred six acres of wooded upland just within the northern and eastern corporate limits of Liberty. All the roads on the campus are newly graded and hard surfaced. The student who is a newcomer will wish first to survey the buildings on the College Hill.

CHAPEL

The John Gano Memorial Chapel was named in honor of the Reverend John Gano, who established the First Baptist Church in the city of New York and served as the famous "fighting chaplain" in the army of George Washington. The auditorium seats 1100 persons. It is equipped with a Hammond electric organ. It has a large stage for dramatic and musical productions. Facing the foyer on the main floor and also on the second floor are the studios and practice rooms of the department of music. Below the auditorium and reached by an outside entrance on the east is the William Jewell Press. On the same level but with entrance on Mississippi street are the practice room of the William Jewell Band and the office of the Director.

GYMNASIUM

East across the driveway from the chapel is the Brown Gymnasium. This thoroughly modern building contains a maximum-sized basketball court with spectators' galleries, a corrective gymnasium, adequate shower and locker facilities for the entire student body, a tile-finished swimming pool, handball courts, directors' and coaches' offices, and a lecture room. The lobby is furnished as a lounge for the students. The "J" Club room is adjacent to the coaches' offices.

THE LIBRARY

The Andrew Carnegie Library, south of the chapel on the west side of the walk, houses 75,221 volumes. In the large reading room may be found encyclopedias, dictionaries, and other reference books. The reading room receives regularly 396 periodicals elected for the purpose of supplementary reading in the various departments of the college. Ninety-three of the important magazines are bound in volumes covering many years. These are accessible to students.

The library and reading room are open as follows: *Monday*, 7:50 A.M.-5:20 P.M.; *Tuesday, Wednesday and Thursday*, 7:50 A.M.-5:30 P.M. and 7:15-9:45 P.M.; *Friday*, 7:50 A.M.-5:30 P.M.; *Saturday*, 8:30 A.M.-11:50 A.M.

The library receives United States government publications regularly, and these pamphlets, periodicals, and books are classified and catalogued, furnishing much authoritative material on contemporary subjects.

Charles Haddon Spurgeon's private library of 7,000 volumes, which was purchased for the library in 1906, is kept on the shelves as a separate collection. It is especially useful in the study of Puritan and sixteenth century literature.

Other collections in the library are the "Dr. Louis M. Mertins Collection" of signed manuscripts, first editions, and holographs; the "Ted Malone Collection of Poetry"; the "Hubmaier Collection," photostatic copies made by Dr. W. O. Lewis of the complete writings of Dr. Balthasar Hubmaier, the great Anabaptist reformer; and the "John F. Herget Limited Editions Club Collection." The archives of the Missouri Baptist Historical Society are also housed in the library.

JEWELL HALL

Jewell Hall, described in *The Missouri Guide* as an outstanding example of Classical Revival architecture, contains the lecture rooms of language, literature, philosophy, religion, history, economics, sociology, psychology and education. The interior of this building was completely modernized in 1948. Two class rooms are provided on both the north and south wings on each floor. In the center section connecting the two wings there is a corridor, one large class room (two on the first floor), and offices for professors.

MARSTON HALL

Marston Science Hall, standing on the southern point of "The Old Hill," contains the classrooms and laboratories of biology, chemistry and physics. Here are also the classrooms for mathematics and the laboratory for experimental psychology. This building was thoroughly renovated in 1953, and the most modern scientific equipment installed, at a total cost of \$130,000. It is of fireproof construction throughout and especially designed for science work.

The College Museum, on the fourth floor of Marston Hall, is made up of several cases of foreign relics collected by various missionaries, many items of historical interest, and a large collection of specimens of natural history used in science classes. Many of these cases have recently been rebuilt in order to make the specimens more readily visible. Missionary collections and mammals are in cases in the hallways, representative birds in wall cases around the large lecture room and

the historical and geological collections are in cases in an adjoining display room.

The College Herbarium contains about 20,000 specimens of plants collected from all 48 states and more than forty foreign countries.

An area of about five acres has been set aside on the north side of the campus for biology experiments and an arboretum. At present, there are about fifty species of trees, a half-mile of multiflora rose hedge and other shelter for wildlife in the area. Classes in biology and conservation have set up several permanent long range experiments. Here the students have an opportunity to learn ecological methods and conservation practices under actual field conditions.

OLD ELY HALL

East, across the walk from the library, is Old Ely Hall, a historic, three-story brick structure. The building is now used as a residence hall for men.

GREENE HALL

On the east slope of the hilltop and facing the west is the new administration building. The cornerstone was laid in 1948, and it was occupied in the summer of 1949. This building is a memorial to President John Priest Greene and is the gift of Mr. W. D. Johnson, for many years member of the Board of Trustees and its president for a quarter of a century. Greene Hall brings together and adequately houses all the administrative offices of the college. It also provides an assembly room for meetings of the faculty, of the trustees, of alumni and other such groups. The building has fire-proof vaults for college records.

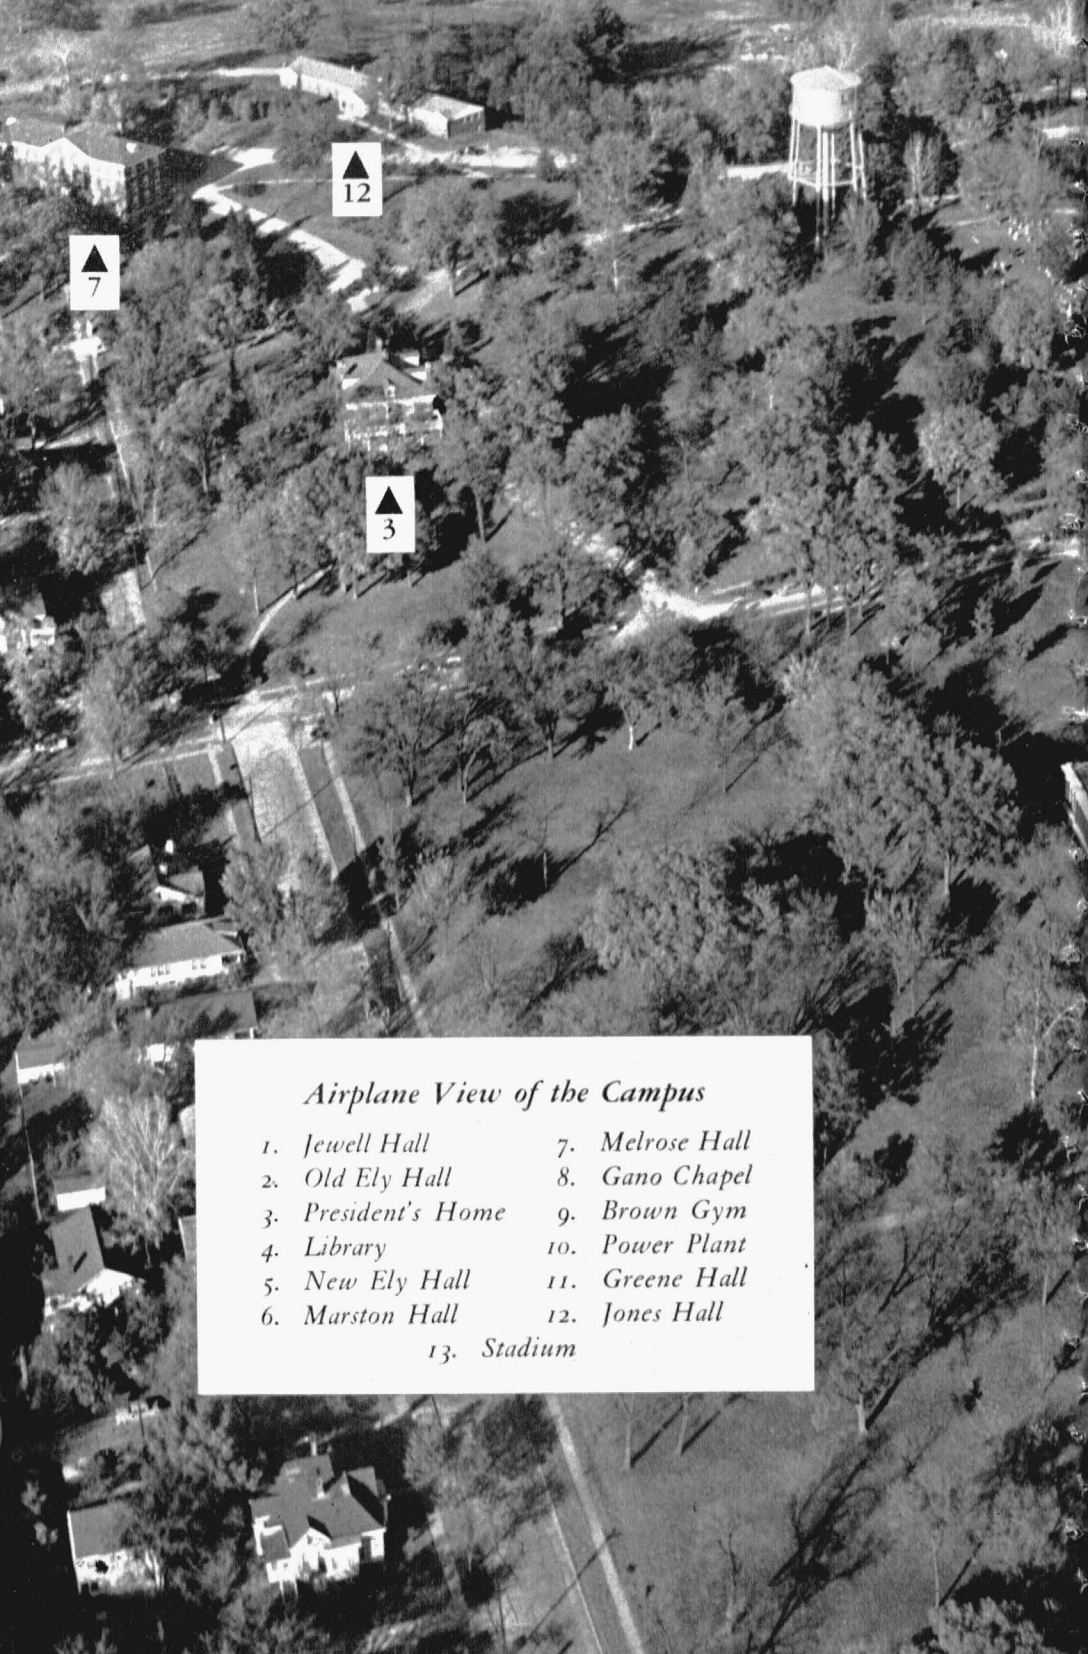

HEATING PLANT

A modern central heating plant standing north of the gymnasium, was erected at a cost of approximately \$170,000, and has been in use since 1947. Housed in this building are also the shops of the college carpenter, plumber, electrician and other men entrusted with the maintenance of college buildings, equipment and grounds.

THE PRESIDENT'S HOME

The President's Home, only a "stone's throw" from the quadrangle and set in a beautiful wooded lawn, was built originally for President Greene. After the beginning of World War II it served in emergency for women's dormitory, then as class room building, and finally as quarters for the music department before the removal of that department to Gano Chapel. Renovated and remodeled, the building again

serves its original purpose, and President Binns is able to live on the campus in the traditional president's home.

MELROSE HALL

Melrose Hall, a residence hall for women, stands on a wooded hilltop northwest of the President's Home. It contains accommodations for eighty women as well as a modern recreation room, and an infirmary supervised by a resident nurse.

MINISTRY JONES RESIDENCE HALL FOR WOMEN

The summer of 1953 the college built on the slope east of Melrose a new residence hall to accommodate thirty-eight women. It is of brick construction, completely modern, with generous lounge areas and kitchenettes.

NEW ELY HALL

On the southeast of the drive that leads from Melrose Hall back to the quadrangle, and just north of the gymnasium, is New Ely Hall, a residence hall for men. This building accommodates 136 men.

ATHLETIC FIELD

The athletic field of twenty acres is southeast of the gymnasium. It contains a quarter-mile and a 220-yard straightaway cinder track, and the football field. The field is lighted with flood lights for night games. Tennis courts are provided near the gymnasium. The college has recently constructed a grass green for individual instruction in golf.

STADIUM

Built in 1955 at a cost of \$91,000, the William Jewell Stadium is located on the west side of the football field. There is a heated press-box atop the structure and below are concession stands, rest rooms and squad room for the visiting team. The stadium is 66 x 220 and on 32 rows of seats accommodates 4500 spectators. Additional stands across the field make the total seating capacity more than 7000.

COLLEGE UNION

The College Union is located for greatest convenience west of Gano Chapel and north of the Library. Construction was begun in the fall of 1956 and it is to be completed for the college year 1957-58. Here will be found the center of college social life. It will house the entire food service, the Snack-Bar, and the Co-op Book Store. There will be ample room for rest and relaxation, for informal discussion groups, and a combination auditorium and social hall. The Student Senate, the student publications (*The William Jewell Student* and the *Tatler*),

and the Student Activities Committee will have their offices in this building.

NEW RESIDENCE HALL FOR WOMEN

A new residence hall for women is under construction between Melrose Hall and Jones Hall. This is expected to replace the four resident houses near the campus which have been owned and operated by the college, and to accommodate fifty additional students. It is planned for occupancy in September, 1957.

REDUCED TUITION

William Jewell College extends the courtesy of reduced tuition to properly accredited students for the ministry and missionary service and their wives, to unmarried sons and unmarried daughters of ordained ministers, and to young women approved by their church as students who are committed to full time Christian work as a vocation. Sons and daughters of foreign missionaries receive tuition free. These students are all charged the same fees as other students.

A meeting of all ministerial and missionary students is held at the opening of the session. A special committee of faculty members and

denominational leaders confer with each new student concerning his Christian experience and his call to special Christian service. Each student for the ministry must present his ordination papers, or a license to preach, properly issued by the church of which he is a member. Young women who have publicly committed themselves to full time Christian work as a vocation must present a statement to this effect issued by the pastor or some official of the church of which they are members. The special committee will authorize the reduction in tuition in each case where the requirements are satisfactorily met.

Each ministerial student signs a pledge at the time of registration that should he for any reason fail to adhere to his purpose of giving himself to full-time Christian service he will repay the college for the aggregate amount of reduction in tuition given him as a ministerial student.

REQUIREMENTS AND ARRANGEMENTS FOR ADMISSION

REQUIREMENTS

1. Graduation or the equivalent of graduation from a fully accredited high school with not less than 15 units exclusive of physical education will admit a student to William Jewell College without condition, provided he ranks in the upper half of his class. Individual consideration is given to veterans who do not meet the above requirements. General Education Development tests may be administered at the discretion of the Admissions Committee.

2. Of the 15 units required for entrance, three units must be in English, at least eight units should be from other academic subjects such as foreign languages, mathematics, natural sciences, and social sciences, and 4 units may be from non-academic subjects accepted for graduation from high school. Students who intend to enter William Jewell College are strongly urged to take two units of one foreign language and two units of mathematics.

3. Cumulative Standard test records will be carefully considered with any applications for admission to William Jewell College. Such records, to be of most value, should cover the three most recent years of the candidate's school life, provide information concerning the candidate's intellectual capacity, and include an accurate record of results of comparable measures of achievement in school subjects. Data obtained from all tests should be interpreted in authenticated comparable terms, such as well established public or independent school percentiles.

4. The student entering William Jewell College should also have recommendations from the high school principal and from one other responsible person. The College will endeavor to secure all possible information concerning personal characteristics as a criterion for judging candidates for admission. The College reserves the right to refuse admittance to a student whose high school record or moral life seems to make him unfit for college life.

5. The student coming from another college must provide an honorable dismissal from the college last attended, and also a transcript of credits. These credentials should not be presented by the student himself but should be sent directly by mail from the college issuing them.

6. Veterans at the time of enrolling should have their Certificates of Eligibility and Entitlement.

ARRANGEMENTS

1. Make application to William Jewell College upon application blanks secured from the Director of Admissions, William Jewell College, Liberty, Missouri. All applications will be formally passed upon by the faculty committee on admissions. Applications must be accompanied by a deposit of \$20.00 which will be returned if the application is rejected.

2. Ask Director of Admissions to reserve room for you in residence hall. The above application fee covers this reservation.

3. Have transcript of high school credits, or credits from other colleges, together with letters of recommendation sent directly to the Director of Admissions.

4. Note in College Calendar in the front of this Catalog the dates for your arrival, for orientation, registration and the beginning of class work.

LATE REGISTRATION

An extra fee of three dollars will be charged for registration after the dates indicated in the college calendar.

In addition to the three dollars charged for late registration an additional charge of three dollars will be made for settlement of the whole amount of charges for the semester's expenses after the dates indicated in the college calendar.

ADVANCED STANDING

When a student transfers from another college, advanced credits will be allowed, in general, only for those courses which the student would have taken if the work had been done at William Jewell College. The average grade for advanced standing must not be less than C, and all transfer students are expected to maintain at least this average after entering William Jewell College. Only in exceptional cases will students be allowed more than sixty semester hours for junior college credit and never more than sixty-two.

Any student who wishes to register later than five days after the dates set forth in the catalog must obtain permission from the Dean of the College. Students enrolling for the first time may have the privilege of registering as late as two weeks after the beginning of classes by obtaining, in addition to the dean's permission, the approval of the professors under whom they expect to study. These provisions, however, do not cancel the extra fees for late registration or late settlement of charges mentioned above.

All students who have credits from other colleges must complete the entire senior year (minimum, thirty semester hours) at William Jewell in order to receive the degree from this institution.

The Dean reserves the right to withhold advanced standing until the student shall have demonstrated his scholastic ability in William Jewell College.

REQUIREMENTS

There are certain requirements which all students must fulfill in order to obtain a degree from William Jewell College. In keeping with the purpose of a liberal arts college, these requirements are of two kinds, (1) the specific major courses, and (2) the general education requirements which have a certain uniformity for all students.

1. Every student must choose a major. Upon entering college he is assigned to a member of the faculty as an adviser in planning his course of study. When he has chosen his major, which is usually done by the beginning of the sophomore year, the head of that department at once becomes his advisor and confers with him as he decides what courses are required for graduation or are advisable in view of his plans for his life-work. A major varies from twenty-four to forty semester hours, depending upon the subject chosen, taken in regular sequence. In the junior or senior years the greater part of the student's work should be taken in courses numbered 300 or above. The rest of his schedule should consist of courses numbered above 200. Courses for credit toward a major must be passed with a grade of C or better. All seniors are required to pass a comprehensive examination in their major field. They are also required to take the Graduate Record Examination the fall preceding the completion of their work, whether that is June, August or the following January.

2. Every student is required to take six semester hours of Freshman English during his freshman year. During the Orientation program, every entering student will be required to take an English placement

test. If the results of this test warrant it, the student will be required to take a course in Remedial English without credit. In order that no student of the college shall be graduated without a reasonable command of English grammar, spelling, pronunciation, composition and good usage, every student must pass the *Upper Class English Examination* before graduation. Details such as tests, time of examinations, and passing marks are in the hands of the English department with the advice of a special faculty committee. Remedial courses are provided for those failing examinations. All transfer students must pass this examination irrespective of advanced standing.

3. Every student is required to take Speech 101 and 102 during the freshman year.

4. Physical Education 101, 102, 201, 202, are required, and should be taken, two in the freshman and two in the sophomore years.

5. Four semester hours of Bible History, Religion 111, 112, are required for graduation. These should be taken, if possible, in the freshman year.

6. Every student is required to take sixteen semester hours of one foreign language. An optional foreign language proficiency test may be taken, which will be the equivalent of a second year final examination and which will permit the student who can pass it to be excused from further courses in a foreign language or allow him to enroll in a course of third year language. A proficiency test, equal in difficulty to that expected upon completion of ten semester hours of the language in college, may be required of all students presenting two units of high school language before they are permitted to continue that language.

7. Every student is required to complete a minimum of fifteen semester hours from Group II, Mathematics and Natural Sciences, selected from at least two departments.

8. Every student must complete fifteen semester hours from Group III, Social Sciences, selected from at least two departments.

9. Every student must complete ten semester hours from Group IV, Humanities, including the four hours of Bible History.

10. Should the student's major be in any of the Groups represented by 7, 8, 9, above, it shall be considered as fulfilling the general requirement in that group.

11. All other work necessary to make 124 semester hours for graduation is elective. As many of the general requirements as possible should be met in the student's freshman and sophomore years.

12. The maximum amount of credit toward his graduation that a student may receive in one department is forty semester hours.

13. Any senior having fulfilled all other requirements for graduation with his class except eight semester hours of credit or less, may, by permission of the faculty, do this work *in absentia*, and thereupon be graduated as of his class, provided he completes his deficiency before February 1 of the following year. This work may be done by correspondence in some reputable institution or in residence in some other college or university of recognized standing. Such a student may participate only in the graduating exercises of the class following the completion of the work, but will be graduated as of his own class. The last year's work for graduation must be done in William Jewell except as above provided.

14. A student having completed in William Jewell College the required work for graduation may, with the approval of the Faculty in advance, finish the work for the A.B. degree by one year of satisfactory work done in a professional school of recognized standing. This privilege will not be granted to a student of low scholastic ability or one having more than a normal year's work to complete for graduation.

15. Students planning to enter a graduate school are advised to take French and German.

GENERAL REGULATIONS

CLASSIFICATION OF STUDENTS

To be classified freshman a student must present 15 units of high school credit as described in Requirements for Admission.

To be classified sophomore a student must have earned at least 24 semester hours of college credit and 48 grade points.

To be classified junior a student must have earned at least 60 semester hours of college credit and 120 grade points.

To be classified senior a student must have earned at least 90 semester hours credit and 180 grade points.

GRADING, EXAMINATIONS, AND GRADE POINTS

1. Grades are expressed by the letters A, B, C, D, F, and W. The first four letters indicate grades ranging in order from 100 percent down to 60 percent. F. means failure. WP means withdrew passing, WF withdrew failing.

2. Each grade has a grade-point value, as follows: A, 4 grade points per credit hour; B, 3 grade points per credit hour; C, 2 grade points per credit hour; D, 1 grade point per credit hour; F, no grade points. Scholastic averages are computed upon the basis of hours attempted and the total number of grade points earned. For graduation the total number of grade points must be double the number of hours attempted (an average of C).

3. In order to be admitted to final examinations a student must have acquired a class grade of at least D. In order to pass a course the student must make at least D on his final examination. The semester grade is made up by averaging the grade of class work and the grade of final examination, the latter to count not less than thirty percent and not more than fifty percent. No second examinations are permitted because of failures, except that a senior may be granted one re-examination as a senior privilege.

4. College students average 16 class hours of work per week. Those carrying less than 12 hours of work per week are classified as special students and their tuition is determined by the number of semester hours for which they register. Those carrying more than 18 pay an additional fee per hour. According to government regulation college students cannot be classified for selective service deferment if they are registered for less than 14 semester hours.

CHANGE IN REGISTRATION

Upon application to the Registrar's office and with the approval of his advisor and the instructor in any course he wishes to enter, a student may, upon payment of one dollar, modify his schedule of studies by addition or substitution of courses within two weeks after the start of classwork. No student may enroll for any course after two weeks have elapsed. No change of registration is completed until notification has been sent from the Registrar's office to the instructor concerned.

A student may withdraw from a course within six weeks following the beginning of class work, by applying to the Registrar and getting the approval of his advisor. Thereafter, the dropping of a course by a student shall entail for him a grade of "F" for the course.

WITHDRAWAL FROM COLLEGE

If a student should find it necessary for any reason to withdraw from college, he must file with the Registrar the regular withdrawal form which he will obtain from the office of the Dean of Students. Otherwise he will receive a grade of F in all his courses.

HONOR ROLL

To have his or her name appear on the Semester Honor Roll, the student must (1) have no grade in any subject less than C; (2) have an average of 85 percent or above obtained by the following formula

$Q = \frac{gp}{2(h+n)}$, in which gp = total grade points earned, h = number of hours attempted, and n = 16 + the numerical difference between h and 16. By this formula no student registered for fewer than 14 semester hours can make the honor roll and no student registered for fewer than 16 hours can have an average of 100 per cent.

QUALITY OF WORK

A student is expected to secure each semester at least twice as many grade points as the total number of hours for which he is registered.

At the end of the first six weeks a report is made of all freshman students who are doing unsatisfactory work in any class or classes. At the end of the ninth week a report is made of all students doing unsatisfactory work in any class or classes. The dean receives such reports and takes such steps as are advisable in each case.

Whenever the quality of a student's work declines to such an extent that his graduation in due course seems improbable, he and his parents are so informed.

For a student to remain in college he must

1. At the end of his second semester have a minimum grade point average of 1.0.
2. At the end of his fourth semester have a minimum grade point average of 1.5.
3. At the end of his sixth semester have a minimum grade point average of 1.8.

INCOMPLETE WORK

If at the close of any semester a student's grade is reported as "Incomplete," he must make up the deficiency by the end of the ninth week in the semester following the occurrence of the incomplete grade or the incomplete becomes a grade of F, except by the vote of the faculty.

CORRESPONDENCE

The College will not accept for graduation work done by correspondence from any institution except one of high standing, having regularly organized correspondence departments, and then for no more than 10 semester hours. No credit may be allowed by correspondence

toward a major except by consent of the head of the department and upon approval of the faculty.

STUDENT CONDUCT

It is assumed that every student matriculating in William Jewell College agrees to conduct himself in a manner conducive to the highest sort of mental and moral development. The faculty reserves the right to send any student home whose habits are considered inconsistent with the ideals of the institution.

CLASS ATTENDANCE

Students are expected to attend classes regularly.

The student must understand that he assumes full responsibility for all his work. Work which he has missed because of absence may be made up at the convenience of his instructor upon presentation to his instructor of a satisfactory excuse.

Each absence on the day immediately before or after a regularly scheduled holiday or vacation counts as three absences.

CHAPEL ATTENDANCE

Chapel services are held Tuesdays, Wednesdays, and Thursdays every week during the school year, except during final examinations. Attendance upon these services is required.

REGULATIONS FOR RESIDENCE HALLS

1. In accordance with the practice of the most progressive educational institutions, all freshmen not living at home are required to live in the college residence halls.
2. All non-resident young women will be expected to live in one of the college residence halls for women or in other houses provided by the college unless permission to room elsewhere is secured from the President of the college or the Dean of Women.
3. Students living in any of the residence halls are expected to furnish their own bed linen, blankets, towels and curtains.
4. Major problems arising in the residence halls are referred to the Deans and the Discipline Committee. If it should become necessary to dismiss a student from a residence hall on account of misconduct, his future relations to the College will be determined by the faculty.

STUDENT PERSONNEL SERVICES

The Personnel department of William Jewell offers its services to all students in educational, vocational, and personal counseling. Every

student who enters the college takes aptitude tests designed to help him discover in what way he may most satisfactorily direct his efforts. On the basis of these tests and their academic records, the advisors and dean can assist students in selecting courses of study. The student can also receive assistance in determining occupational goals for which he appears to have abilities and interests.

EDUCATIONAL GUIDANCE

The Dean of Students assigns each freshman to a faculty member who acts as an advisor until the student chooses a major. At that time the head of the department becomes the advisor. The student thus secures the counsel of the head of the department until the time of graduation. In addition, the President, the Vice-President, the Dean of the College, the Registrar and the Dean of Students give their counsel at any time to those desiring any kind of assistance.

HEALTH SERVICE

William Jewell College recognizes that the health of her students is an important factor in student morale and that the college is obligated to provide certain facilities for the protection of the general health of the student body, but cannot provide for the care of an individual student. The college physician supervises the health program. The services of a college nurse are available to all students at designated hours of each day.

Each new student is required to present a record of a physical examination before attending classes. The physical examination blanks will be provided by the college.

Accident and sickness expense protection is available to all students. This plan insures all full-time students and is in effect for the nine-months school year. The cost for this protection is a responsibility of the individual student. The proximity of the college to Kansas City makes it possible to have any student affected with serious illness quickly transferred to an excellent hospital.

STUDENT ACTIVITIES

The program of student activities is a part of the personnel program and is administered by the Director of Student Activities and the Student Activities Committee. The Student Activities Committee is a student-faculty committee with student representation from all major campus organizations. All-school projects and activities, all-school parties, and the annual organizational sing are sponsored by this

committee. The interests of all students are carefully considered in planning these activities.

The center of student activity on the campus is the College Union building. The College Union has a lounge, snack bar, game room, book store, committee meeting rooms, commuting student facilities. Ping-pong, radio-phonograph sessions and television are some of the every day activities. The facilities are in constant use throughout the day and evening.

PLACEMENT SERVICES

Placement services are available to all students who desire help in finding permanent employment. Personnel officers from many companies come to the campus for the purpose of interviewing students. Students who desire help in securing employment are urged to report to the personnel office at least four months before they desire to find full time employment.

PART TIME EMPLOYMENT

Many students earn part of their expenses while in college by working on the campus, in the dining halls, and in the library. Part time employment is provided also by a number of business firms in and near the city of Liberty. Students desiring this service should write to the Dean of Students, who will furnish an application blank. Early application is desirable, because such openings are limited.

PREPARATION FOR SPECIAL FIELDS

As has been stated elsewhere in this catalog, William Jewell College is committed to a liberal arts education. The college recognizes, however, that many students wish to select their courses with a definite view to preparation for a special field or profession. Some suggestions are offered in the paragraphs which follow:

ARTS AND SCIENCES (Graduate Study)

William Jewell College is fully accredited by the North Central Association of Colleges and Secondary Schools and approved by the Association of American Universities, so that graduates with the Bachelor of Arts degree may with full credit continue their work in Graduate Schools.

The student is advised to study the catalog of the graduate school that he expects to attend in order that he may plan his course of study so as to meet the special requirements of the specific school. The Dean of the College, the Dean of Students, and the student's major professor should be consulted with regard to planning a program of studies leading to graduate work. Students who expect to attend graduate schools must have a high scholastic average.

BUSINESS

Many students are interested primarily in business administration. The aim of the Department of Economics and Business Administration is to offer opportunities for both cultural and preprofessional training in the fields of economics and business administration. A further aim is to equip students with a well rounded knowledge of the dynamic character of economic society and the responsibilities that are placed upon men and women in the field of business. This gives the student a wide perspective for specific training in a particular business after graduation or for further graduate study.

DENTISTRY

The general course requirement for entrance into a college of dentistry is at least two full years of work in an accredited college of liberal arts, comprising not less than 60 semester hours. The quality of the student's scholastic record must be good.

The student should consult the catalog of the school he plans to enter. However, the required courses usually include: English, 6 to 8 hours; zoology, 8 hours; physics, 8 hours; inorganic chemistry, 10 hours; and organic chemistry, 5 hours.

Other subjects should include courses intended to broaden the intellectual background of the student, an important factor in professional life. Recommended elective subjects include advanced courses in English, history, foreign language, psychology, economics, philosophy, sociology, and political science.

ENGINEERING

William Jewell College is one of a limited number of liberal arts colleges which have entered into an agreement with Columbia University to participate in a combined plan whereby the student may, by spending three years in college and two years in the Columbia University School of Engineering, receive the A.B. degree and the B.S. degree in engineering upon the completion of his work.

William Jewell College has also entered into a "three-two" plan of engineering with the Missouri School of Mines and Metallurgy at Rolla, whereby the student spends three years at William Jewell College and two years at Rolla, and receives the A.B. degree from William Jewell College and an engineering degree from the Missouri School of Mines and Metallurgy.

Details of these combined plans may be learned by writing the Director of Admissions, Dept. E.S., William Jewell College, Liberty, Missouri.

A pre-engineering program is designed to prepare for the leading engineering schools. However, the student should consult the catalog of the engineering school he expects to enter, to meet its specific requirements.

Students who expect to receive an A.B. degree before entering an engineering school should major in physics, chemistry, or mathematics, their choice depending upon the type of engineering, as Electrical, Chemical, or Mechanical.

A suggested program of studies for the first two years is as follows:

Freshman

FIRST SEMESTER		SECOND SEMESTER	
English 115	3	English 116	3
Chemistry 103	5	Chemistry 104	5
Engineering Drawing 105	2	Engineering Drawing 106	2

FORESTRY

William Jewell College, in cooperation with the School of Forestry of Duke University, offers a 5-year coordinated program in forestry, 3 years at William Jewell and 2 years at Duke University, leading to the Bachelor of Arts degree at William Jewell and the Master of Forestry degree at Duke. This combines a sound education in the liberal arts with early acquaintance and development in the profession. Applicants for this Liberal Arts-Forestry program should so indicate at the time of enrollment in college. Formal application to Duke University will be made at the end of the first semester of the third year, contingent upon the student's maintaining a high scholastic standing. For details of the pre-forestry curriculum see Dr. Gier of the Department of Biology so that all course requirements may be fulfilled.

JOURNALISM

The requirements for admission to any one of several leading professional schools of journalism are, in general, as follows:

1 year freshman English	1 year literature
1 course in composition	1 year of foreign language plus a reading course in the language
1 year of science	1 course in American Government (3 semester hrs.)
1 course in economics (3 sem. hrs.)	
1 course in sociology (3 sem. hrs.)	

LAW

The recommendation of the American Bar Association is that students expecting to enter an accredited law school should pursue their undergraduate work with the following objectives in mind: 1) clear comprehension and concise expression in the use of language; 2) historical and critical understanding of human institutions and values; 3) creative power in thinking. Recommended therefore are courses in English and speech, Latin, mathematics, logic, debate, history and government, economics and accounting, sociology, biology and psychology. There is place for considerable latitude in choice of subjects. Intensive application and a high level of attainment are important, with a grade of B or better.

MEDICINE

Students planning to study medicine should consult the catalog of the medical school which they expect to attend so as to have all pre-medical requirements fulfilled. The number of years of pre-medical work required before the study of medicine varies with the different medical schools. Some schools require only two years, some three and some the bachelor's degree.

The general course requirements are as follows: chemistry, 16 to 20 semester hours; biology, 8 to 12 semester hours; physics, 8 semester hours; English, 6 semester hours. The remaining courses should be selected from the humanities or social sciences: Latin, English literature, psychology, economics, sociology, philosophy, history. Some schools in addition require a reading knowledge of French and German.

Admission to medical school is based on the medical aptitude test, scholastic record and recommendations from the professors. No student can expect to be admitted to a medical school who does not maintain a high scholastic record.

MINISTRY

William Jewell College offers no professional theological course. Pre-theological students may choose their own major field. Students are encouraged to select a well balanced course, as recommended by the American Association of Theological Schools.

It is suggested that a student should acquire a total of 90 semester hours or complete approximately three-fourths of his college work in the areas listed below:

BASIC FIELDS	Semesters	Hours	BASIC FIELDS	Semesters	Hours
English	6	12-16	A foreign language	4	12-16

TEACHING

One of the principal aims of the Department of Education is the preparation of teachers for the elementary and high schools. Full information is available as to requirements of the state Department of Education, and the Registrar's office cooperates in the filing of applications for certificates. Some students go on to graduate study and to college and university teaching.

INTERCOLLEGIATE ATHLETICS.

William Jewell College is a member of the Missouri College Athletic Association. Intercollegiate sports consist of football, basketball, track, baseball, tennis, golf, wrestling, and cross country.

The administration and faculty of William Jewell College recognize that intercollegiate athletics is of real value to the participants and has a place in a sound educational program. There are certain principles and safeguards to which the college is definitely committed.

1. Scholarships, work aid, and other financial aids are given to athletes upon the same basis as aids to other students.

2. All scholarships and aids must be approved by a committee composed of the Vice-President, who is chairman; the Dean of the College; the Dean of Women and the Dean of Students. This applies to athletes on the same basis as to other students.

3. No special consideration is given to athletes in college classes. They must meet the same academic standards as other students.

4. There are no "snap" courses in the curriculum to accommodate athletes.

5. The athletic budget is made and controlled by the college administration in the same manner as the budgets of other departments.

INTRAMURAL PROGRAM.

The Physical Education Department in its class work lays the foundation for the intramural program through developing an interest and skill in a diversified sports program. The intramural program affords the opportunity for all students to compete in these sports and others in which they may have developed an interest. Intercollegiate athletics remains the highest goal for those who have achieved sufficient skill in intramural athletics.

GIFTS AND BEQUESTS

Gifts and bequests of money, securities, or real estate are gratefully received by William Jewell College. Many additions have thus been made to the resources of the institution.

To serve the college in this way it is not necessary to make a large bequest. There are doubtless many who without injury to family or other interests could bequeath \$500, \$1,000, \$5,000; and some who might bequeath a much larger sum.

A will must be signed by the testator in the presence of at least two disinterested witnesses. Three witnesses are preferable and in all states sufficient. It is advisable to ascertain the requirements of the law in the state in which the testator resides.

FORM OF GENERAL BEQUEST

I hereby give and bequeath to the "Trustees of William Jewell College" and to their successors forever for the use of said institution in the fulfillment of its general corporate purpose

(State here the sum of money to be given or describe the property or securities constituting the bequest.)

FORM OF BEQUEST FOR A PARTICULAR PURPOSE,
DESIGNATED BY THE TESTATOR

I hereby give and bequeath to the "Trustees of William Jewell College" and to their successors forever in trust the sum of

(State here the sum of money to be given or describe the property or securities constituting the bequest.)
to be used as follows

(Indicate here whether the gift is to be used for endowment, buildings, or current expenses.)

ANNUITIES

William Jewell College accepts sums of money from \$500 upward on the annuity basis, paying interest thereon during the life of the donor. The plan has distinct advantages. The donor has the satisfaction of having aided a worthy cause. At the same time he receives an income from the gift during his life. This income is usually larger than could be obtained through other secure investments. The safety of the principal is absolutely assured. The donor is assured also of the fulfillment of his own wish in the manner of the disposition of the gift. Finally when the recipient or recipients of the annuity payments have passed on, the principal continues to work, providing income for the needs of the institution. The giver "though being dead, yet speaketh."

Correspondence regarding gifts, bequests or annuities is solicited, and will receive the prompt attention of the President.
