UNDER ACT OF CONGRESS OF JULY 16, 1894.

Historical Sketch

I

THE religious organization which has been for many years known as "The Missouri Baptist General Association" may be considered as dating from August 29, 1834. On that day, in obedience to a previous call, a number of Baptists, both ministers and laymen, assembled at Providence church, in Calloway county, to deliberate upon the state of religion in the bounds of the churches to which they belonged, and to consult if any special measures were necessary and practicable to promote the preaching of the gospel within the bounds of the state.

The Fathers, who thus originated the body to which reference has been made in the preceding paragraph, held that co-ordinate with, if not equal to, the great work of evangelization, was that of Christian Education, and, accordingly, not many years elapsed before measures began to be taken toward the establishment of an institution where it would be possible for candidates for the ministry, as well as young men in general, to obtain under strictly Christian auspices, an education in advance of that offered by the common schools and academies of the state.

Prominent among the promoters of this enterprise was Dr. William Jewell, a native of Loudoun county, Virginia, but for many years a practicing physician of Columbia, Boone county, Missouri. It can not be said that the idea of such an institution had its *first* origin in his mind. The conditions were such that doubtless the desirability of an educational institution under Baptist control occurred to the minds of many of the thinking men and women of that period. But be that as it may, it is cer-

tain that the first forward move was taken when in the year 1843 Dr. Jewell tendered to the General Association the sum of ten thousand dollars, in lands, as a nucleus for the endowment of a college. The condition attached to this donation was the raising of a certain additional sum by the General Association, but the Committee, to whom the matter was referred, reported at the next subsequent meeting, in 1844, that it was deemed impossible to obtain that additional sum. Dr. Jewell did not, as might have been expected, withdraw his generous offer, but held himself in readiness to renew it whenever his terms should be met. During the next two or three years the subject was vigorously canvassed throughout the state, and at the meeting of the Association in 1847, a Committee was appointed to originate an institution of learning for the Baptists of Missouri, upon a plan by which its endowment and perpetuity might be secured. The Committee reported to the Association in 1848 in terms so favorable and hopeful that measures were at once taken to secure a charter from the General Assembly of Missouri. This charter was granted and approved by the Governor, February 27, 1849.

In accordance with the terms of the Charter, a meeting of all the subscribers to the endowment was held at Booneville, August 21, 1849. At this meeting 884 shares of stock, at \$48.00 each, were represented. In addition to this was a subscription of \$7,000.00 from citizens of Clay county, for building purposes only, and the original offer of ten thousand dollars in lands by Dr. Jewell, thus making a total subscription of \$59,432.00. After an animated contest the town of Liberty, in Clay county, was selected as the location of the college, and in honor of Dr. Jewell it was unanimously agreed that the name of the institution should be WILLIAM JEWELL COLLEGE.

II

The Institution, the origin of which has been outlined in the foregoing section, had now a local habitation and a name, but as yet there was no material, tangible, evidence of its existence. The Trustees, of which body Roland M. Hughes, of Boone county, was President, determined to begin at once the business of instruction and to arrange for the erection of a college building. The rooms of the old Liberty Academy were rented and fitted up for the reception of teachers and students, and on the first day of January, 1850, instruction was begun under the Rev. Elijah S.

Dulin, as Principal and Professor of Ancient Languages, and Rev. Thomas F. Lockett, as Professor of Mathematics. In September, 1850, the school was transferred to the basement rooms of the Baptist church, where it remained until its transfer, in 1853, to the college building now known as Jewell Hall. At the close of the session of 1851-2 Dr. Dulin retired from the Principalship, and during the next year the college was conducted rather as a private school, the instructors agreeing to depend for their salaries entirely upon the receipts from tuition fees, and at

the same time agreeing to give instruction without charge to all candidates for the ministry. In 1853 the trustees again assumed the financial responsibility, and for two years the college was conducted under the Presidency of the Rev. R. S. Thomas, D.D., with a faculty of five or six professors and assistants. In June, 1855, the first graduating class, consisting of five members, several of whom are still living to honor their Alma Mater, received their diplomas as Bachelors of Arts.

At the close of the session of 1854-5 it was found that the proceeds of the endowment fund (or what remained of it after the erection of the building) together with the probable receipts from

tuition fees would not be sufficient to meet the current expenses, and the work of the college was therefore suspended during the next two years. In the fall of 1857 the doors of the institution were again opened under the presidency of the Rev. William Thompson, L.L.D., with a large and very efficient faculty.

four years began promising as-fore, and every-a prosperous future for the by the midsum-coun-try was passion and ex-War, and it was of prudence to

This suspension, which it was confi-dently expected would be terminated in a few months, continued until the year 1868, except that for a few years a private school was conducted in the building by the Rev. Ed. I. Owen, L.L.D.; Rev. Th. H. Storts, and Prof. George Hughes, who were elected Professors in the college without salaries. For a part of the time during the war the building was used as a barrack for Federal soldiers.

The consequences of the war were, to all appearances, disastrous to the prospects of the college. The endowment was practically wiped out, the library and physical apparatus were scattered or destroyed, and but little was left save the building,

and that in a very dilapidated condition. Undaunted, however, by calamity, the Trustees, trusting in God and believing in the worth of the cause, determined to arise and build anew the institution in whose behalf so many prayers had been offered and for which so many sacrifices had been made.

In June, 1867, the presidency was offered to and accepted by the Rev. Thomas Rambaut, of Louisville, Kentucky, a graduate of Trinity College, Dublin, a man of broad scholarship and of large educational experience. Dr. Rambaut spent the succeeding twelve months in the work of reconstruction and reorganization, in enlisting the sympathies of the denomination in behalf of the college, and in increasing the endowment. In this work he was so far successful that on Sept. 28, 1868, the doors of the college were again thrown open to professors and students, and from that day to the present the work has been in continuous operation.

The administration of Dr. Rambaut continued until the summer of 1874, at which time, after a year spent in Europe for the benefit of his health, he resigned the presidency, and the internal affairs of the college were placed by the Trustees under the control of Prof. William R. Rothwell, as Chairman of the Faculty.

In 1875 a movement was inaugurated among the Baptists of America, known as the "Centennial Movement," the object of which was to commemorate the approaching one-hundredth anniversary of American Independence by suitably endowing all the leading educational institutions under Baptist control. The Trustees of the college, in order to take advantage of this movement (which was, unfortunately, not so successful as its promoters had anticipated), created the new office of Chancellor, and appointed thereto the Rev. W. Pope Yeaman, D.D., at that time pastor of the Third Baptist church, St. Louis. Dr. Yeaman held this office about two years, during which he traveled over the state in the interest of the college and added about \$20,000.00 to the endowment.

In 1877 Dr. Yeaman resigned his position as Chancellor, the office was abolished, and Mr. Lewis B. Ely, of Carrollton, Missouri, was appointed Financial Agent. At that date the financial affairs of the college were at a very low ebb. It was ascertained that a large portion of the assets was practically worthless, owing to various causes, among which stood out prominently the several financial panics which had in recent years over-

whelmed the country and had prevented the contributors from making good their pledges to the institution.

It would be impossible to give, in the limited space at our command, an adequate account of the great work performed by Mr. Ely, from the date of his appointment in 1877, to his death in '97. Suffice it to say that by his almost superhuman efforts he succeeded in raising the productive endowment of the college from about \$50,000.00 to more than \$200,000.00, well secured, and in addition to this, the means were provided for the buildings known as "Ely Hall" and "The Cottages." Dr. Jewell was the founder, Dr. Rambaut was the reorganizer, and Mr. Ely (known everywhere as Brother Ely) has been justly called the second founder of William Jewell College. His memory will ever be green in the hearts of all who love the institution.

IV

Prof. Rothwell continued in office as Chairman of the Faculty until June, 1883, when, on account of ill health, he resigned, and his duties were, by appointment of the Trustees, assumed by Prof. James G. Clark, who had been for ten years head of the department of mathematics. In June, 1892, the Rev. John P. Greene, D.D., pastor of the Third Baptist church of St. Louis, was called to the presidency, and he entered upon his duties at the beginning of the session of '92-'93. During his incumbency of the office of President, great progress has been made in all departments of the college. The Faculty has been largely increased, several new departments of instruction have been added or broadened, the number of matriculates has increased fully fifty per cent, waterworks and steam heat have been introduced, the buildings known as Vardeman Hall, Brown Hall and Wornall Hall have been erected, and the endowment fund has been enlarged to the extent of more than \$200,000.00. The college has evidently entered upon an era of great progress and prosperity. God, in whose name and for whose glory it was founded, has cared for it and watched over it through all its past years of darkness, doubt and difficulty. Several times, when it seemed to be on the verge of extinction, He raised up friends in its behalf, who came to its rescue. Surely, if it be but true to the teachings of His Holy Word, He will care for it hereafter as He has done in the past, and will lead it on to a career of exalted usefulness in the future.

Societies

Literary. The four Literary Societies—**Philomathic**, **Junior Philomathic**, **Excelsior**, **Junior Excelsior**—have large and elegantly furnished halls in **Jewell Hall**, where they meet every Friday evening for debate and general literary exercises.

The two Senior societies, as well as the two Junior, have inter-society contests in **Oratory**, **Debate**, **Essay**, **Reading**, and **Declamation**, for which they jointly offer gold medals. The rivalry is cordial and friendly.

Every student is urged to join one of these societies and to participate actively in all the duties pertaining thereto. The training resulting from such participation is invaluable.

Alumni. The Alumni Association, composed of the old students of the College, holds its annual meeting on **Alumni Day**, the day before Commencement. The usual order for this occasion of reunion is an **Address** and **Banquet**.

There are three local Associations in the State, one in Kansas City, and one in St. Louis, and one in Liberty.

The old students are endeavoring to raise money enough to endow a chair in the College. This fund now amounts to \$10,500.00. The number of graduates interested in this work is about five hundred.

Missionary. Aside from Mission Sunday-School work, Y. M. C. A., the **Student Volunteer Band** and **Missionary Society** make a systematic study of world-wide missions. As an aid to this study, there are over 100 volumes of excellent literature on all phases of the mission work.

Philharmonic. This is a voluntary organization whose aim is to give its members a knowledge of the higher principles of music and skill in singing productions of the best class. This society is a constitutional, self-controlling body, and is destined to accomplish much in the way of cultivating a taste for genuine music in the college.

PHILOMATHIC HALL

Scholarships

Thirty-four scholarships, for tuition, governed by donors (for sons or grandsons) or by churches.

Seven **perpetual** scholarships, for tuition, governed by donors while they live, after their death governed by the Faculty of the College.

Ely Hall. In order to afford students of limited means suitable facilities for boarding themselves at reduced rates, the large brick building known as **Ely Hall** was erected in 1881. This building accommodates about fifty students.

The Cottages. During the summer of 1890, to enable the Board of Trustees to extend the same facilities for living at moderate expense to a larger number of students than could be accommodated in **Ely Hall**, three handsome cottages were erected, affording lodging for about forty students.

VARDEMAN HALL

Dining Hall

Young men occupying rooms in Ely Hall and in the Cottages have the privilege of taking their meals with the "William Jewell Boarding Club," which provides table board at **actual cost**.

For the use of this Club, the Board of Ministerial Education erected the spacious and comfortable building known as the Vardeman Dining Hall.

Collegiate Year

The next session begins on Thursday, September 8, 1904, and closes on Wednesday, June 7, 1905. It is divided into two semesters—the second semester beginning Thursday, January 19, 1905.
