TO THE NEW STUDENT.

Students coming from other colleges must bring honorable dismissals.

Students wishing to enter later than two weeks after the beginning of a term should correspond with the college office before coming to Liberty.

No student is permitted to enter a course of study later than two weeks after the class work has begun, unless he can show that he has already done the missing work in a satisfactory manner in an accredited school.

It is always best to room in the dormitories and to board at the dining hall. If this is not possible, confer with the Treasurer, J. E. Cook, immediately on arriving in Liberty, and he will give you a list of approved boarding and rooming places. If you need employment to help you through school, write the Treasurer or consult him.

BOARD AND ROOM.

The cost of rooms and board in the various dormitories of the college will be found on page 7 of this bulletin. Students rooming in Ely Hall will be required to care for their own rooms and to furnish their own bed clothes and towels; otherwise the rooms will be neatly and comfortably furnished. They have steam heat, electric lights, hot and cold water.

Rooms in New Ely Hall are swept and cleaned by janitors, but students are required to make their own beds and to keep their rooms in order. They must also furnish their bed clothes and towels.

Students rooming in the cottages are required to care for their own rooms, to furnish their own bedding and lights and to make their own fires. Fuel will be furnished by the College.

Students rooming in the dormitories will be required to take their meals in the dining hall.

The discipline of the dormitories and dining hall is in charge of Dr. Cook. Rooms will be forfeited for disorder, negligence, idleness or bad conduct.

ALLOTMENT OF ROOMS.

The students occupying rooms in any of the dormitories may retain them for the coming year by making application previous to May 15th. A deposit of \$5.00 must be made at the time of making the application, and the remainder of the room rent must be paid not later than the opening day of the next session. Rooms not so paid for in full will not be held and the deposit will be forfeited.

All rooms vacant on May 15th will be assigned by lot to the applicants at that time. Subsequent to the annual allotment vacant rooms will be given to applicants in the order of their application, upon the above mentioned terms as to deposit and payment of rent.

ROOMS NOT IN DORMITORIES.

Students unable to room in the college dormitories will be allowed to

room at places approved by the President. Each student is required to file his place of residence with the Treasurer, and also to give notice of any change he proposes to make in his rooming or boarding place. A list of approved boarding and rooming places will be supplied the student from which he must make his selection. Board and room may be had in the town at from \$4.00 to \$5.00 per week. Some students have greatly reduced their costs of living by renting rooms and "baching." This mode of living is undesirable and never advised except as the only means of getting an education.

FREE TUITION AND FINANCIAL AID.

William Jewell College gives free tuition to ministerial students and sons of ministers. Application for free tuition must be made to the College Treasurer. Every student for the ministry must present either ordination papers or a license to preach or the formal approval of his church.

The College and the Baptist Ministerial Education Society of Missouri cooperate in giving financial aid to worthy and needy students for the ministry, who have been in school at least a year—in return for this the students are expected to do a reasonable amount of work for the College.

Various opportunities are open to literary students by which they can earn a part, if not all, of their expenses. The President has a small private fund that is also available for literary students when they are in temporary need.

SCHOLARSHIPS.

There are available thirty-four scholarships, for tuition, governed by donors (for sons or grandsons) or by churches. Of these there are:

Seven perpetual scholarships, for tuition, governed by donors while they live; after their death governed by the faculty of the College.

Students 1902-1903 scholarships, perpetual, for tuition and entrance

fees, governed by the faculty and open now to competition.

Melvin Scholarship, perpetual, for tuition and entrance fees, established by Mrs. Mary M. Melvin, by will, in honor of her husband, Thos. F. Melvin, also deceased. Open to competition.

R. E. Turner Scholarship, for tuition and entrance fees. Will be open to competition in 1918.

John Sillers Scholarship, perpetual. Not open to competition.

Marston Scholarship—This scholarship yields \$200 and is for a William Jewell College graduate in Brown University, and is open to competition under rules prescribed by the faculty. The scholarship was founded by Mr. E. L. Marston, son of Rev. S. W. Marston, D.D., who was for three year, from 1873, Superintendent of State Missions for the General Association.

Dr. Marston is remembered especially as contributing largely and valuably, in specimens, to the College Museum.

MEDALS AND PRIZES.

THE PROSE MEDAL—Dr. J. E. Cook offers a gold medal for the best prose article contributed to The Student during the session.

THE POETRY MEDAL—Formerly given by Professor R. P. Rider for the best poem contributed to The Student during the session, will be continued.

THE SENIOR SOCIETY MEDALS—The two senior literary societies offer, jointly, to their members, gold medals for oratory, debate, essay, reading and declamation.

THE JUNIOR SOCIETY MEDALS—The two junior literary societies offer, jointly, to their members, gold medals for oratory, debate, essay, reading and declamation.

THE D. A. R. AMERICAN HISTORY PRIZE—A gold medal is offered by the General Alexander Doniphan Chapter, Liberty, Mo., of the Daughters of the American Revolution for the best essay on some assigned subject. This year's subject is "A Study of the History and Contents of the State Constitutions of Missouri."

THE WILLIAM M. FITCH PRIZE—William M. Fitch, '93, offers a fifteen-dollar gold medal annually to the student who writes the best essay on some specified sociological subject.

THE WREATH AND Mallet MEDAL—This forensic and oratory gold medal is conferred on each intercollegiate debater and orator at commencement time; it is presented in behalf of the student body.

THE FRANK B. HEARNE MEDAL IN CHEMISTRY—By the will of Mrs. Roberta Lee C. Hearne, of Independence, Missouri, "the Trustees of William Jewell College are directed to purchase annually a medal to cost approximately \$50, such medal to be known as the Frank B. Hearne Medal and awarded annually as a scholarship medal for excellency in the study of chemistry. At the discretion of the Trustees, and with the approval of the recipient, the sum of \$50 in gold coin may be awarded. The bequest is in affectionate remembrance of her husband, Frank B. Hearne, whose

college education was obtained at William Jewell." This prize will in general be awarded to a member of the graduating class, but in exceptional circumstances may be given to a lower class man.

ORDER.

Every student accepted for matriculation is required to sign a pledge to obey the rules and regulations of the College. Students are granted every privilege consistent with good morals and good scholarship, but the Faculty reserves the right of sending any student home whose habits are considered inconsistent with the ideals of the institution.

Leaving town during week days or nights and using this time for other purposes than the pursuit of school duties are marks of an undesirable student. Visiting Excelsior Springs, or Kansas City, or any other out-of-town place, at any time, without a reason acceptable to the Faculty, will not be tolerated.

A student who fails to comply with these regulations, as well as with all others pertaining to honest work and moral living, may expect to be summoned before the Student Council, or the Faculty, or both, to account for his actions.

CHAPEL.

Chapel exercises are held daily at 11:30. This convocation is not only for the purpose of holding religious exercises, but also to hear public announcements and to cultivate college spirit and good fellowship.

Students are required to attend chapel on an average of four times per week for each term. If a student fails to make this average one hour credit will be deducted from his record for each unit of difference between his average attendance and the four times required.

THE LIBRARY.

The library occupies a handsome modern library building, the gift of Mr. Andrew Carnegie and other friends of the College. It contains 28,374 bound volumes, classified according to the Dewey system and fully cataloged. The reference room is equipped with many of the latest and best works of reference. The reading room receives regularly 141 leading American and foreign periodicals, besides ten daily newspapers. Many of these are bound at the end of each year.

The Spurgeon Collection, consisting of over 7,000 volumes, was the private library of the late Rev. Charles Haddon Spurgeon. It is said to be the best collection of books on Puritan theology in America.

The archives of the Missouri Baptist Historical Society, of which Professor R. P. Rider is president, are in the library building and contain much valuable Baptist history, as does also the College library.

The library is open every week day from 8:00 a. m. to 6:00 p. m., excepting Saturday afternoon. It is also open on Tuesday and Thursday evenings from 7:00 to 9:00. No library fee is charged, students and faculty having free access to the books.

LABORATORIES.

The classes in chemistry and physics are located in the Science Building, which has cost more than \$100,000 and is a thoroly modern, fireproof structure, provided with every facility for this work. Eventually all the science work will be located in this building.

REQUIREMENTS FOR ENTRANCE AND GRADUATION.

ENTRANCE.

Fifteen units are required for entrance to the freshman class. These must include:

- 2 units of one foreign language.
- 3 units of English.
- 2 units of mathematics (1 alg., 1 plane geom.).
- 1 unit of laboratory science.
- 1 unit of history.
- 6 units elective.

A unit of work is the standard unit of the high schools, approved by the Superintendent of Public Schools of Missouri. Any work done in an approved high school will be accepted for entrance, but not in greater quantity than is recommended by the department of education of the State. The amount of credit given for work done in non-approved high schools will be determined by the committee on entrance work.

A student deficient in only two units may enter the freshman class, but these conditions must be removed before the end of his sophomore year. It is sometimes necessary for a student to make up deficient units in the college department, in which case 12 hours will count one unit. Examinations for college entrance will be permitted, but not later than two weeks after the student enters school.

Sub-collegiate students are not permitted to take college work except for entrance and are, in all cases, limited to 20 hours of work per week.

As far as possible entrance work must be done in the sub-collegiate department, which is under the control of the department of education, and gives work as follows, classes meeting daily:

BIBLE: *Old Testament* (c, c1, c2), at 3:15; *New Testament and Bible Geography* (d, d1, d2), at 2:15.

ENGLISH: *Grammar and Composition* (b, b1, b2) at 8:30; *Practical English* (c, c1 c2) at 9:30; *Literature* (d, d1, d2) at 2:15.

RELIGIOUS EDUCATION: *Elementary Psychology, Sunday School Pedagogy, Sunday School Organization and Management* (d, d1, d2) at 8:30.
Courses will be given in bookkeeping (2:15 to 4:15), shorthand and

typewriting (8:30), arithmetic (9:30), church and farm bookkeeping, penmanship, rapid figuring, letter writing, business law and salesmanship.

DEGREE.

1. The College confers only the A.B. degree. Honorary degrees are not given.

2. The A.B. degree will be conferred upon students who have satisfied the entrance requirements and have completed 186 term hours of work in the manner hereafter prescribed.

PLAN OF MAJORS AND MINORS.

1. All college courses are classified in a general way under three groups which for convenience of reference will be designated by I, II, III, as follows:

I. English, Latin, Greek, French, German and Spanish.

II. Mathematics, physics, chemistry, biology and geology.

III. History and political science, sociology, philosophy, education, music and Biblical literature and religious education.

2. On entering College a student is required to take thruout his freshman year the following subjects:

Freshman English, practical ethics, one foreign language and one subject from either mathematics, physics or chemistry.

Three hours of physical education are required for graduation, and should be taken in the freshman year.

3. After completing this freshman work a student must choose one of the ten majors and its three prescribed minors as shown in the following table. A major is nine terms of work in one subject (unless otherwise stated) taken in regular sequence, and of not less than four hours per week. A minor is six terms of work with such exceptions as appear in the table.

All other work necessary to make the 186 hours for graduation is elective.

The maximum amount of credit a student may receive in one department is sixty hours.

GENERAL REGULATIONS.

1. The A. B. degree will not be granted to anyone who has not spent at least three terms in this College.
2. The College admits no special students.
3. College students are limited to 18 hours of work per week, not including physical education, but including all other work for which credit is given. Less than 12 hours of work per week cannot be carried without the permission of the faculty.
4. If a student's aggregate credit for any year falls below normal, he will be limited to 15 hours of work per week for the following year.
5. Students are not permitted to drop or exchange a study later than *one week* after recitations begin, without the consent of the proper committee.
6. A student who does not make passing grades in at least eight hours of his work in any term will not be allowed to enroll for the next following term; except that if he can show a reasonable excuse for his failure, such as sickness or prolonged absence for an excusable reason, he may be admitted by special vote of the faculty. Reports setting forth the student's progress in scholarship and deportment will be sent to parents and guardians at the end of each term and at mid-term periods when it is deemed advisable.

CLASSIFICATION.

College students are classified as follows:

- (a) A student shall be classified as *Freshman* if the number of term-hours required for his graduation lies between 162 and 108, including his conditions for entrance and excluding the year's work in actual progress.
- (b) He shall be classified *Sophomore* if the number of term-hours required for his graduation lies between 107 and 54 under the same conditions as above.
- (c) To be classified a *Junior*, the student shall have removed every condition for entrance to college, and the number of term-hours required for his graduation shall lie between 53 and 1, excluding the year's work in actual progress.
- (d) If a student has met all conditions for entrance and there remain no requirements for his graduation besides the year's work in actual progress, he shall be classified a *Senior*. No student can be classified Senior unless he has already had placed to his credit three term-hours of physical education.

GRADING AND EXAMINATIONS.

I. Grades are expressed by the letters, S, A, B, C, D and F. These letters represent an average between the class grade and the examination grade, but no student can pass a subject in which he has not received both a class grade and examination grade of at least D, which represents

a grade of not less than 60 per cent. Credits published with the courses are known as "normal credits."

II. Students who receive the grade S will be given 120 per cent of the normal credit; those receiving A will be given 110 per cent of the normal credit. The grade B entitles the student to the normal credit, but only 90 and 80 per cent, respectively, of the normal credit will be given for the grades C and D. The grade S is not given except by vote of the faculty.

III. In classes of more than 14 students the number of A and S grades combined must not exceed 20 per cent of the number of students in the class. This per cent may be increased in smaller classes.

IV. If, in a required course, a student passes but fails to make the normal credit, he will not be required to make up the deficiency in any especially designated course.
