RESERVE OFFICERS' TRAINING CORPS.

A unit of the R. O. T. C. has been established at the College. Any male student, not physically incapacitated, may elect this work. If it is elected the first two years in full become a requirement for graduation, unless the student is excused by the President of the College and the commanding officer of the corps. The work consists of three hours per week of practical and theoretical military training and the government will furnish the student with uniform and complete military equipment. A credit toward graduation of 6 hours will be allowed and the work takes the place of the regular athletic requirement.

On the completion of the first two years the student may elect an additional two years which will require 5 hours per week of practical and theoretical military training for which a credit toward graduation of 2 hours will be allowed. In addition the student must attend a summer camp of at least six weeks, during which time all equipment will be furnished and expenses paid by the government.

Students electing the second two years' work will be provided by the government with uniform and complete military equipment and will receive in addition a subsistence allowance of 40 cents per day throughout the school year. On completing the four years' work satisfactorily the student will be recommended for a commission as an officer in the Reserve Corps.

The government contemplates certain changes in the R. O. T. C. favorable to the student and the right is reserved to make such changes as may be necessary. Students in the corps are under military discipline only during the hours of military instruction. If the number enrolling in the corps should fall below 100 it may be necessary to discontinue the work.

Students completing the work of a junior R. O. T. C. and those having had previous military experience will receive advanced standing in the R. O. T. C. College entrance credit of one-half unit per year is allowed for work in a junior R. O. T. C.

Credit toward graduation for athletic work cannot be given in addition to credit for R. O. T. C. work, but it is not intended that the work of the regular athletic teams will be interfered with.

YOUNG WOMEN.

The Trustees of the College have again decided to admit young women to the Collegiate Department, without fully committing the institution to coeducation.

The College is not prepared to furnish dormitory room for young ladies nor to assume the responsibility for their home life.

BOARD AND ROOM.

The cost of rooms and board in the various dormitories of the College will be found on page 9 of this bulletin. Students rooming in Ely Hall will be required to care for their own rooms and to furnish their own bed clothes and towels; otherwise the rooms will be neatly and comfortably furnished. They have steam heat, electric lights, hot and cold water.

Rooms in New Ely Hall are swept and cleaned by janitors, but students are required to make their own beds and to keep their rooms in order. They must also furnish their bed clothes and towels.

Students rooming in the dormitories will be required to take their meals in the dining hall.

ALLOTMENT OF ROOMS.

The students occupying rooms in any of the dormitories may retain them for the coming year by making application previous to May 15th. A deposit of \$5.00 must be made at the time of making the application, and the remainder of the room rent must be paid not later than the opening day of the next session. Rooms not so paid for in full will not be held and the deposit will be forfeited.

All rooms vacant on May 15th will be assigned by lot to the applicants at that time. Subsequent to the annual allotment vacant rooms will be given to applicants in the order of their application, upon the above mentioned terms as to deposit and payment of rent.

ROOMS NOT IN DORMITORIES.

Students unable to room in the College dormitories will be allowed to room at places approved by the President. Each student is required to file his place of residence at the College office, and also to give notice of any change he proposes to make in his rooming or boarding place. A list of approved boarding and rooming places will be supplied the student from which he must make his selection. Board and room may be had in the town at from \$4.00 to \$5.00 per week. Some students have greatly reduced their costs of living by renting rooms and "batching." This mode of living is undesirable and never advised except as the only means of getting an education.

REDUCED TUITION AND FINANCIAL AID.

William Jewell College gives reduced tuition to ministerial students and sons and daughters of ministers. To secure reduced tuition each student for the ministry must present either ordination papers, a license to preach or the formal approval of his church.

Various opportunities are open to students by which they can earn a part, if not all, of their expenses. The President has a small private fund that is also available for students when they are in temporary need.

A loan fund of \$3,000 is available for the benefit of students worthy of financial aid. All funds provided by churches or individuals and designated for certain students will be administered according to the wishes of the donors. It is desired that churches sending needy ministerial students to College should either give them direct aid or provide for them through the College.

SCHOLARSHIPS.

There are a number of scholarships, some of which are owned and governed by the donors; others are open to competition. The Mary M. Melvin and Noah M. Givan scholarships, each yielding \$50.00 per year, are open to competition. These scholarships are payable in tuition and are awarded by the faculty. The R. E. Turner scholarship has been awarded for the year 1919-1920.

The Marston scholarship yields \$200 and is for a William Jewell College graduate in Brown University. It is open to competition under rules prescribed by the faculty. The scholarship was founded by Mr. E. L. Marston, son of Rev. S. W. Marston, D.D., who was for three years, from 1873, Superintendent of State Missions for the General Association.

Dr. Marston is remembered especially as contributing many valuable specimens to the College Museum.

MEDALS AND PRIZES.

THE D. A. R. AMERICAN HISTORY PRIZE—A gold medal is offered by the General Alexander Doniphan Chapter, Liberty, Mo., of the Daughters of the American Revolution, for the best essay on some assigned subject.

THE WILLIAM M. FITCH PRIZE—William M. Fitch, '93, offers a \$15.00 gold medal annually to the student who writes the best essay on some specified sociological subject.

THE FRANK B. HEARNE MEDAL IN CHEMISTRY—By the will of Mrs. Roberta Lee C. Hearne of Independence, Missouri, "the Trustees of William Jewell College are directed to purchase annually a medal to cost approximately \$50.00, such medal to be known as the Frank B. Hearne Medal and awarded annually as a scholarship medal for excellency in the study of chemistry. At the discretion of the Trustees, and with the approval of the recipient, the sum of \$50.00 in gold coin may be awarded. The bequest is in affectionate remembrance of her husband, Frank B. Hearne, whose college education was obtained at William Jewell." This prize will in general be awarded to a member of the graduating class, but in exceptional circumstances may be given to a lower class man.

ORDER.

Every student accepted for matriculation is required to sign a pledge to obey the rules and regulations of the College. Students are granted every privilege consistent with good morals and good scholarship, but the faculty reserves the right of sending any student home whose habits are considered inconsistent with the ideals of the institution.

Leaving town during week days or nights and using this time for other purposes than the pursuit of school duties are marks of an undesirable student.

A student who fails to comply with these regulations, as well as with all others pertaining to honest work and moral living, may expect to be summoned before the Student Council, or the faculty, or both, to account for his actions.

The Student Council, consisting of representatives from the various College classes and the Sub-collegiate Department was organized for the purpose of discussing and recommending to the faculty matters of general interest to the College. This council gives valuable assistance in matters of discipline and in the promotion of popular government among the students.

CHAPEL.

All students are required to attend chapel exercises, which are held daily except Monday, at 11:30. This convocation is not only for the purpose of holding religious exercises, but also to hear public announcements and to cultivate college spirit and good fellowship.

THE LIBRARY.

The library occupies a handsome modern library building, the gift of Mr. Andrew Carnegie and other friends of the College. It contains 29,088 bound volumes, classified according to the Dewey

system and fully cataloged. The reference room is equipped with many of the latest and best works of reference. The reading room receives regularly 185 leading American and foreign periodicals, besides eight daily newspapers. Many of these are bound at the end of each year.

The Spurgeon Collection, consisting of over 7,000 volumes, was the private library of the late Rev. Charles Haddon Spurgeon. It is said to be the best collection of books on Puritan theology in America.

The archives of the Missouri Baptist Historical Society, of which Professor R. P. Rider is president, are in the library building and contain much valuable Baptist history, as does also the College library.

The library is open every week day from 8:00 a. m. to 6:00 p. m. except Saturday afternoon. No library fee is charged, students and faculty having free access to the books.

LABORATORIES.

The departments of chemistry, physics and biology are located in the Science Building, a thoroughly modern, fireproof structure, provided with every facility for this work.

REQUIREMENTS FOR ENTRANCE AND GRADUATION.

ENTRANCE.

Fifteen units are required for entrance to the freshman class. These must include:

- 2 units of one foreign language.
- 3 units of English.
- 2 units of mathematics (1 alg., 1 plane geom.).
- 1 unit of laboratory science.
- 1 unit of history.
- 6 units elective.

A unit of work is the standard unit of the high schools, approved by the Superintendent of Public Schools of Missouri. Any work done in an approved high school will be accepted for entrance, but not in greater quantity than is recommended by the department of education of the State. The amount of credit given for work done in non-approved high schools will be determined by the committee on entrance work.

A student deficient in only two units may enter the freshman class, but these conditions must be removed before the end of his sophomore year. It is sometimes necessary for a student to make up deficient units in the College department, in which case 12 hours will count one unit. Examinations for college entrance will be permitted, but not later than two weeks after the student enters school.

Sub-collegiate students are not permitted to take college work except for entrance and are, in all cases, limited to 20 hours of work per week.

As far as possible entrance work must be done in the sub-collegiate department, which is under the control of the department of education, and gives work as follows, classes meeting daily:

ENGLISH: *Advanced Grammar and Composition* (b, b1, b2), at 8:30; *Composition and Classics* (c, c1, c2) at 9:30; *American Literature* (d, d1, d2) at 2:15.

HISTORY: *Ancient* (c, c1, c2) at 2:15; *Medieval and Modern* (m, m1, m2) at 10:30; *American* (e, e1, e2) at 9:30.

LATIN: *First Year* (a, a1, a2) at 3:15; *Caesar* (b, b1, b2) at 10:30.

MATHEMATICS: *Beginning Algebra* (b, b1, b2) at 2:15; *Plane Geometry* (c, c1, c2) at 1:15; *Solid Geometry and Second Year Algebra* (d, e, e1) at 8:30.

RELIGIOUS EDUCATION: *Elementary Psychology, Sunday School Pedagogy and Biblical Literature, Sunday School Organization and Management* (d, d1, d2) at 8:30.

BUSINESS: Courses will be given in bookkeeping (2:15 to 4:15), shorthand and typewriting (8:30), arithmetic (9:30), church and farm bookkeeping, penmanship, rapid figuring, letter writing, business law and salesmanship.

DEGREE.

1. The College confers only the A.B. degree. *Honorary degrees are not given.*

2. The A.B. degree will be conferred upon students who have satisfied the entrance requirements and have completed 186 term hours of work in the manner hereafter prescribed.

PLAN OF MAJORS AND MINORS.

1. All College courses are classified in a general way under three groups which for convenience of reference will be designated by I, II, III, as follows:

I. English, Latin, Greek, French, German and Spanish.

II. Mathematics, physics, chemistry, biology and geology.

III. History and political science, sociology, philosophy, education and Biblical literature and religious education.

2. On entering College a student is required to take in his freshman year the following subjects:

Freshman English, practical ethics, one foreign language and one subject from either mathematics, physics, chemistry or biology.

All students except members of the R. O. T. C. are required to

spend at least one hour each school day in some form of athletic sport approved by the faculty. Credit toward graduation will be given at the rate of 1-3 hour per term. A maximum of 4 hours may be offered toward graduation. At least 3 hours' credit must be offered by candidates for graduation.

No permanent excuse from this work will be granted to any student, but a temporary excuse may be granted if the student is actually engaged in manual labor which tends to develop the body and relieve the nervous strain common to sedentary life. This excuse may be revoked at any time it is deemed advisable by the Athletic Committee.

3. After completing the freshman work a student must choose one of the eight majors and its three prescribed minors as shown in the following table. A major is nine terms of work in one subject (unless otherwise stated) taken in regular sequence, and of not less than four hours per week. A minor is six terms of work with such exceptions as appear in the table.

All other work necessary to make the 186 hours for graduation is elective.

The maximum amount of credit a student may receive in one department is sixty hours.

GENERAL REGULATIONS.

1. The A.B. degree will not be granted to anyone who has not spent at least three terms in this college.
2. The College admits no special students.
3. College students are limited to 18 hours of work per week, with certain minor exceptions hereafter noted, not including physical education, but including all other work for which credit is given. Less than 12 hours of work per week cannot be carried without the permission of the faculty.
4. Students are not permitted to drop or exchange a study later than *one week* after recitations begin, without the consent of the proper committee.

CLASSIFICATION.

College students shall be classified as follows:

(a) A student shall be classified as *Freshman* if the number of term-hours required for his graduation lies between 162 and 108, including his conditions for entrance and excluding the year's work in actual progress.

(b) He shall be classified as *Sophomore* if the number of term-hours required for his graduation lies between 107 and 54 under the same conditions as above.

(c) To be classified a *Junior*, the student shall have removed every condition for entrance to college, and the number of term-hours required for his graduation shall lie between 53 and 1, excluding the year's work in actual progress.

(d) If a student has met all conditions for entrance and there remain no requirements for his graduation besides the year's work in actual progress, he shall be classified a *Senior*.

GRADING AND EXAMINATIONS.

I. Grades are expressed by the letters, S. A. B. C. D and F. These letters represent an average between the class grade and the examination grade, but no student can pass a subject in which he has not received both a class grade and examination grade of at least D, which represents a grade of not less than 60 per cent. Credits published with the courses are known as "normal credits."

II. Students who receive the grade S will be given 120 per cent of the normal credit; those receiving A will be given 110 per cent of the normal credit. The grade B entitles the student to the normal credit, but only 90 and 80 per cent, respectively, of the normal credit will be given for the grades C and D. The grade S is not given except

by vote of the faculty.

III. In classes of more than 14 students the number of A and S grades combined must not exceed 20 per cent of the number of students in the class. This percentage may be increased in smaller classes.

IV. If, in a required course, a student passes but fails to make the normal credit, he will not be required to make up the deficiency in any especially designated course.

COURSES IN DETAIL.

Commas separating course numbers indicate that the courses may be taken in any order. Dashes indicate that one is a prerequisite to the next.

Y. M. C. A.—A Young Men's Christian Association is supported by the students and is a very important factor in the college life.

THE JUDSON-PECK SOCIETY is an organization of the faculty and students for doing mission work in connection with the Baptist churches

of Kansas City and vicinity and to assist ministerial students in the solution of their individual problems.

THE COOPERATIVE ASSOCIATION enables students to procure school supplies at low prices.

MUSICAL ORGANIZATIONS—A band, glee club, orchestra and quartet are usually organized each year.

THE KHEM CLUB is an organization of advanced students in chemistry.

THE ALUMNI ASSOCIATION.

Headquarters: Liberty, Missouri.

President: WILLIAM M. FITCH, St. Louis.

Secretary: E. H. NORTON, JR., Liberty.

Local associations are sustained in St. Louis, Kansas City, St. Joseph and Chicago.

The future success of William Jewell College depends largely upon the efforts of the Alumni Association.

It is the desire of the Trustees and Faculty of William Jewell to secure a still closer co-operation of the Alumni with the direct interests of the college. The Alumni are urged to keep themselves informed as to the ideals, the policies and the needs of their Alma Mater, and to see that the institution is conducted on the highest plane of efficiency and economy, both as to administration and teaching.

Arrangements have been made whereby a committee consisting of members of the Alumni, Faculty and Trustees is to meet at least once a year to discuss college problems.
